1 Introduction

National Nutrition Mission targets reduction in the level of under-nutrition and other related problems by ensuring convergence of various nutrition related schemes. The Mission will monitor and review implementation of all such schemes. In this endeavor, the Mission seeks to utilize existing structural arrangements of line Ministries wherever available. The NNM would primarily be a monitoring and reviewing body for taking stock of monitorable indicators of nutrition centric schemes/programmes requiring convergent actions for better and effective delivery to the targeted beneficiaries. Information and Communication Technology enabled Real Time Monitoring (ICT-RTM) will be one of the tools utilized for the above.

One of the key interventions of the project is the ICT-RTM of ICDS aimed at improving the service delivery system of ICDS. ICT-RTM driven by Common Application Software (ICDS-CAS) largely comprises of a mobile application installed on a smartphone for use by the Anganwadi Workers (AWWs) and the Sector Supervisors. The data captured by AWWs is available on the centralized web-based ICDS-CAS dashboard for monitoring and review across different administrative levels including Block, District, State and Centre

With the deployment of ICDS-CAS, the usage of 10 out of 11 ICDS registers by the Anganwadi Workers (AWWs) have been eliminated, thus improving the efficiencies in service delivery. The objective of this initiative are as follows:

- Name-based registration of ICDS beneficiaries in each AWC catchment area
- Improvement in AWW efficiency and effectiveness by embedding job aids and tools in their mobile phones (e.g. Nutrition Counseling of Pregnant Women, Infant and Young Child Feeding practices, etc.)
- Monitor timelines and quality of service delivered to the beneficiaries by AWW
- Availability of reports and dashboards with information to various stakeholders for prompt action and decision-making

This document is a user-manual for the ICDS-CAS Dashboard and has been designed to help the Government at all levels (National Level to the Block level). This manual will enable the user to use the ICDS-CAS Dashboard on their computers to view real time information collected by the Anganwadi workers on their phones and provide timely supportive supervision. The six tier reporting structure enabled by ICDS-CAS is provided in Figure 1 below:

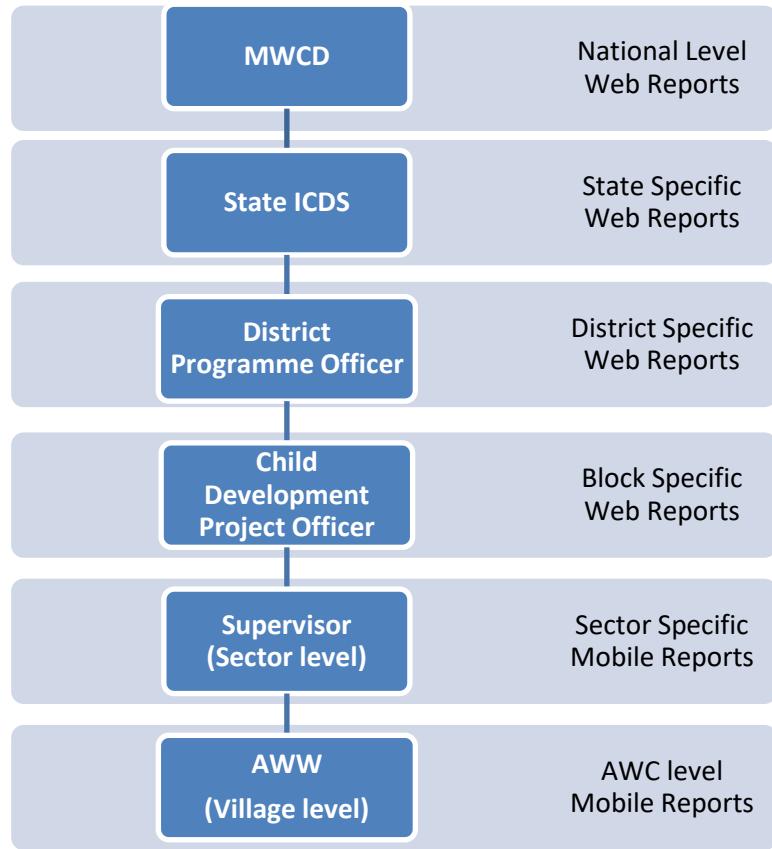

Figure 1: Dashboard Reporting Structure

2 ICDS-CAS Dashboard

The ICDS-CAS Dashboard has been created for use by MWCD officials at the National, State, District and Block Levels to be able to access real time information in order to:

1. View raw data submitted by AWWs and Lady Supervisors in a useful and easily understandable manner
2. Monitor and evaluate ICDS indicators in order to view progress and identify problem areas
3. Supervise the functioning of the ICDS program
4. Make prompt data-driven decisions to improve service delivery

In the Figure 2 below, a high level process flow of data collection from the end beneficiaries to the Dashboard has been depicted.

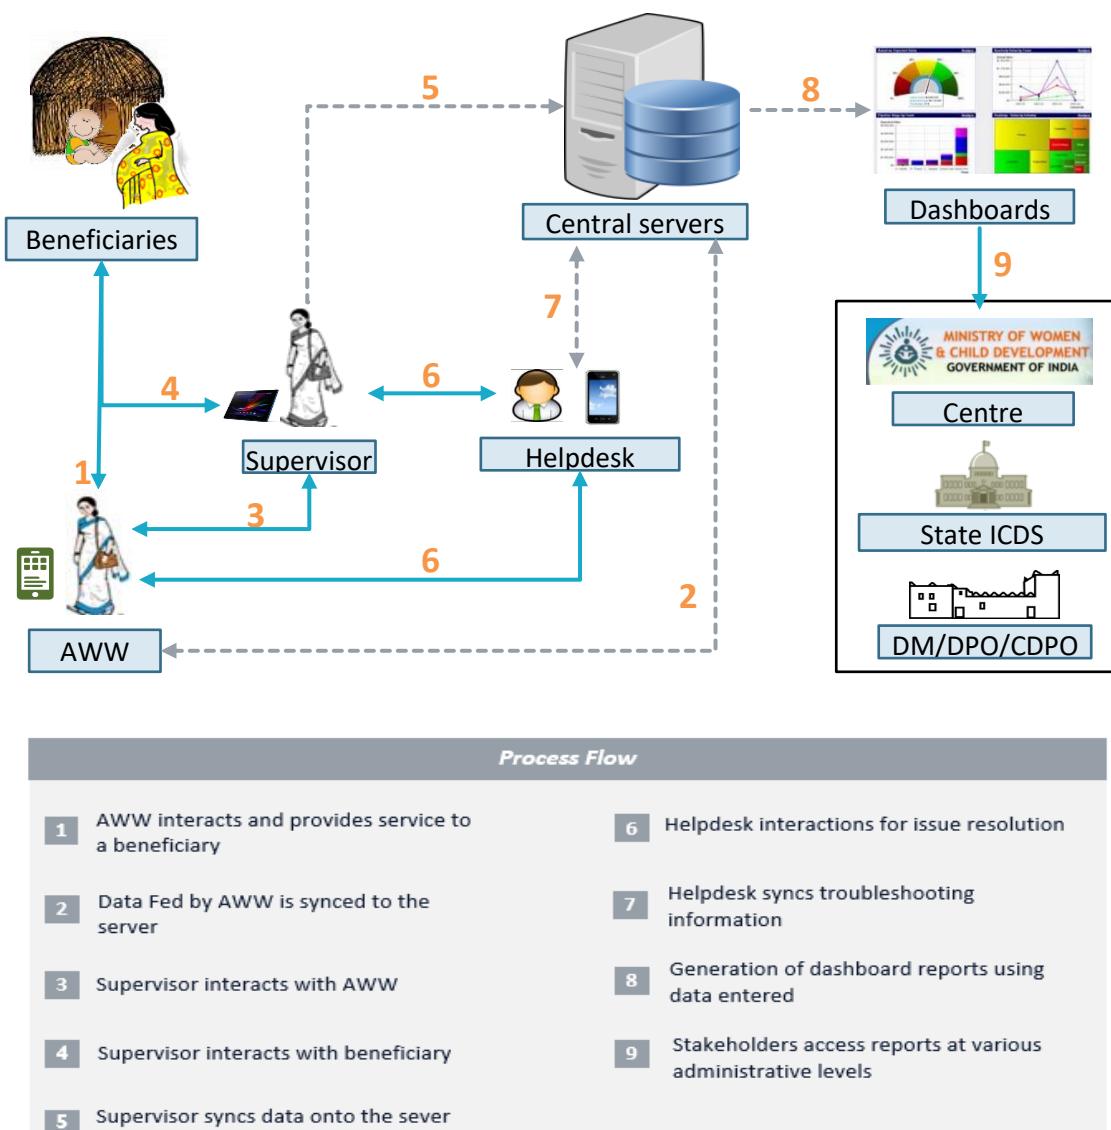

Figure 2: Data Process Flow

When is data being sent to the server?

1. Data is sent to the central servers to update the Dashboards in real time (as user syncs with server)
2. Reports displayed on the dashboards will be updated once a day (Midnight IST) with data from forms submitted by AWWs and Supervisors.
3. Data will be displayed in accordance to the reporting period (i.e. monthly data)
4. Dashboard users may view up-to-date data at any time. However, to gather the most accurate picture of the ICDS program at the beginning of a month, dashboard users must view data for the previous month.

3 Log-in instructions for the ICDS-CAS Dashboard

The ICDS-CAS Dashboard is a web based system. Each dashboard user will be given a username and password. The URL for accessing ICDS-CAS Dashboard is: www.icds-cas.gov.in/a/icds-cas. Navigate to this URL on your web browser.

Note: The most suitable browser to view Dashboards is Google Chrome or Mozilla Firefox.

1. You will be prompted to sign in
2. Enter the dashboard username and password as communicated to you
3. Click on Reports -->View All
4. Click on 'Dashboard ICDS-CAS' to view the Dashboard

Figure 3: Login Page

4 Navigating the ICDS-CAS Dashboard

Program Summary will be the default selection on the landing page of the dashboard. Each page of the dashboard displays data based on the administrative level of the user who logs in.

On the Program Summary page a National level user will view data for the entire country and can drill down to lower administrative levels (State/District/Block/Sector). A State level user can view data for the entire State and can drill down to lower levels (District/Block/Sector/AWC), a District level user can view data for his/her District and can drill down to lower levels (Block/Sector), a Block level user can view data for his/her Block and can drill down to lower levels (Sector).

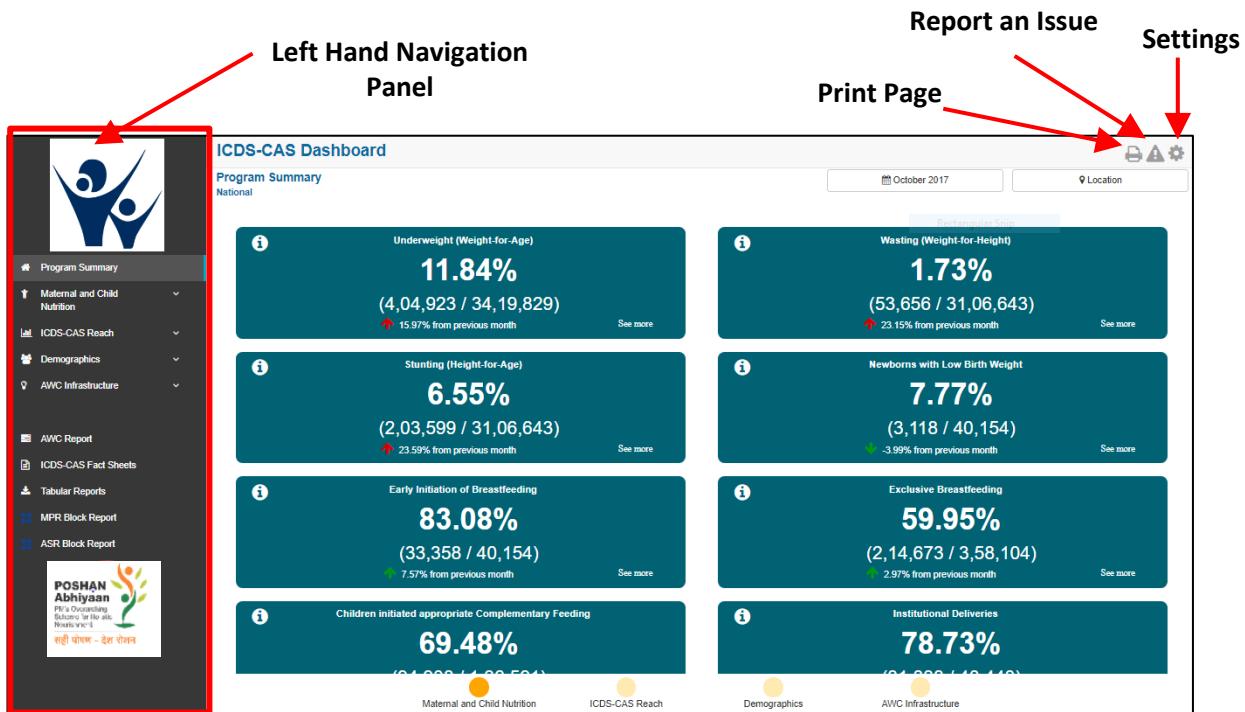

Figure 4: Landing Page

The **Left Hand Navigation Panel** has the following main sections:

1. Program Summary

This section highlights the key performance indicators for each of the following program areas:

- Maternal and Child Nutrition
- ICDS-CAS Reach
- Demographics
- AWC Infrastructure

2. Map and Chart Views

The following program areas are displayed on the panel with a dropdown menu of indicators under each area. In this section, visual representation of each indicator is available as Map and Chart views.

- i. Maternal and Child Nutrition
- ii. ICDS-CAS Reach
- iii. Demographics
- iv. AWC Infrastructure

3. AWC Report

This section highlights individual AWC level details across various areas like Pre-School Education, Maternal and Child Nutrition, Demographics, etc.

4. ICDS-CAS Fact Sheets

This section highlights the time-series data for each indicator organized by outcome areas like Behavior Change, Water, Sanitation and Hygiene, etc.

5. Tabular Reports

This section offers access to download excel reports across various program areas like Demographics, System Usage, Child beneficiary list, etc.

6. MPR/ASR Block Report

This section provides user links to the Monthly Progress Report and Annual Summary Report.

The icons on the top right side of the page provide access to the following functionalities which are explained below:

The ‘Download User Manual’ icon allows the user to download a PDF version of the user manual

The ‘Print Page’ functionality allows the user to print any page on the dashboard

The ‘Report an Issue’ functionality allows a Helpdesk user to log dashboard related issues via the Issue Tracker Web Application. When a Helpdesk user clicks on ‘Report an Issue’, the dashboard will direct the user to the Issue Tracker Web Application. The user will be required to follow the steps on the web application to report a new issue. If an ICDS official (CDPO / DPO) intends to report an issue, he/she should contact the nearest District / Block Helpdesk.

The ‘Settings’ functionality allows the user to manage account settings like updating personal information, changing password, etc.

The views for each level of the stakeholders are explained in the subsequent sub-sections.

4.1 National Level View

If a National Level user (MWCD / CPMU) logs into the dashboard, the landing page will show a National view as shown in the below snapshot.

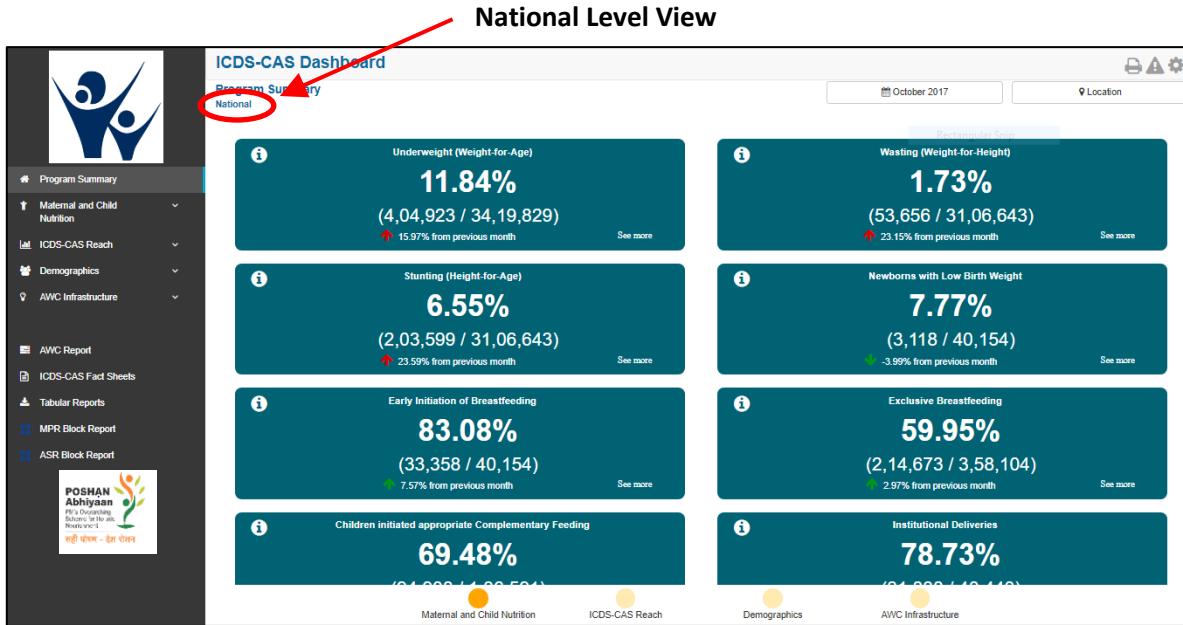

Figure 5: Landing Page: National Level View

4.2 State Level View

If a State Level user (SPMU, State Helpdesk) logs into the dashboard, the landing page will show a State level view as shown in the below snapshot.

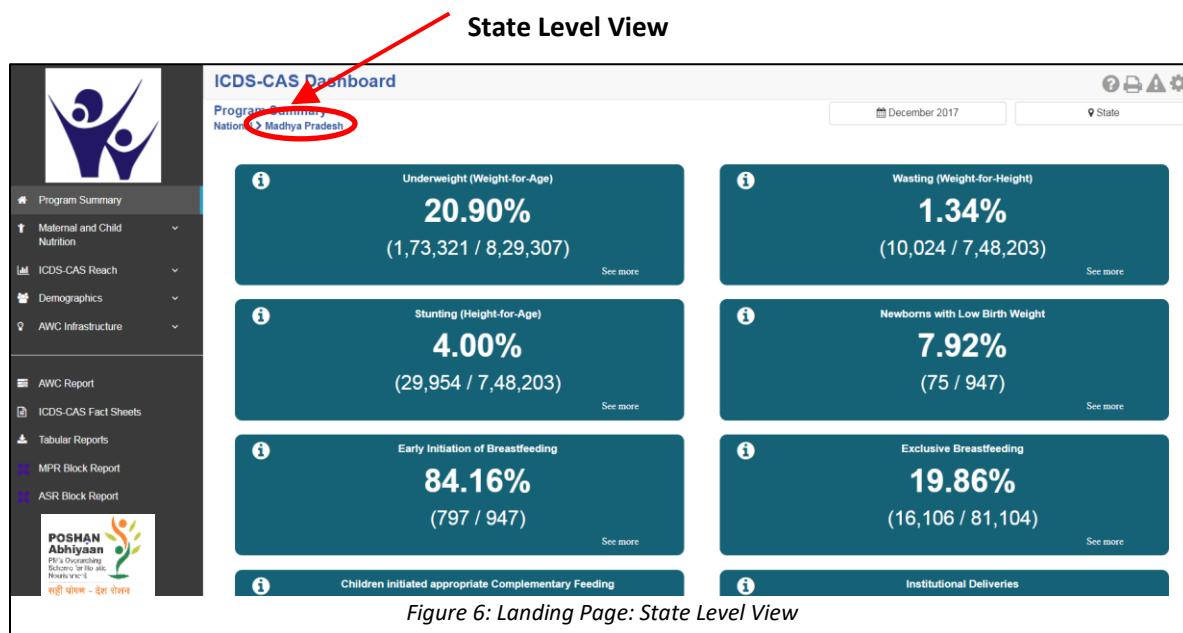

Figure 6: Landing Page: State Level View

4.3 District Level View

If a District level user (DPO / District Helpdesk) logs into the dashboard, the landing page will show a District level view as shown in the below snapshot.

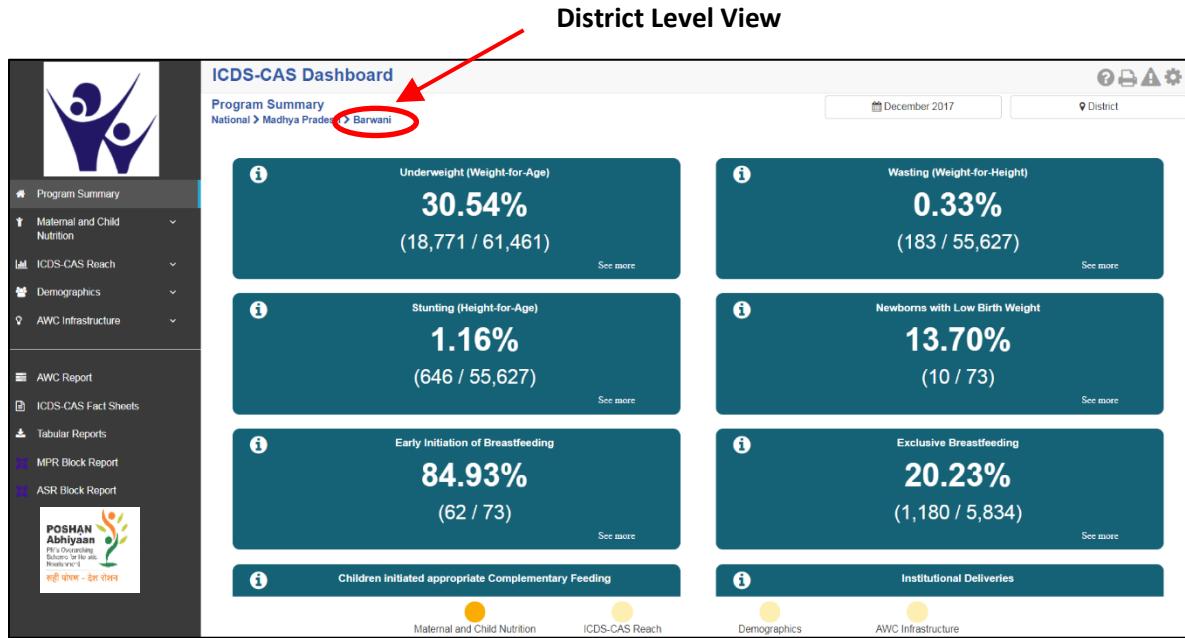

Figure 7: Landing Page: District Level View

4.4 Block Level view

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the landing page will show a Block level view as shown in the below snapshot.

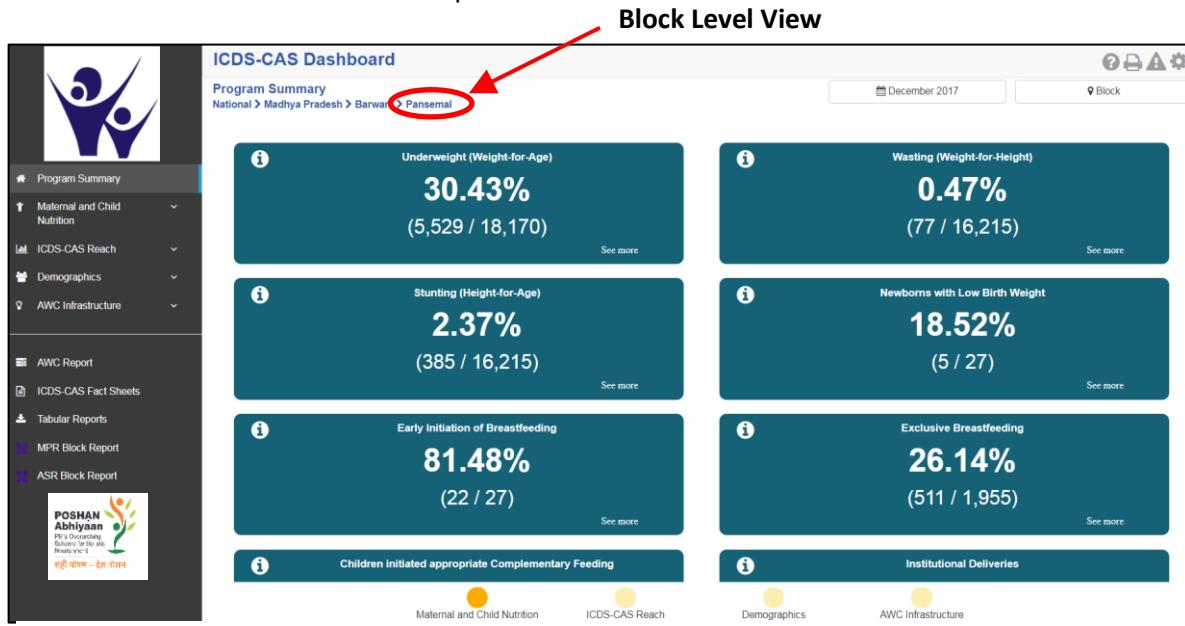

Figure 8: Landing Page: Block Level View

5 Program Summary

The section shows a consolidated snapshot of all the indicators in the form of Key Performance Indicator (KPI) cards. The user is able to view data for current or previous months by using the 'Select Month/Year' filter and/or can view data for various locations by using the 'Select Location' filter. For example – A State level user can drill down to District / Block / Sector / AWC but will not be able to view National level data.

Select Month / Year: The user can click on the time filter as shown in the figure below and select the Month / Year for which the user intends to view the data and click on 'Apply'. All the data on the page will change according to the selected time period. In order to gather the most accurate scenario at the beginning of a month, the user should view data for the previous month.

Select Location: The user can click on 'Location' as shown in the figure below and select the administrative level for which the user intends to view the data and click on 'Apply'

If the user selects an Anganwadi Centre (AWC) level, the dashboard will direct the user to the 'AWC Report' which is explained in detail in Section 10.

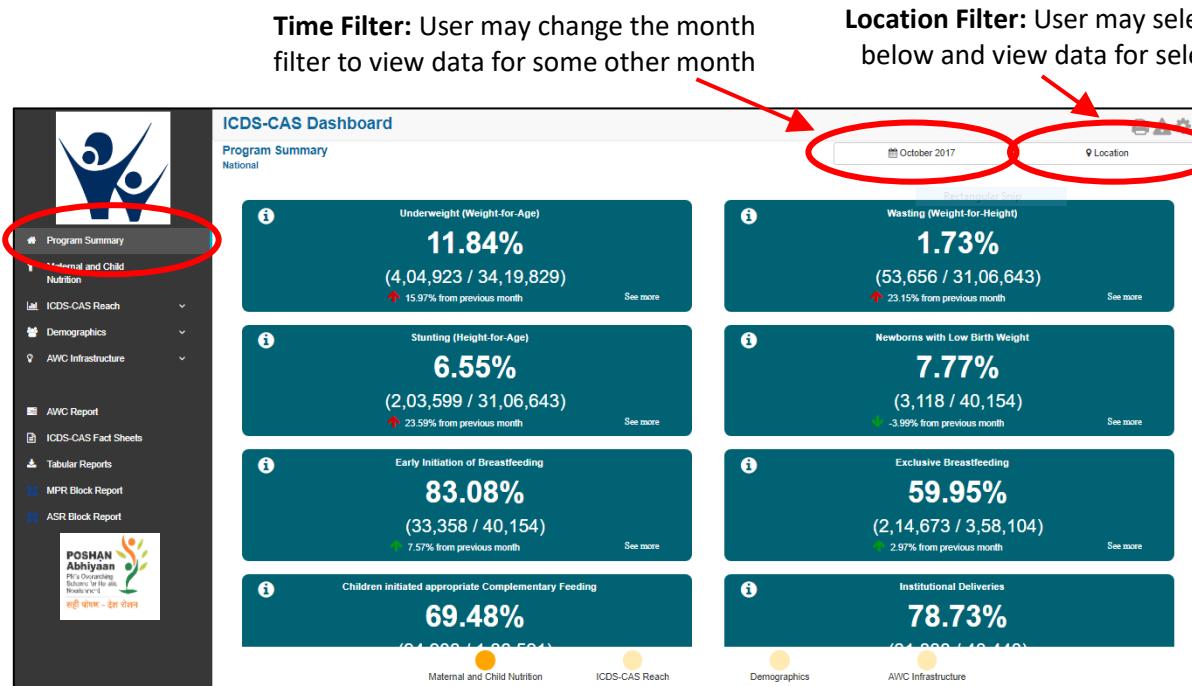

Figure 9: Program Summary: Maternal and Child Nutrition

Click bubble navigation to view key performance indicators for each program area

Program Summary page will display KPI cards for various indicators organized by each of the following program areas:

1. Maternal and Child Nutrition
2. ICDS-CAS Reach
3. Demographics
4. AWC Infrastructure

The user may navigate between the program areas using the bubble navigation provided at the bottom of the Program Summary page.

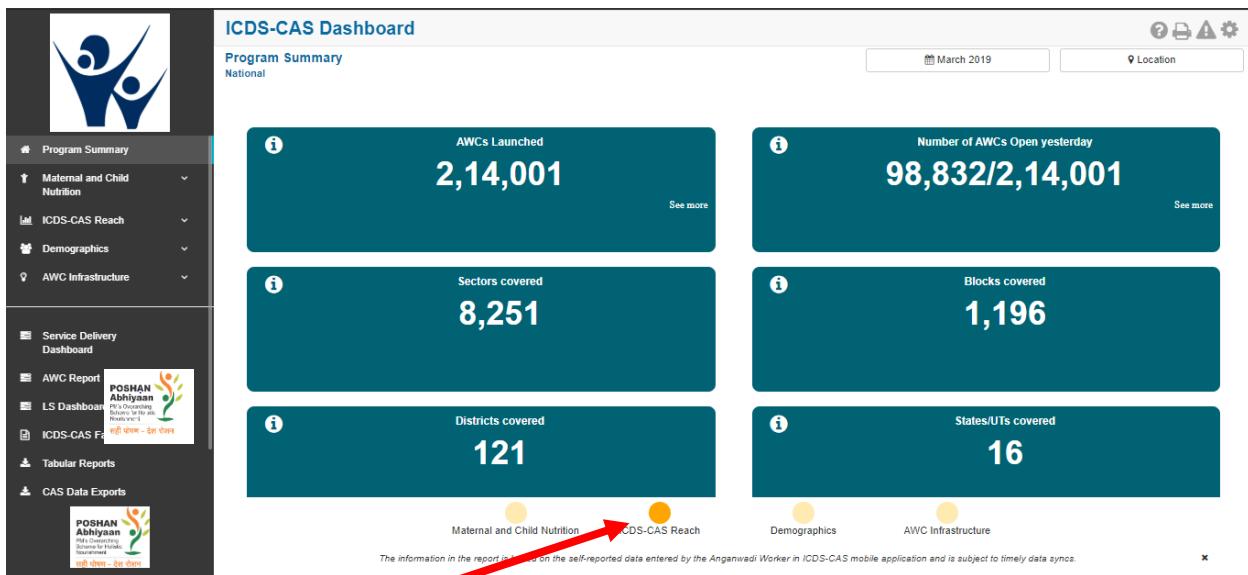

Figure 10: Program Summary: ICDS-CAS Reach

Click bubble navigation to view KPI cards for ICDS-CAS Reach

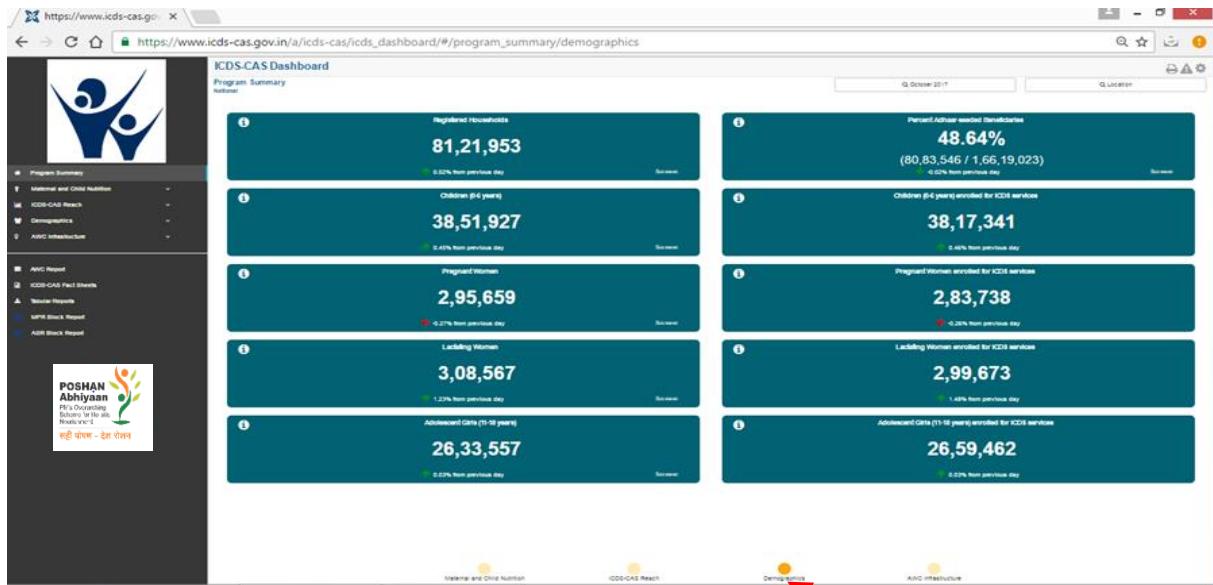

Figure 11: Program Summary: Demographics

Click bubble navigation to view KPI cards for Demographics

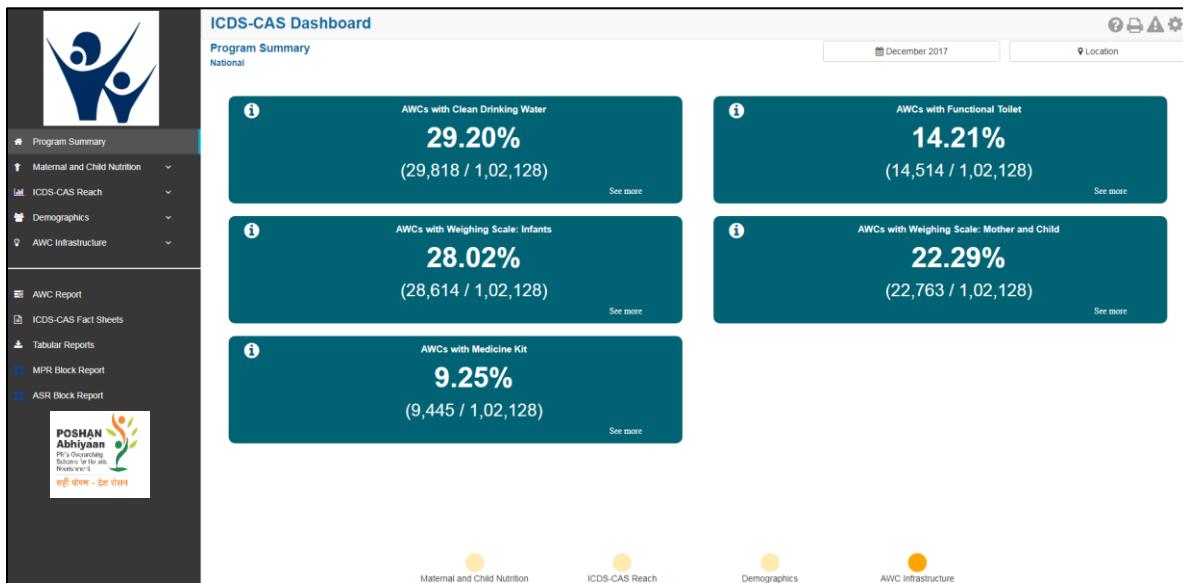

Figure 12: Program Summary: AWC Infrastructure

Click bubble navigation to view KPI cards for AWC Infrastructure

KPI Card: The below figure explains the ‘Underweight (Weight-for-Age)’ KPI card available under ‘Maternal and Child Nutrition on the Program Summary page.

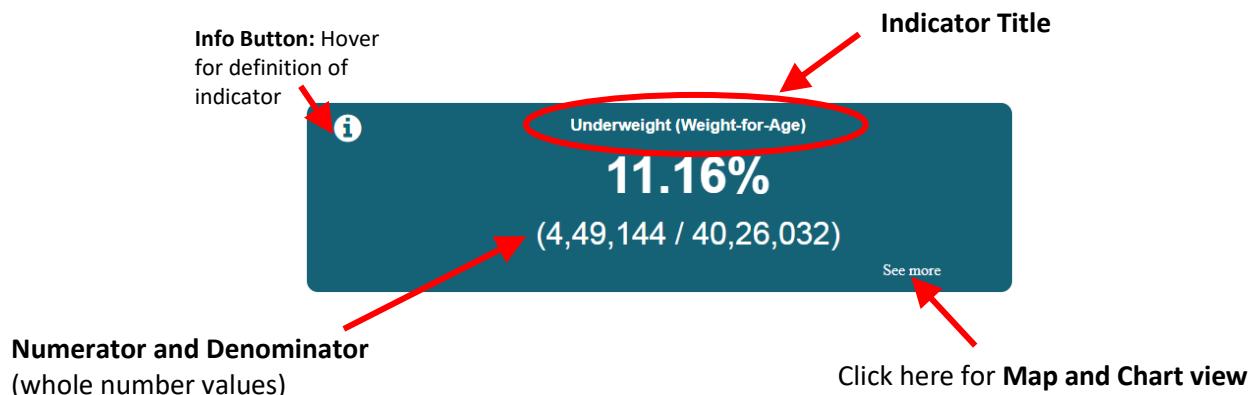

Figure 13: Underweight (Weight-for-Age) KPI Card

Click on ‘See More’ to move to ‘Map View’ for this indicator. User will see the map view based on the user level. For Example – A State level user will be able to see the State map and drill down to the lower levels. He / she will not be able to see a National level map. Navigating to the Map and Chart Views for each Program Area is explained in Sections 6-9.

6 Maternal and Child Nutrition

Maternal and Child Nutrition includes indicators that provide information about mother and child health. The section has the following list of indicators:

1. Underweight (Weight-for-Age)
2. Wasting (Weight-for-Height)
3. Stunting (Height-for-Age)
4. Newborns with Low Birth Weight
5. Early Initiation of Breastfeeding
6. Exclusive Breastfeeding
7. Children initiated appropriate Complementary Feeding
8. Institutional Deliveries
9. Immunization Coverage (at age 1 year)

On the left hand navigation panel, click on ‘Maternal and Child Nutrition’ to see a detailed list of indicators. Select the indicator to see a detailed ‘Map View’ for the selected indicator.

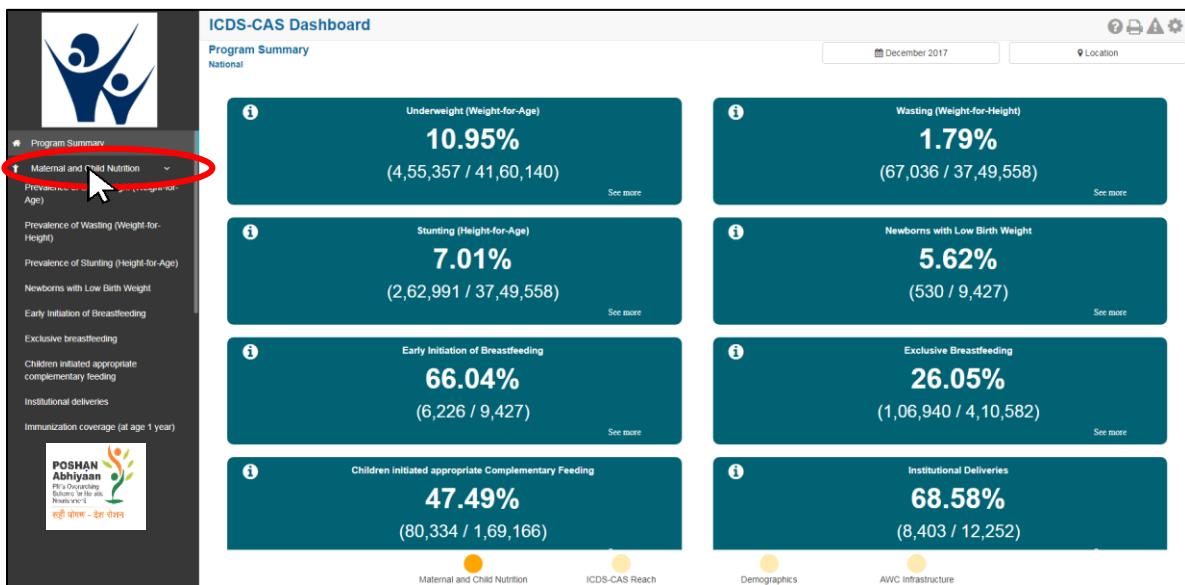

Figure 14: Link to view Maternal and Child Nutrition

6.1 Underweight (Weight-for-Age)

The first indicator under ‘Maternal and Child Nutrition’ is ‘Underweight (Weight-for-Age)’ which is explained below.

Definition of indicator - Percentage of children between 0-5 years enrolled for ICDS services with weight-for-age less than -2 standard deviations of the WHO Child Growth Standards median. Children who are moderately or severely underweight have a higher risk of mortality.

Click on the indicator ‘Prevalence of Underweight (Weight-for-Age) from the left hand navigation panel under ‘Maternal and Child Nutrition’ to enter ‘Map View’.

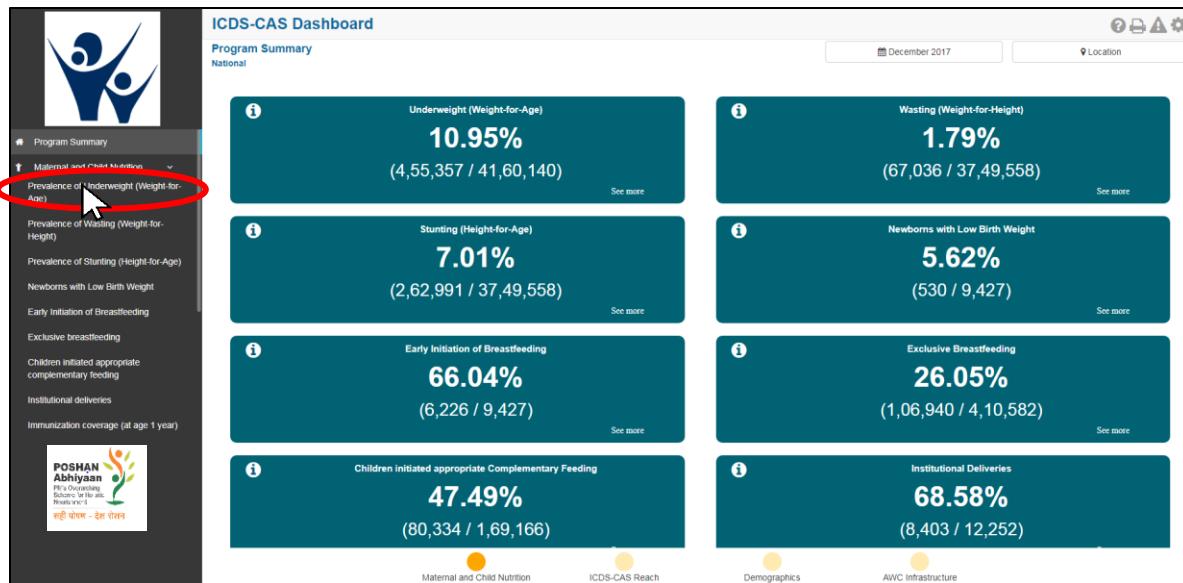

Figure 15: Link to view Underweight (Weight-for-Age)

6.1.1 Underweight (Weight-for-Age): Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show the Prevalence of Underweight (Weight-for-Age) at the National level as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

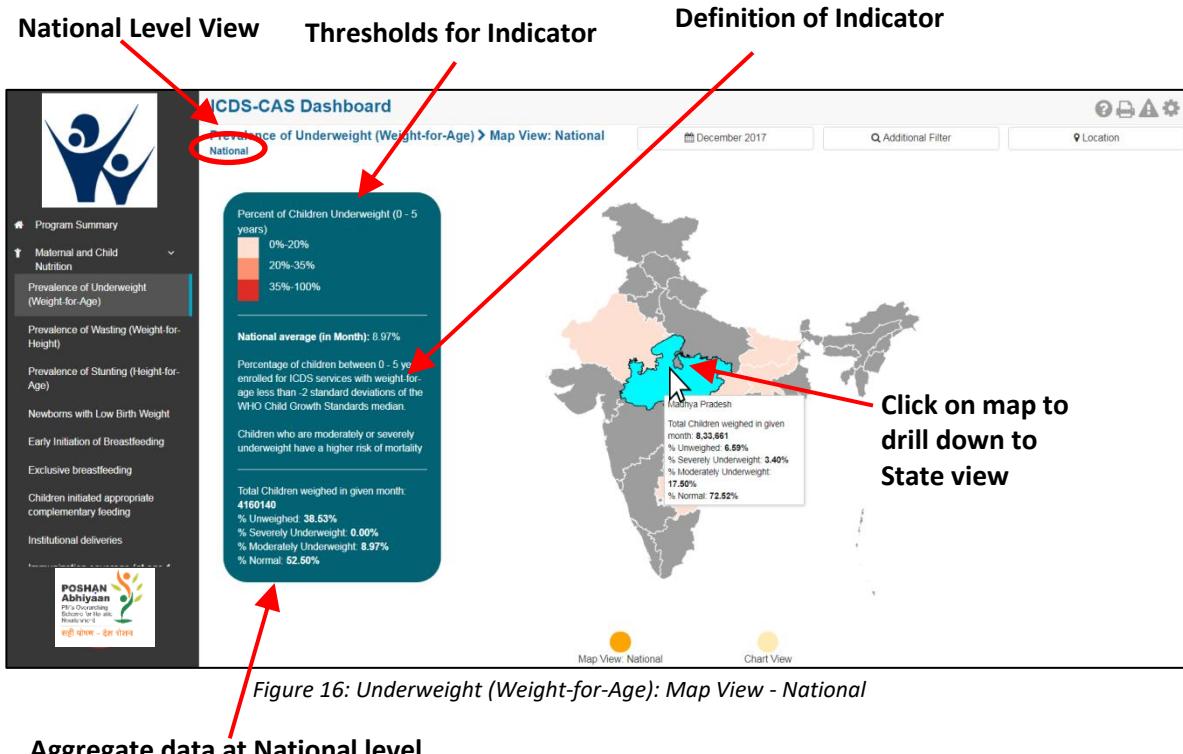

Figure 16: Underweight (Weight-for-Age): Map View - National

Aggregate data at National level

The Map View displays a color coded view of the map. The color coding is done based on certain threshold values which are provided on the 'Map View' page. The colors and percentage ranges indicate performance for each indicator. The user can hover over the color coded areas for further details.

The page also displays a detailed definition of the indicator along-with aggregate data for the level (National / State / District) and the month being viewed.

6.1.2 Underweight (Weight-for-Age): Map View – State

If a State level user (SPMU) logs into the dashboard, the 'Map View' will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

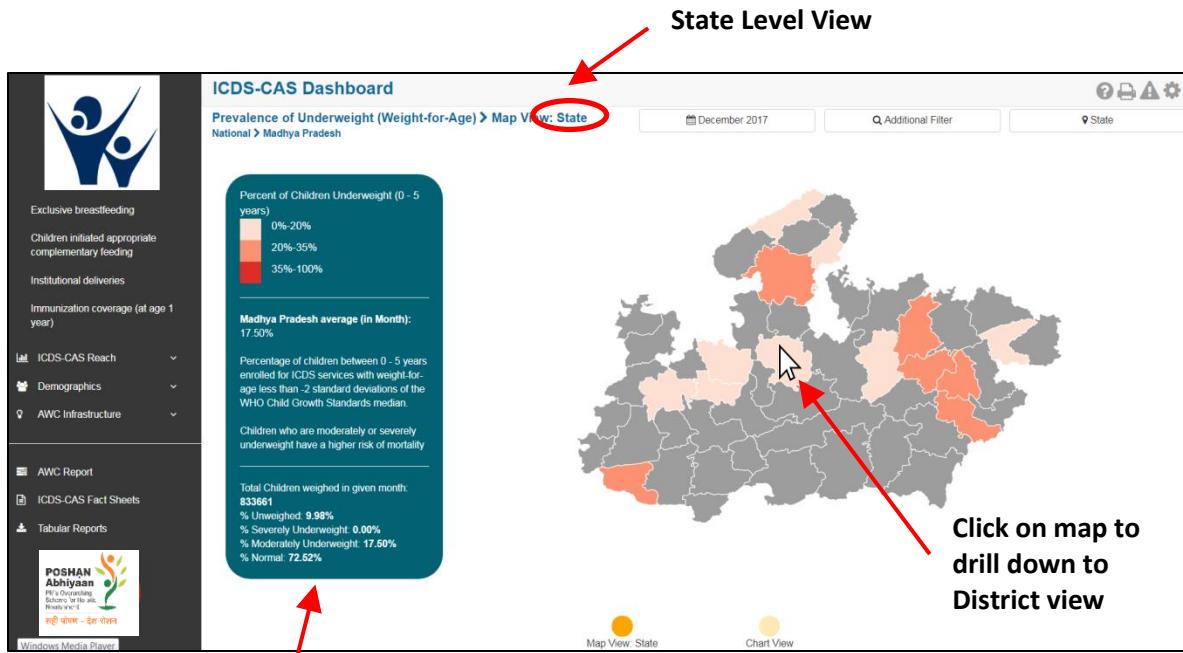

Figure 17: Underweight (Weight-for-Age): Map View - State

Aggregate data at State level

6.1.3 Underweight (Weight-for-Age): Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

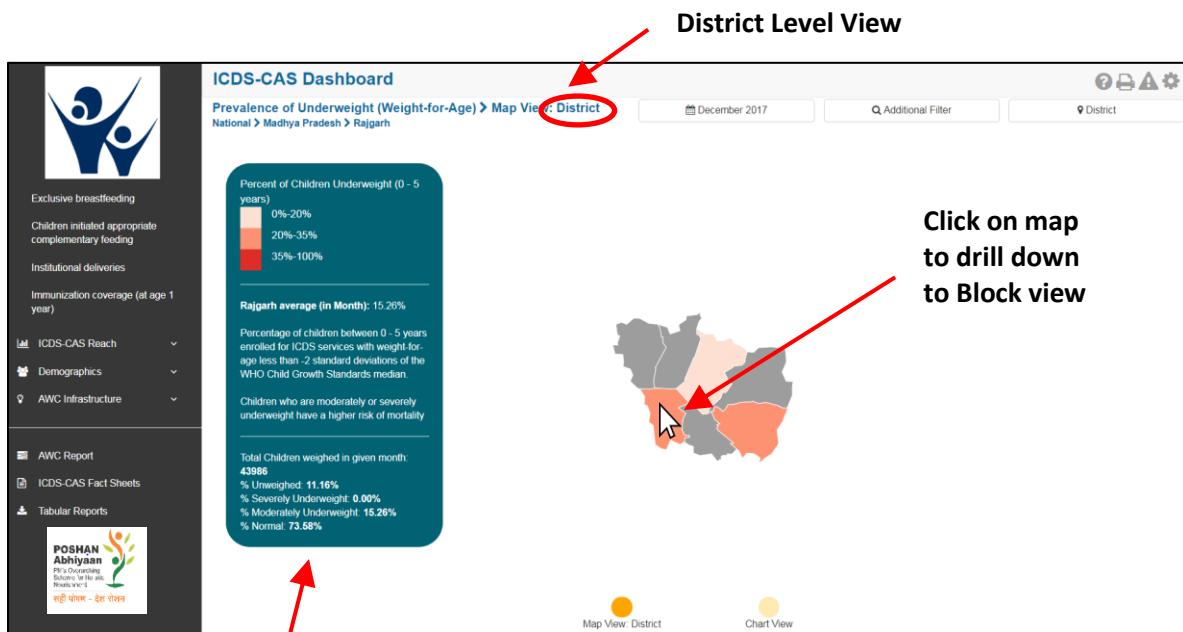

Figure 18: Underweight (Weight-for-Age): Map View - District

Aggregate data at District level

6.1.4 Underweight (Weight-for-Age): Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Map View’ will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The user can view the definition of the indicator and hover over the graph for further details. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

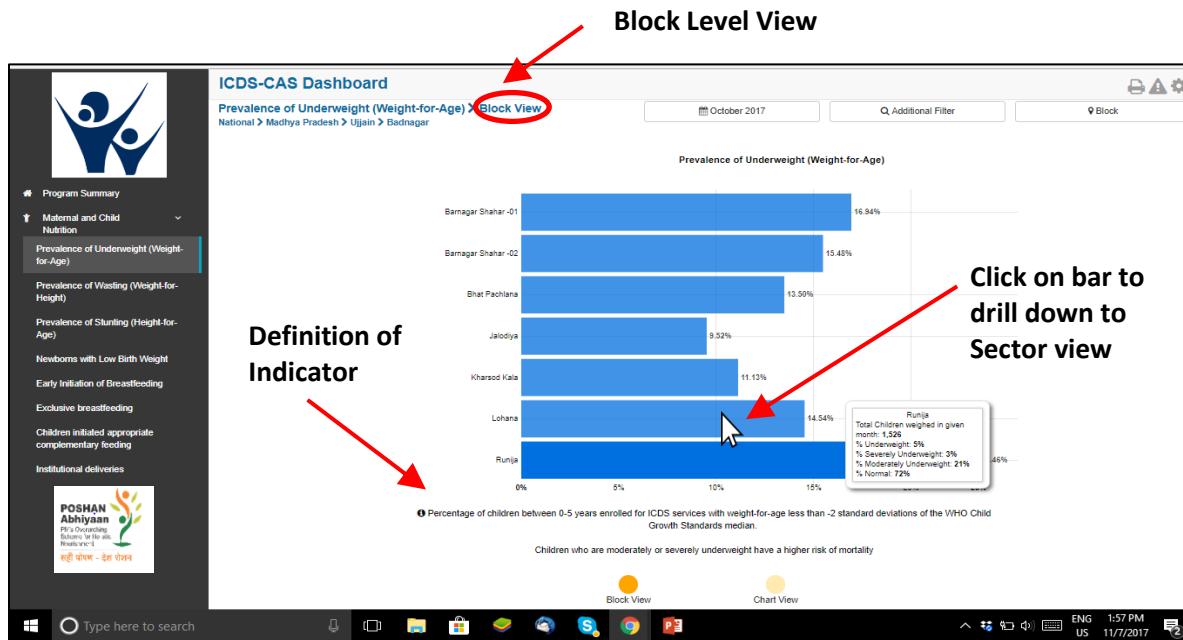

Figure 19: Underweight (Weight-for-Age): Block View

6.1.5 Underweight (Weight-for-Age): Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. The user can view the definition of the indicator and hover over the graph for further details. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

Sector Level View

Figure 20: Underweight (Weight-for-Age): Sector View

6.1.6 Underweight (Weight-for-Age): Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

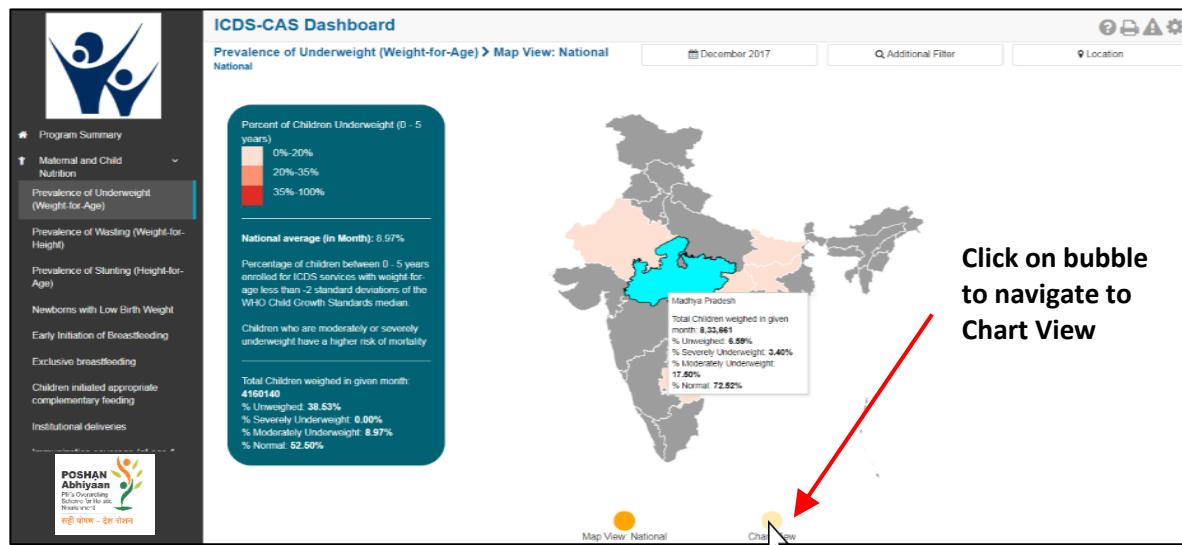

Figure 21: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Underweight (Weight-for-Age) at the National level shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The Chart View displays a trend line for the ‘Underweight (Weight-for-Age)’ indicator (including trend lines for normal, moderately underweight and severely underweight children) over the last three months. The National view shows a National level trend line. The legend on the top right displays information on the specific indicators and color keys shown by the trend line. The tooltip on hover provides more information about the data for the particular point in time.

Below the chart view, the user can also see a performance based ranking of States based on Prevalence of Underweight (Weight-for-Age) children in the States.

Note: This ranking is not meant to draw comparisons between performances in the different locations. However, dashboard users are encouraged to identify issues and improve service delivery in poor performing areas using this data.

Location Filter: User may select any level below and view data for selected level

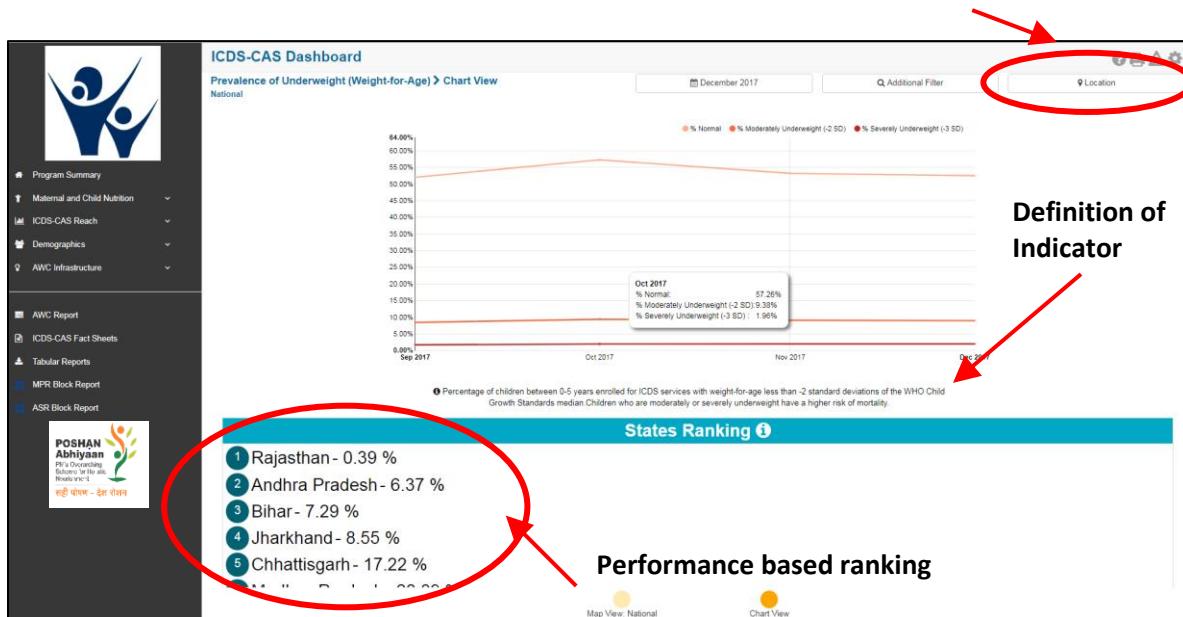

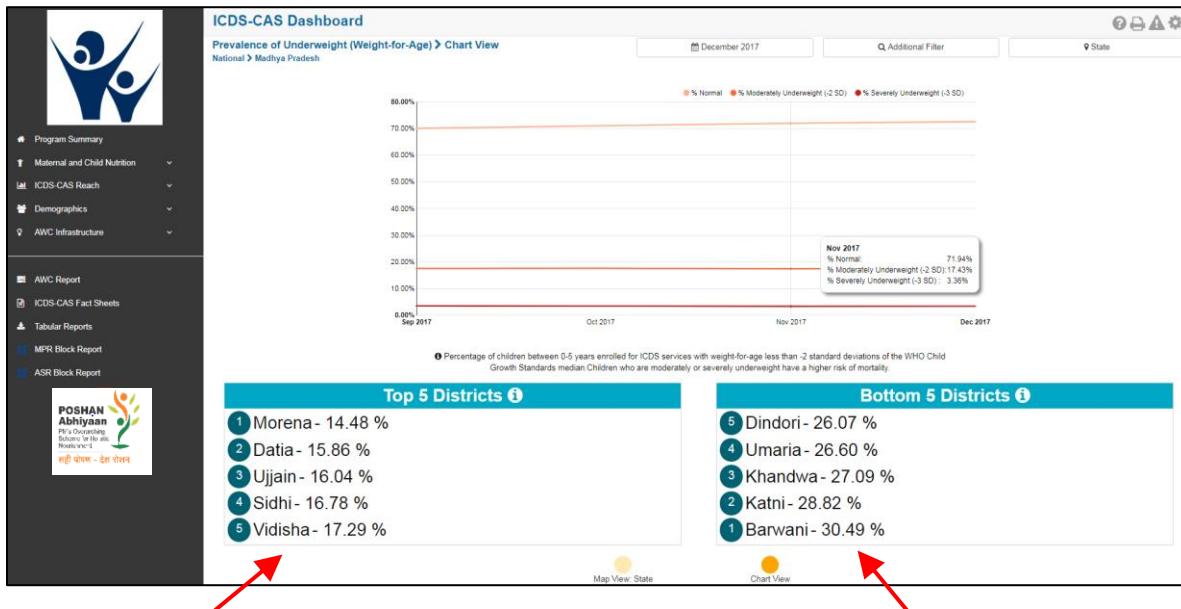

Figure 22: Underweight (Weight-for-Age): Chart View – National

6.1.7 Underweight (Weight-for-Age): Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The State view shows a State level trend line and also shows a list of high performing and low performing Districts based on Prevalence of Underweight (Weight-for-Age) children in the Districts.

High performing Districts *Figure 23: Underweight (Weight-for-Age): Chart View – State* **Low performing Districts**

6.1.8 Underweight (Weight-for-Age): Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The District view shows a District level trend line and also shows performance-based ranking of Blocks based on Prevalence of Underweight (Weight-for-Age) children in the Blocks.

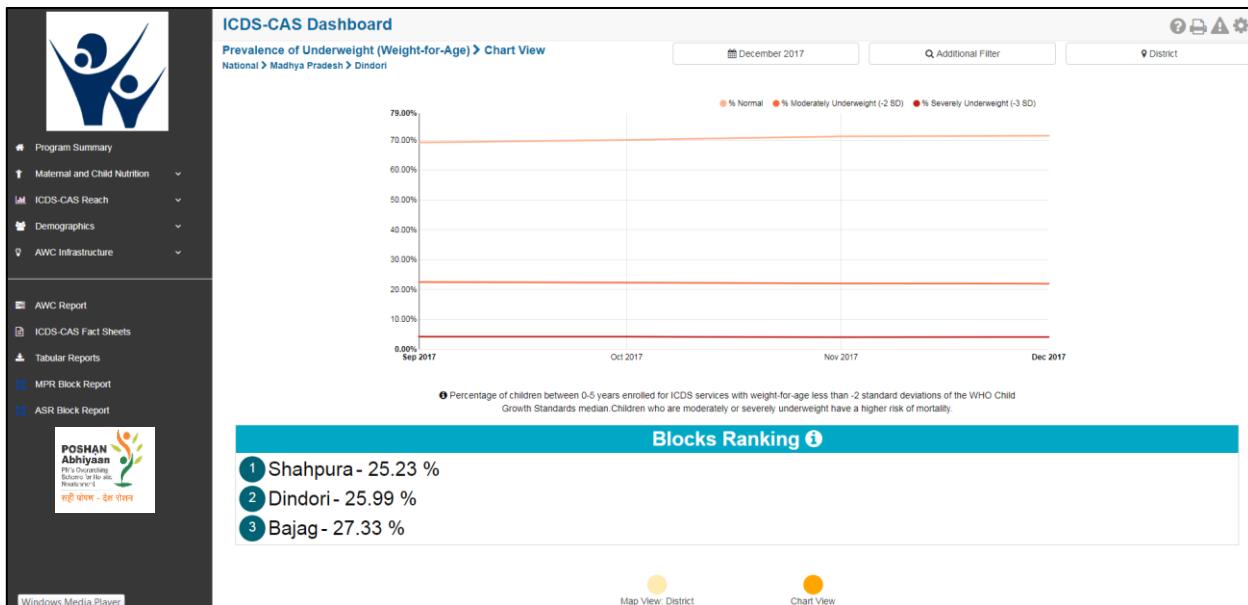

Figure 24: Underweight (Weight-for-Age): Chart View – District

6.1.9 Underweight (Weight-for-Age): Chart View –Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

The Block view shows a Block level trend line and also shows performance-based ranking of Sectors based on Prevalence of Underweight (Weight-for-Age) children in the Sectors.

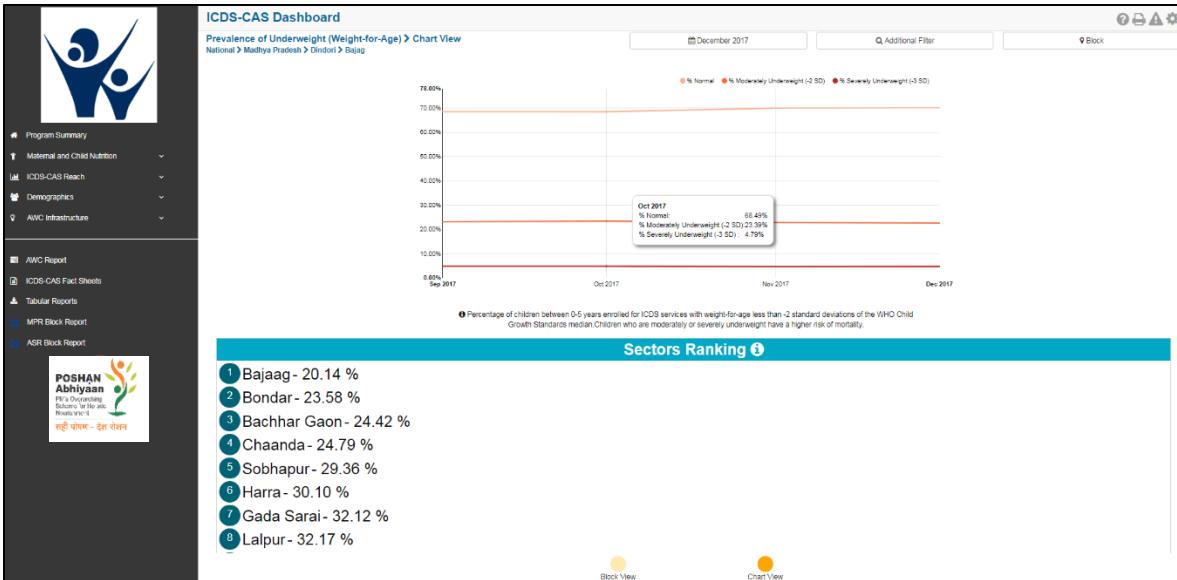

Figure 25: Underweight (Weight-for-Age): Chart View – Block

6.1.10 Underweight (Weight-for-Age): Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

The Sector view shows a Sector level trend line and also shows a list of high performing and low performing Anganwadi Centers (AWCs) based on Prevalence of Underweight (Weight-for-Age) children in the AWCs.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

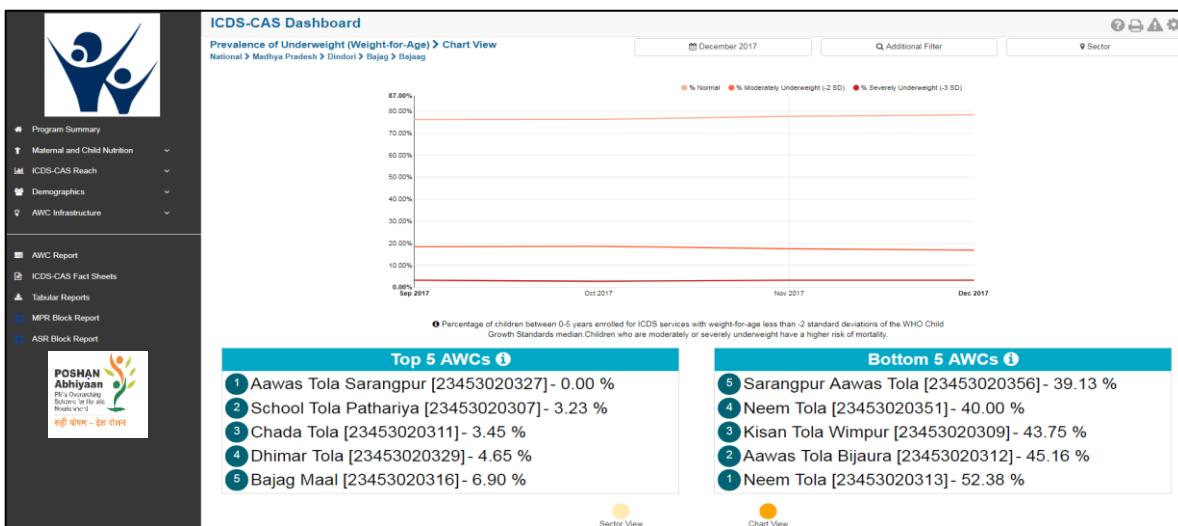

Figure 26: Underweight (Weight-for-Age): Chart View – Sector

6.1.11 Underweight (Weight-for-Age): Additional Filters

On the ‘Map View’ or ‘Chart View’ page, the dashboard also provides additional filters to extract selected information. For example – For Underweight (Weight-for-Age) indicator there are following additional indicators on the dashboard – Gender and Age. Similarly, there are additional filters for other indicators as well.

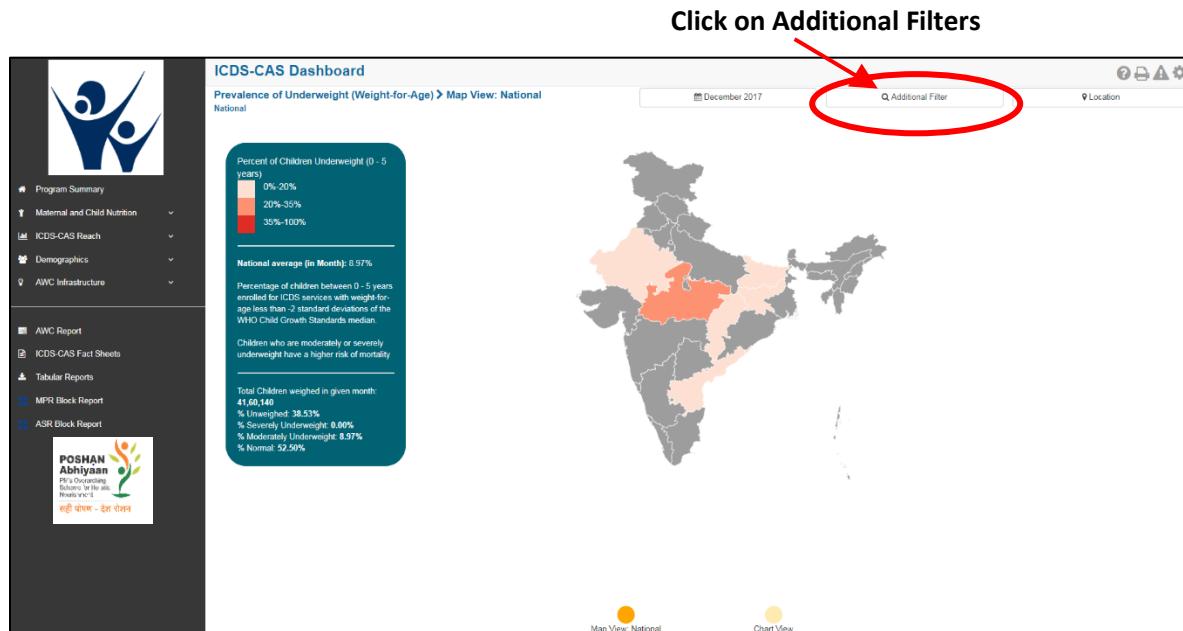

Figure 27: Additional Filters

Select ‘Gender’ and click on ‘Apply’

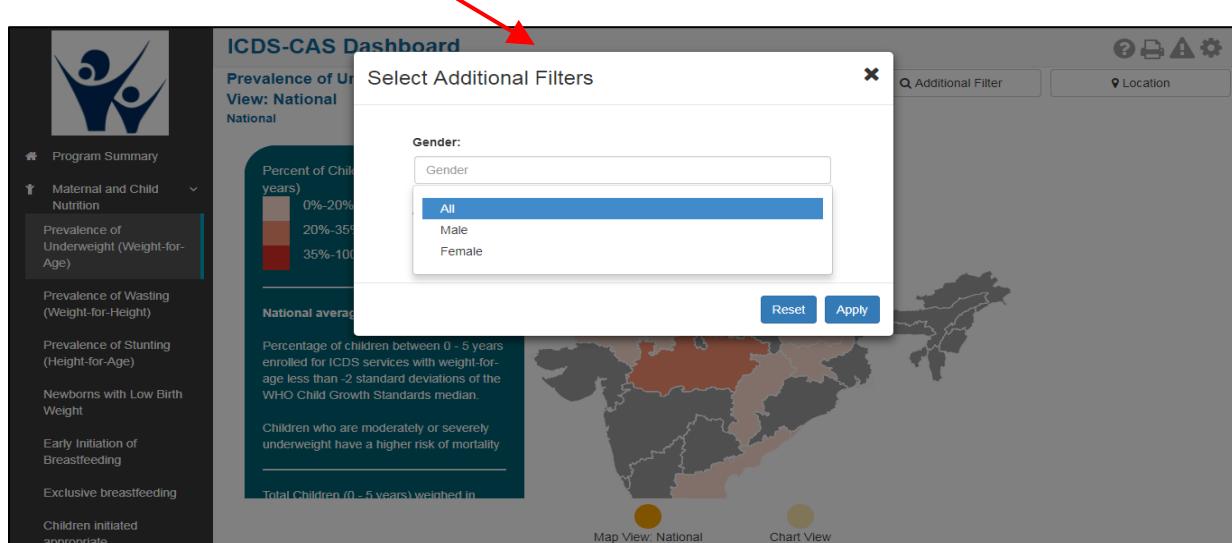

Figure 28: Additional Filter - Gender

Once the user selects the gender as “Female” and selects Age group as “0-6 Months” the view is updated and the below mentioned screen is displayed:

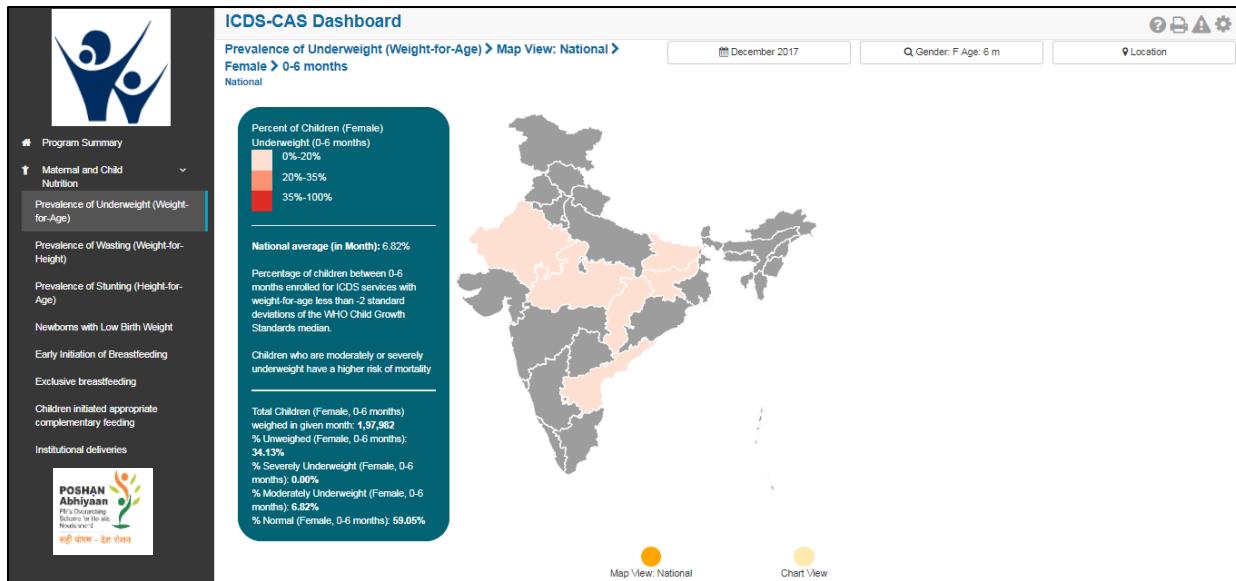

Figure 29: Additional Filters – Screen Shot - “Female” selected

6.2 Wasting (Weight-for-Height)

The second indicator under ‘Maternal and Child Nutrition’ is ‘Wasting (Weight-for-Height)’ which is explained below.

Definition of indicator - Percentage of children between 0-5 years with weight-for-height below -2 standard deviations of the WHO Child Growth Standards median. Severe Acute Malnutrition (SAM) or wasting in children is a symptom of acute under nutrition usually as a consequence of insufficient food intake or a high incidence of infectious diseases.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.2.1 Wasting (Weight-for-Height): Map View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show the Prevalence of Wasting (Weight-for-Height) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

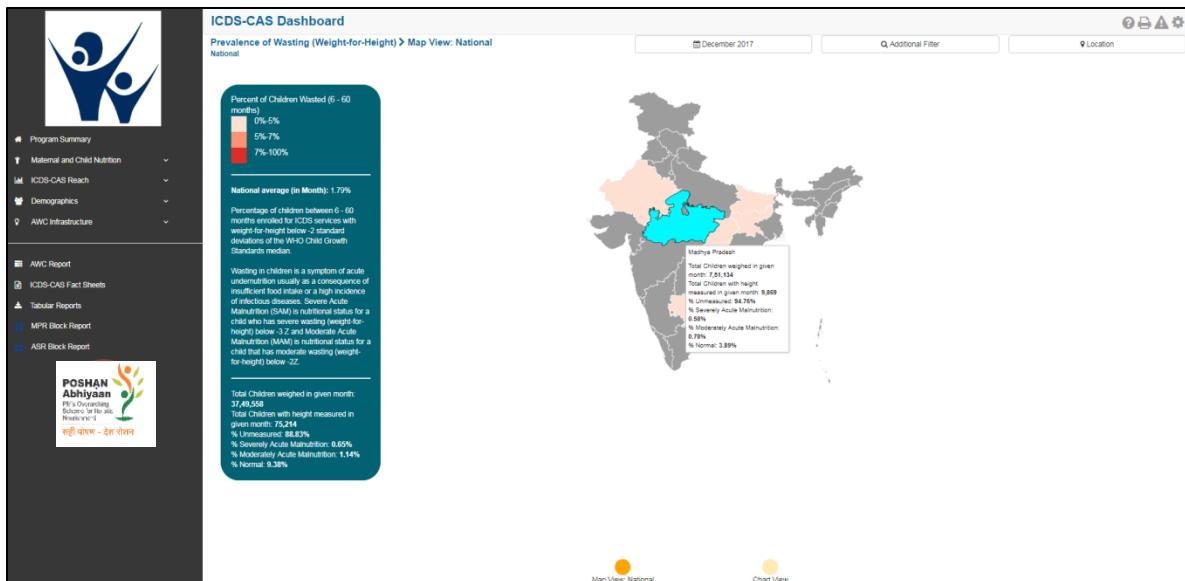

Figure 30: Wasting (Weight-for-Height): Map View - National

6.2.2 Wasting (Weight-for-Height): Chart View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Wasting (Weight-for-Height) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

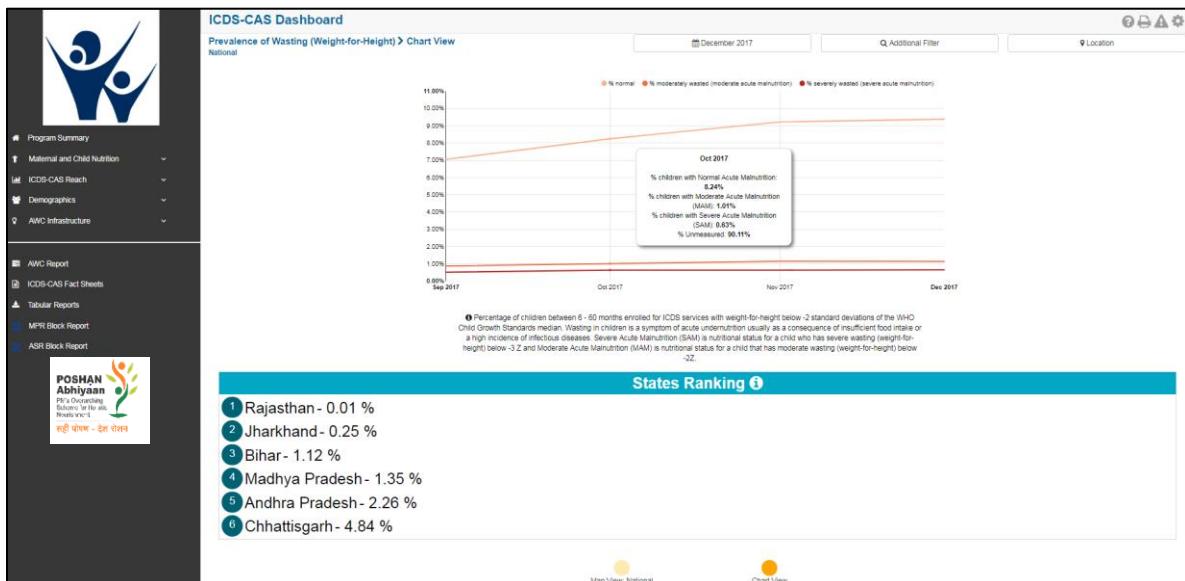

Figure 31: Wasting (Weight-for-Height): Chart View – National

6.3 Stunting (Height-for-Age)

The third indicator under ‘Maternal and Child Nutrition’ is ‘Stunting (Height-for-Age)’ which is explained below.

Definition of indicator - Percentage of children between 0-5 years with height-for-age below -2Z standard deviations of the WHO Child Growth Standards median. Stunting is a sign of chronic under nutrition and has long lasting harmful consequences on the growth of a child.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.3.1 Stunting (Height-for-Age): Map View–National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show the Prevalence of Stunting (Height-for-Age) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

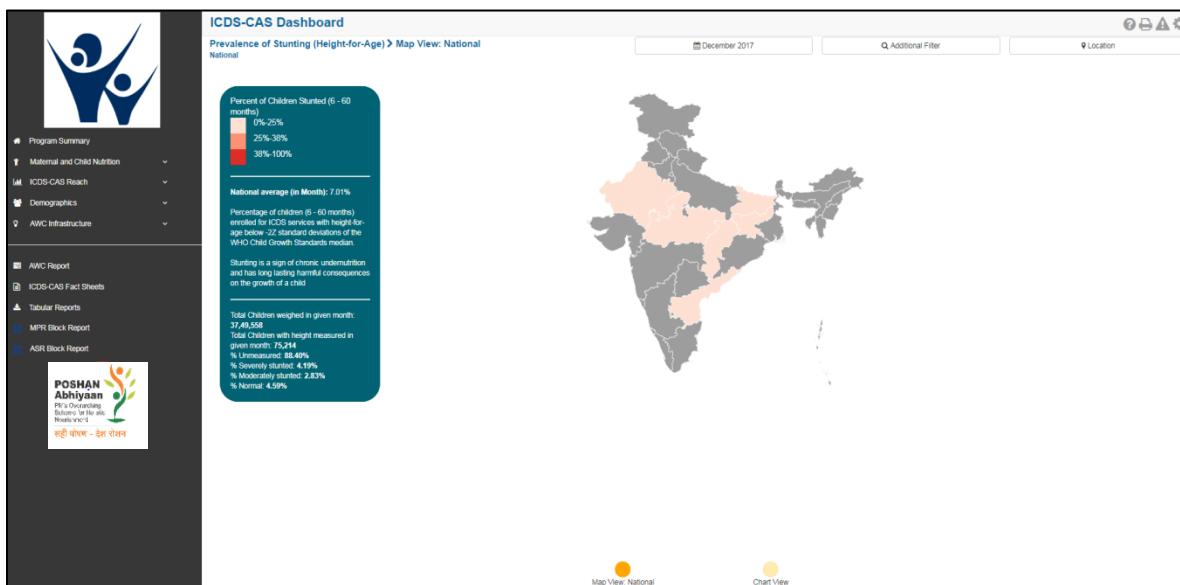

Figure 32: Stunting (Height-for-Age): Map View – National

6.3.2 Stunting (Height-for-Age): Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show the Prevalence of Stunting (Height-for-Age) at the National level as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

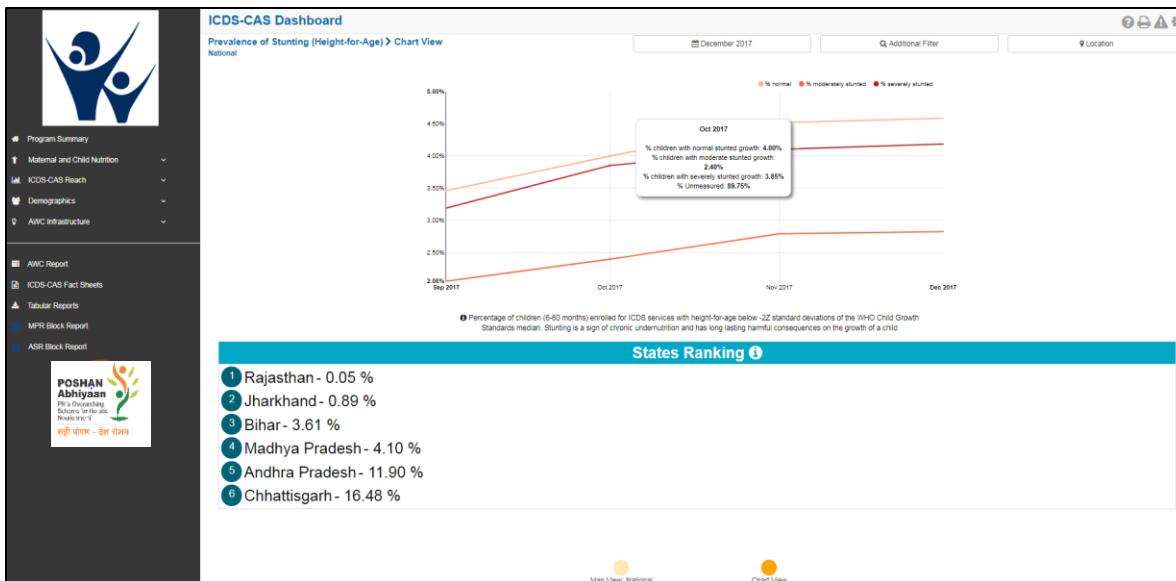

Figure 33: Stunting (Height-for-Age): Chart View – National

6.4 Newborns with Low Birth Weight

The fourth indicator under ‘Maternal and Child Nutrition’ is ‘Newborns with Low Birth Weight’ which is explained below.

Definition of indicator - Percentage of newborns born with birth weight less than 2500 grams. Newborns with Low Birth Weight are closely associated with fetal and neonatal mortality and morbidity, inhibited growth and cognitive development, and chronic diseases later in life.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.4.1 Newborns with Low Birth Weight: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

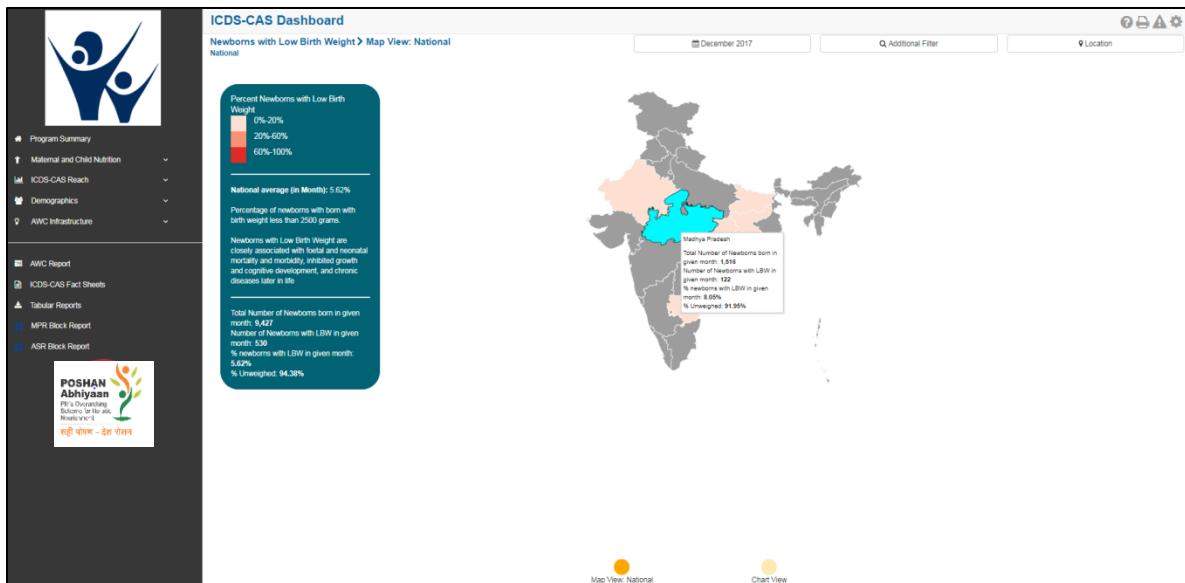

Figure 34: Newborns with Low Birth Weight: Map View – National

6.4.2 Newborns with Low Birth Weight: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

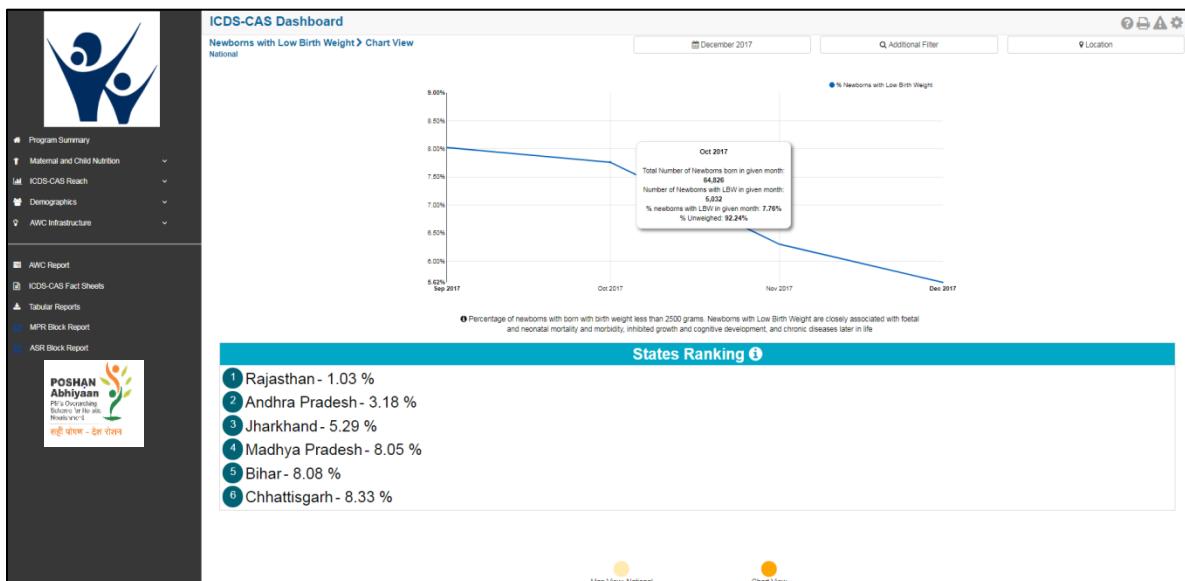

Figure 35: Newborns with Low Birth Weight: Chart View – National

6.5 Early Initiation of Breastfeeding

The fifth indicator under ‘Maternal and Child Nutrition’ is ‘Early Initiation of Breastfeeding’ which is explained below.

Definition of indicator - Percentage of children breastfed within an hour of birth. Early initiation of breastfeeding ensures the newborn receives the ‘first milk’ rich in nutrients and encourages exclusive breastfeeding practice.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.5.1 Early Initiation of Breastfeeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

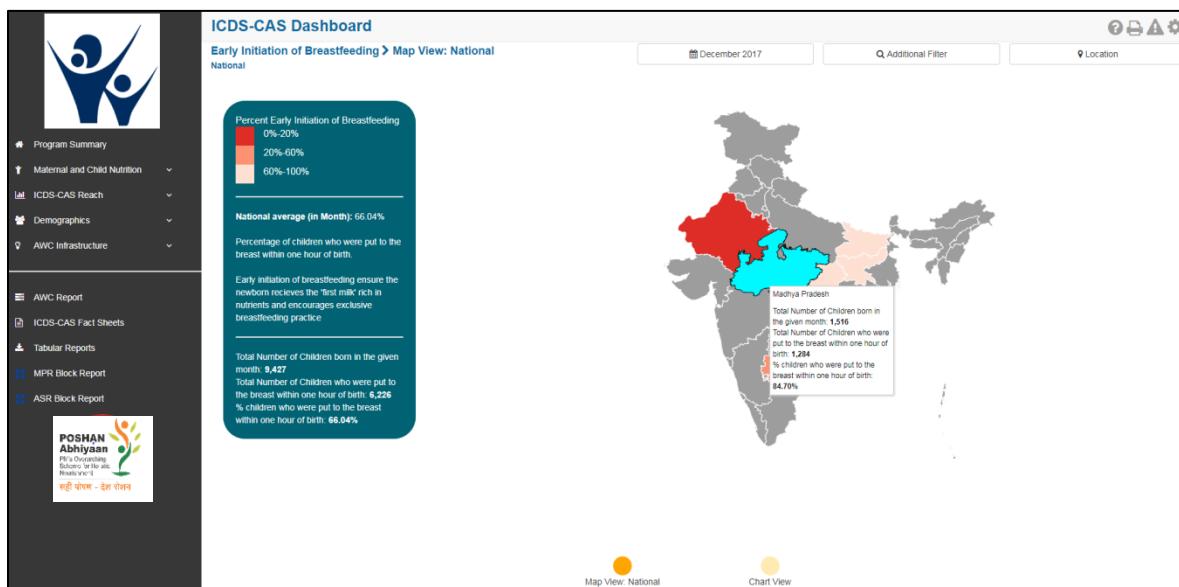

Figure 36: Early Initiation of Breastfeeding: Map View – National

6.5.2 Early Initiation of Breastfeeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National level view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

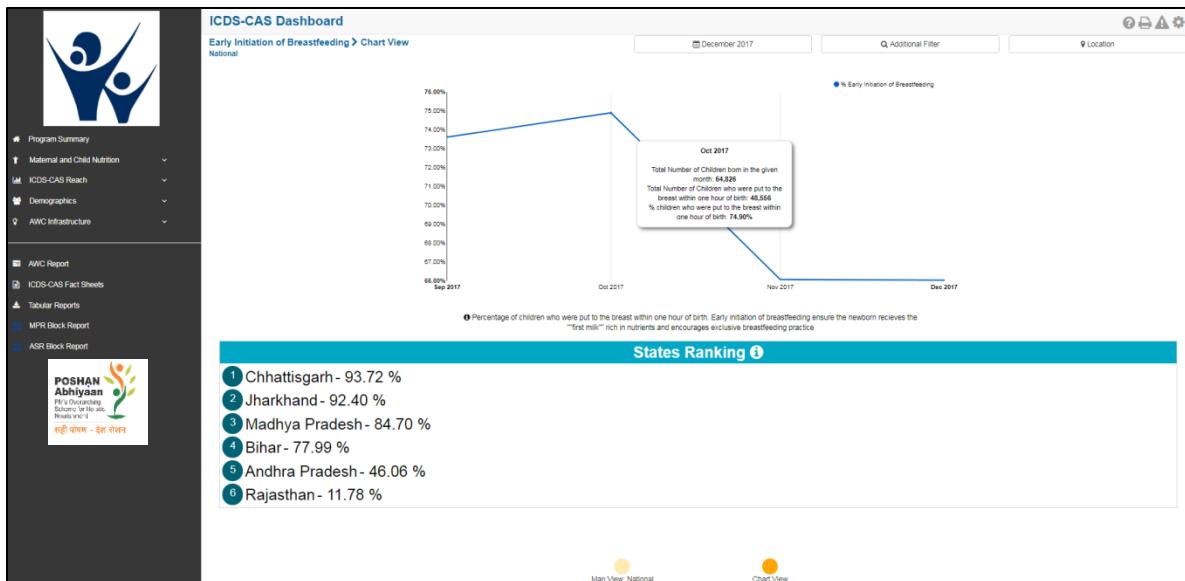

Figure 37: Early Initiation of Breastfeeding: Chart View – National

6.6 Exclusive Breastfeeding

The sixth indicator under ‘Maternal and Child Nutrition’ is ‘Exclusive Breastfeeding’ which is explained below.

Definition of indicator - Percentage of children between 0-6 months exclusively breastfed. An infant is exclusively breastfed if they receive only breast milk with no additional food, liquids (even water) ensuring optimal nutrition and growth between 0-6 months.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.6.1 Exclusive Breastfeeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

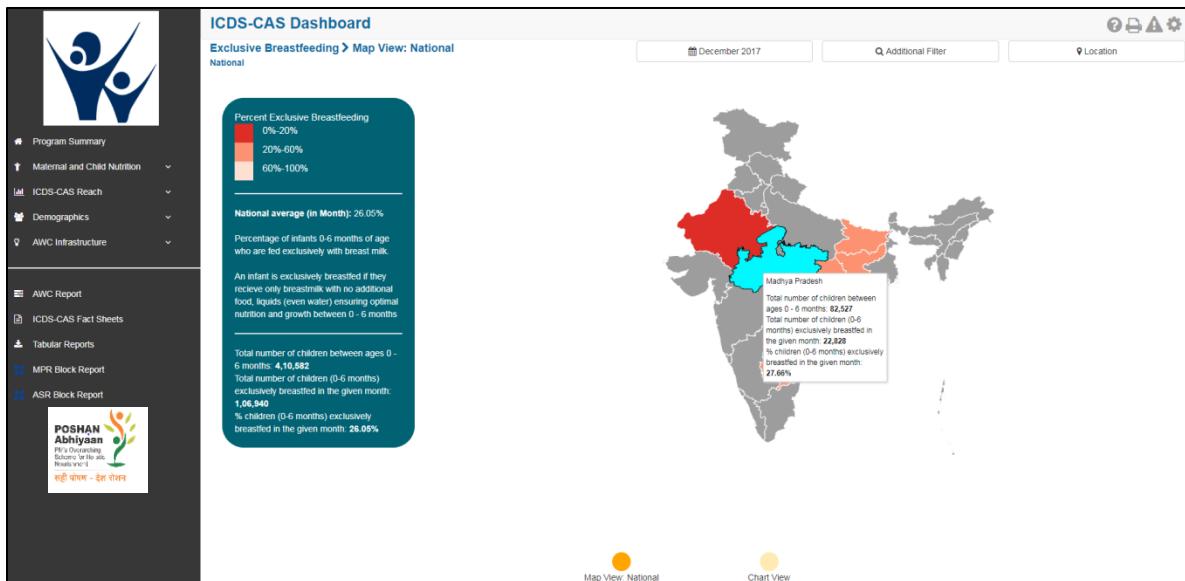

Figure 38: Exclusive Breastfeeding: Map View – National

6.6.2 Exclusive Breastfeeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

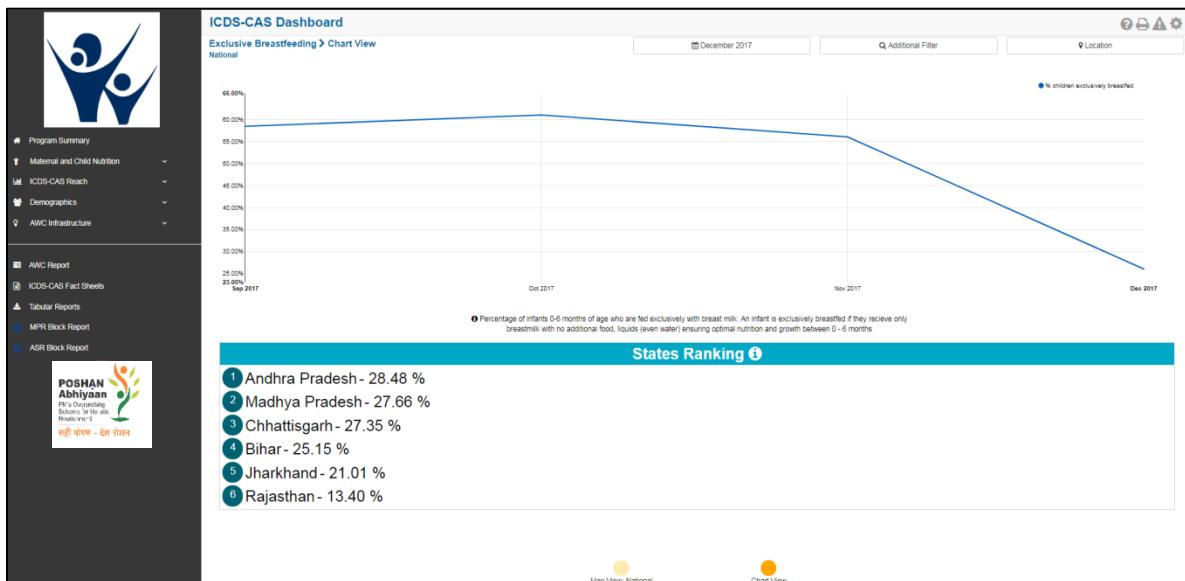

Figure 39: Exclusive Breastfeeding: Chart View – National

6.7 Children initiated appropriate Complementary Feeding

The seventh indicator under ‘Maternal and Child Nutrition’ is ‘Children initiated appropriate Complementary Feeding’ which is explained below.

Definition of indicator - Percentage of children between 6-8 months given timely introduction to solid or semi-solid food. Timely initiation of complementary feeding in addition to breast milk at 6 months of age is a key feeding practice to reduce malnutrition.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.7.1 Children initiated appropriate Complementary Feeding: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

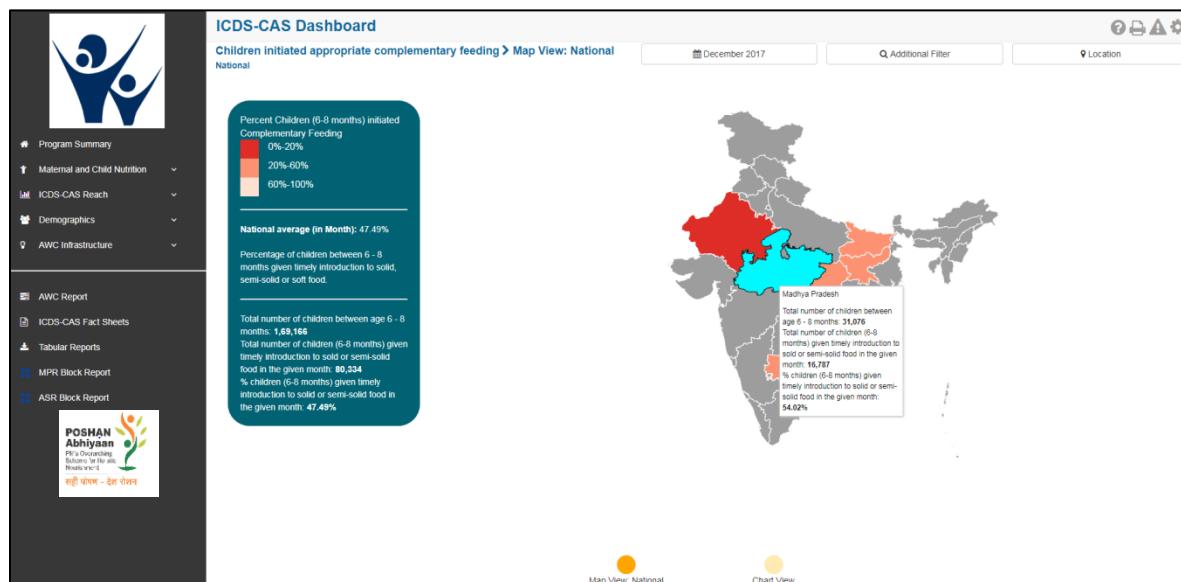

Figure 40: Children initiated appropriate Complementary Feeding: Map View - National

6.7.2 Children initiated appropriate Complementary Feeding: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

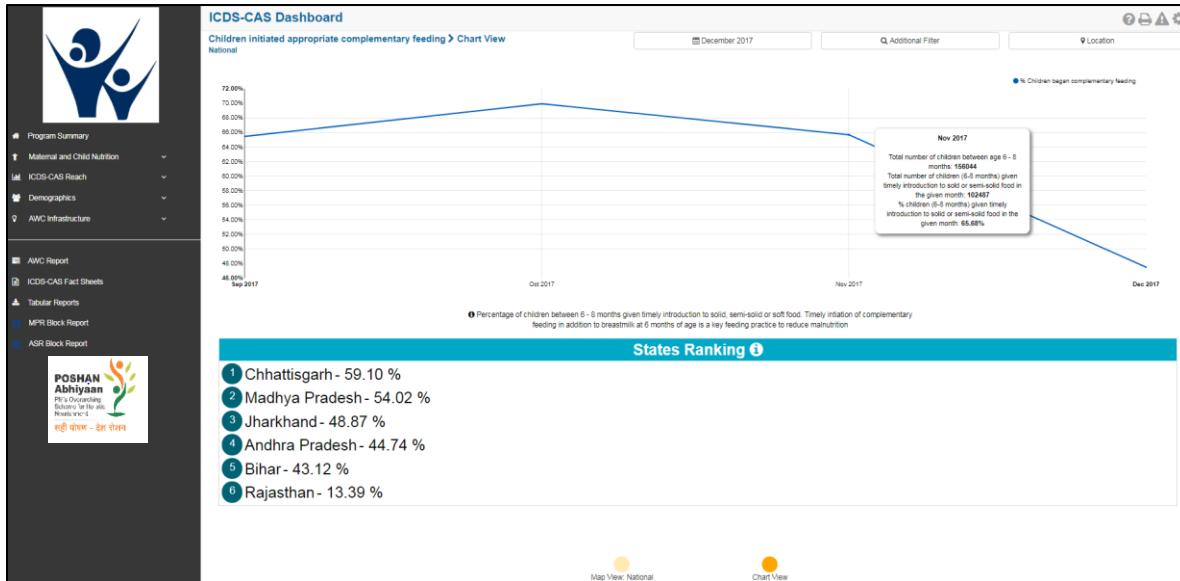

Figure 41: Children initiated appropriate Complementary Feeding: Chart View - National

6.8 Institutional Deliveries

The eighth indicator under ‘Maternal and Child Nutrition’ is ‘Institutional Deliveries’ which is explained below.

Definition of indicator – Percentage of pregnant women who delivered in a public or private medical facility in the last month. Delivery in medical institutions is associated with a decrease in maternal mortality rate.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.8.1 Institutional Deliveries: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

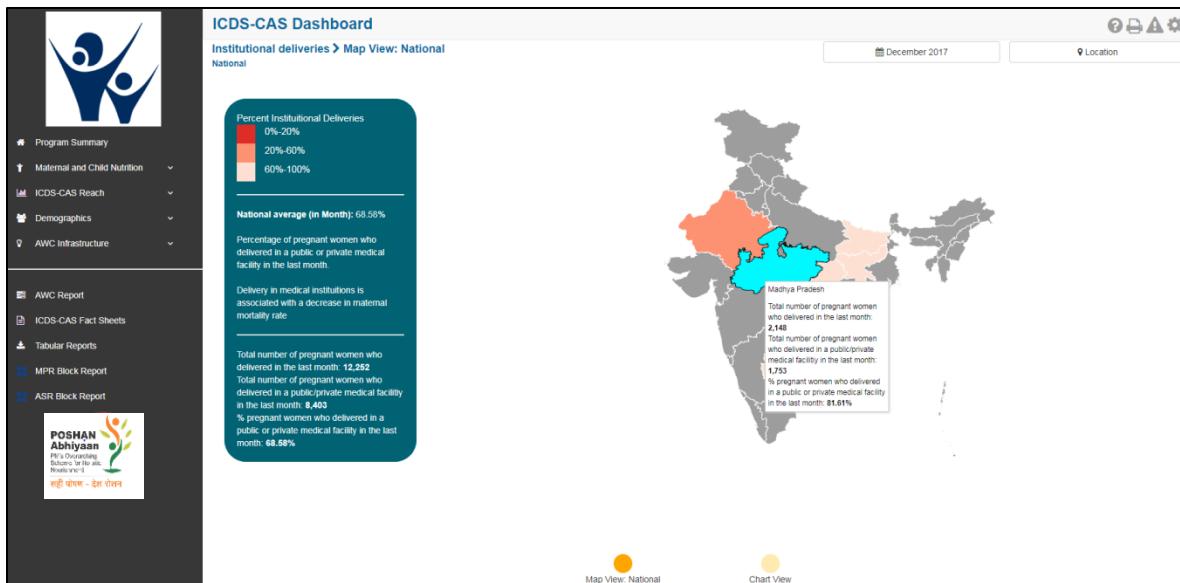

Figure 42: Institutional Deliveries: Map View – National

6.8.2 Institutional Deliveries: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

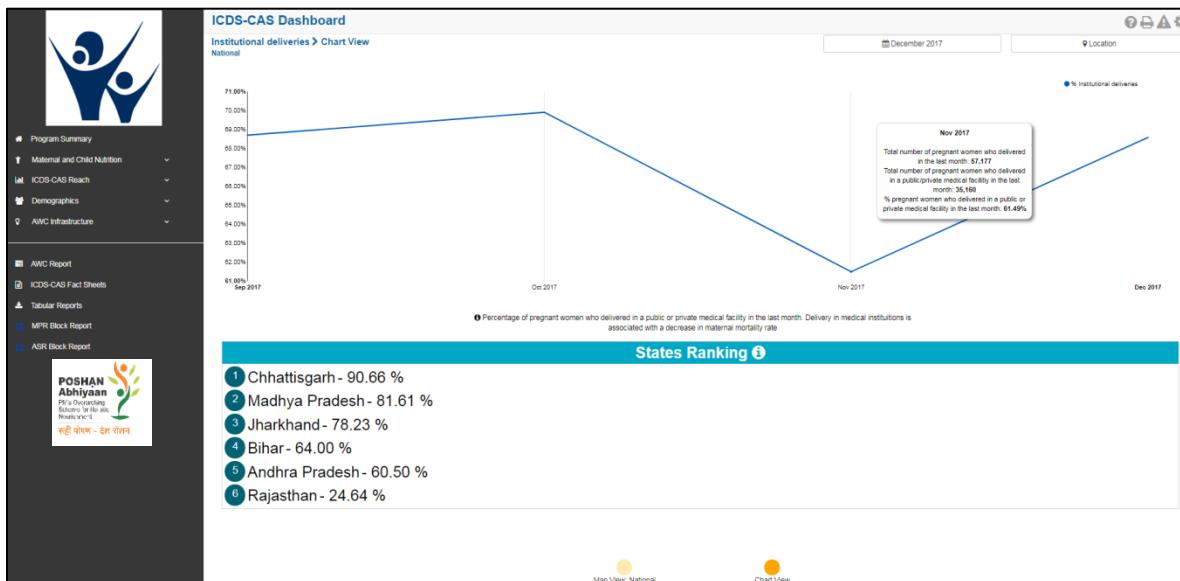

Figure 43: Institutional Deliveries: Chart View – National

6.9 Immunization Coverage (at age 1 year)

The last indicator under ‘Maternal and Child Nutrition’ is ‘Immunization Coverage (at age 1 year)’ which is explained below.

Definition of indicator – Percentage of children 1 year+ who have received complete immunization as per National Immunization Schedule of India required by age 1.

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

6.9.1 Immunization Coverage (at age 1 year): Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

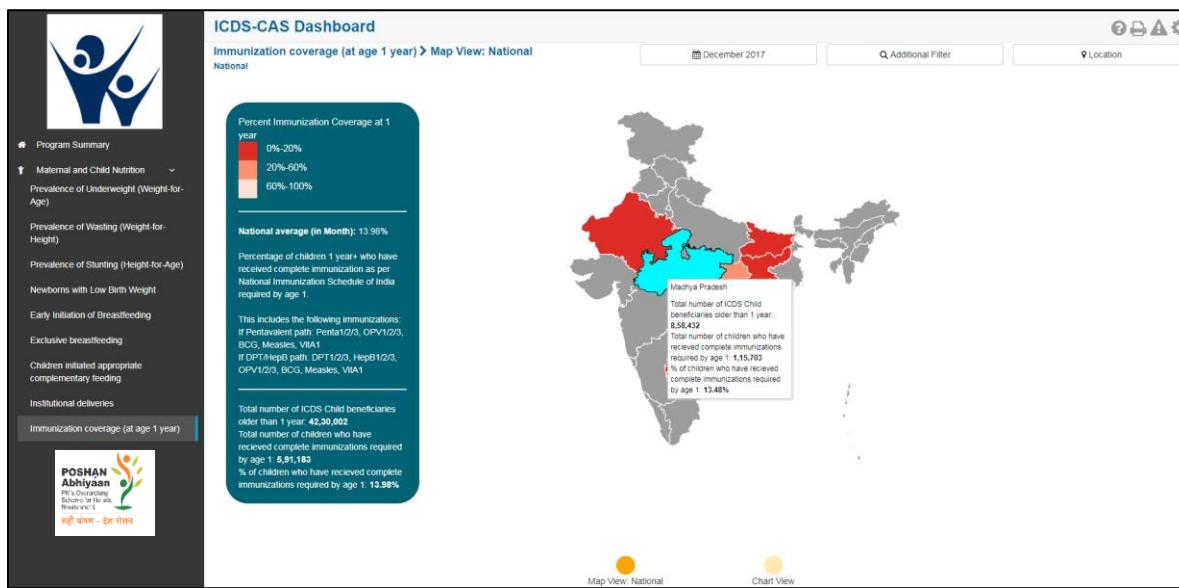

Figure 44: Immunization Coverage (at age 1 year): Map View - National

6.9.2 Immunization Coverage (at age 1 year): Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Underweight (Weight-for-Age) in Section 6.1.

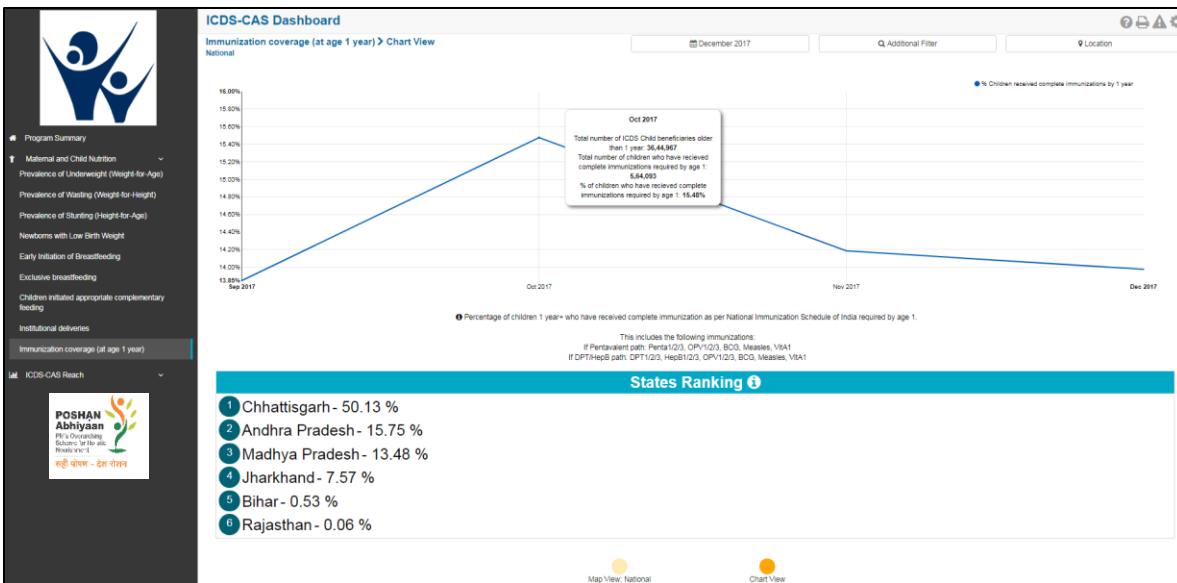

Figure 45: Immunization Coverage (at age 1 year): Chart View - National

7 ICDS-CAS Reach

ICDS-CAS Reach includes indicators that provide information about extent of coverage of ICDS-CAS application. The section has the following list of indicators:

1. AWCs Daily Status
2. AWCs Launched

On the left hand navigation panel, click on ‘ICDS-CAS Reach’ to see a detailed list of indicators. Select the indicator to see a detailed ‘Map View’ for the selected indicator.

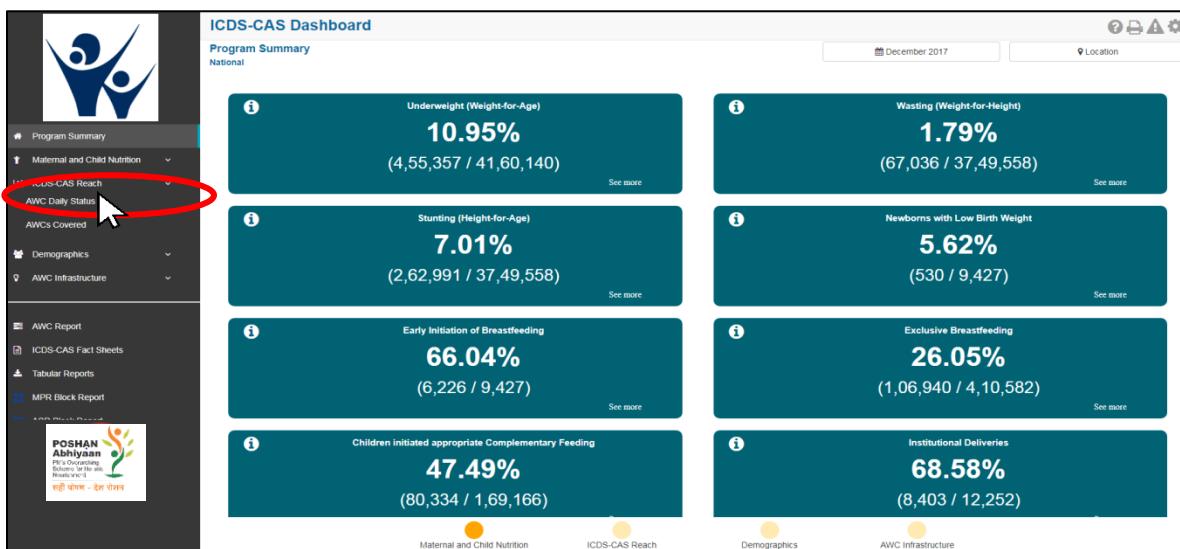

Figure 46: Link to view ICDS-CAS Reach

7.1 AWC Daily Status

The first indicator under ‘ICDS-CAS Reach’ is ‘AWC Daily Status’ which is explained below.

Definition of indicator – Percentage of Anganwadi Centers (AWCs) that were open yesterday

Click on the indicator ‘AWC Daily Status’ from the left hand navigation panel under ‘ICDS-CAS Reach’ to enter ‘Map View’.

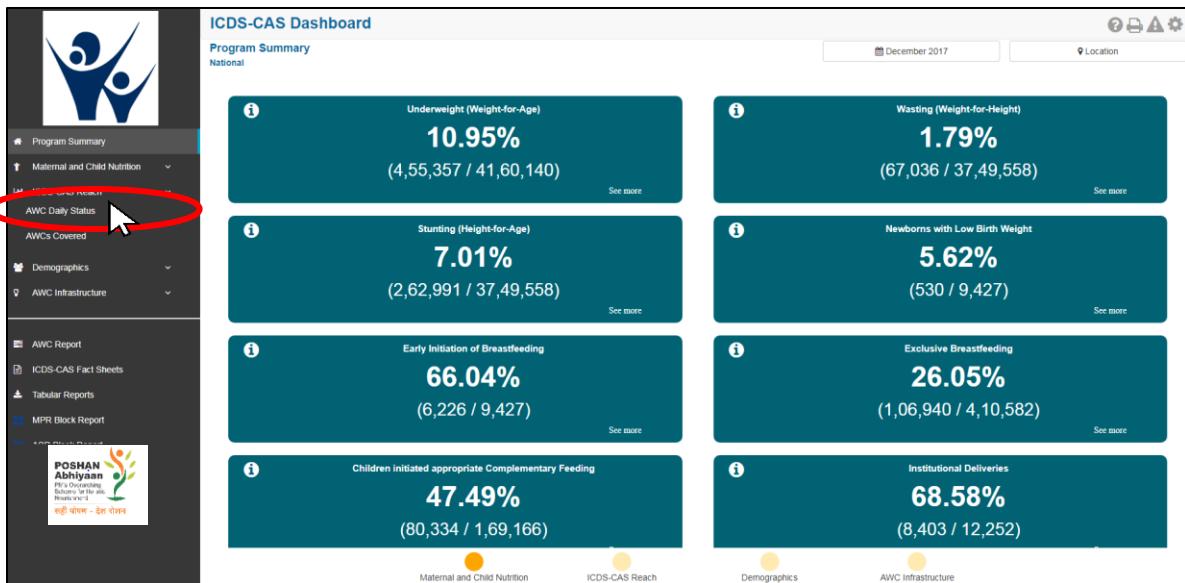

Figure 47: Link to view AWC Daily Status

7.1.1 AWC Daily Status: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

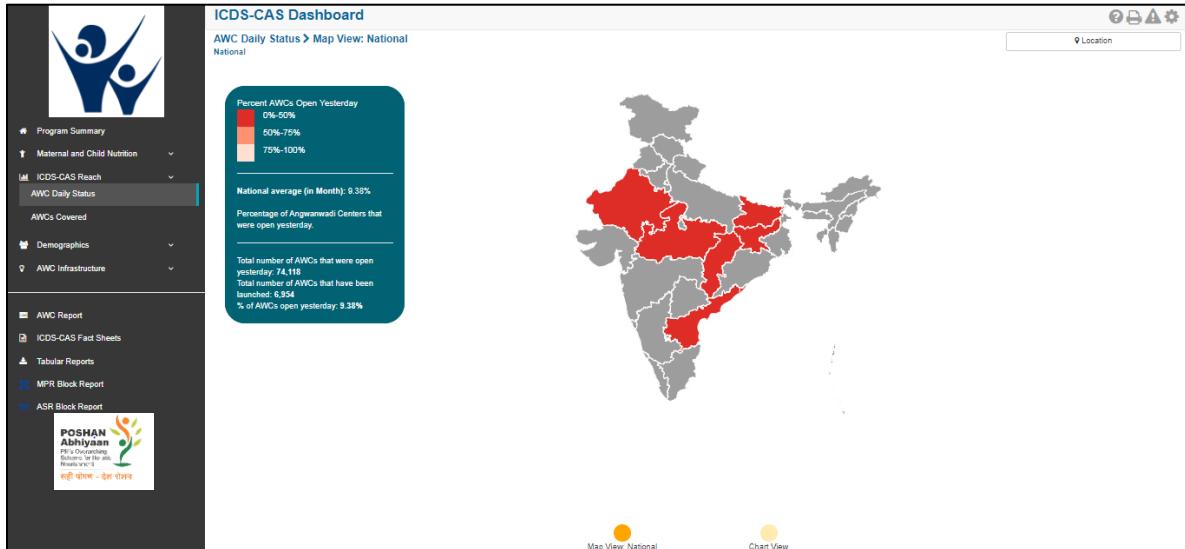

Figure 48: AWC Daily Status: Map View – National

7.1.2 AWC Daily Status: Map View – State

If a State level user (SPMU) logs into the dashboard, the ‘Map View’ will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

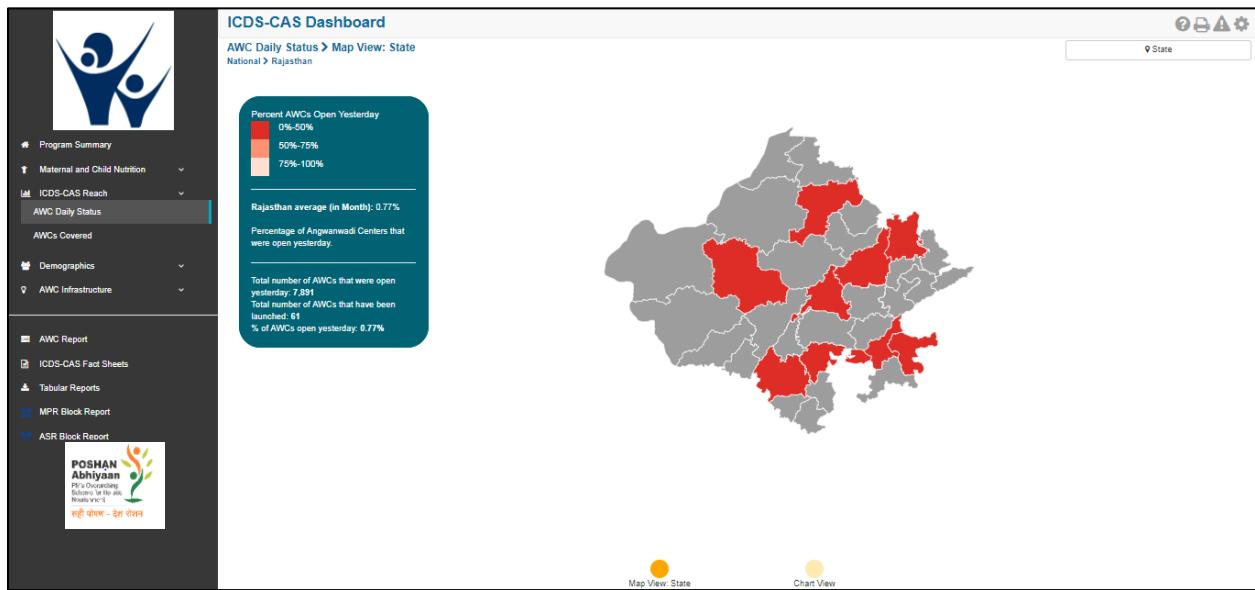

Figure 49: AWC Daily Status: Map View – State

7.1.3 AWC Daily Status: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

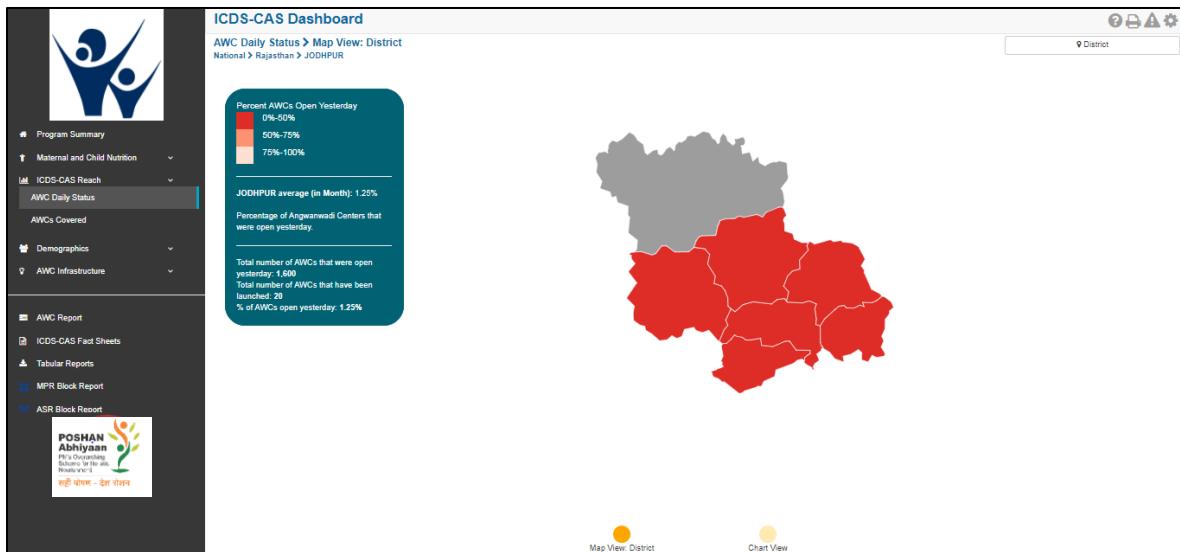

Figure 50: AWC Daily Status: Map View – District

7.1.4 AWC Daily Status: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Map View’ will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

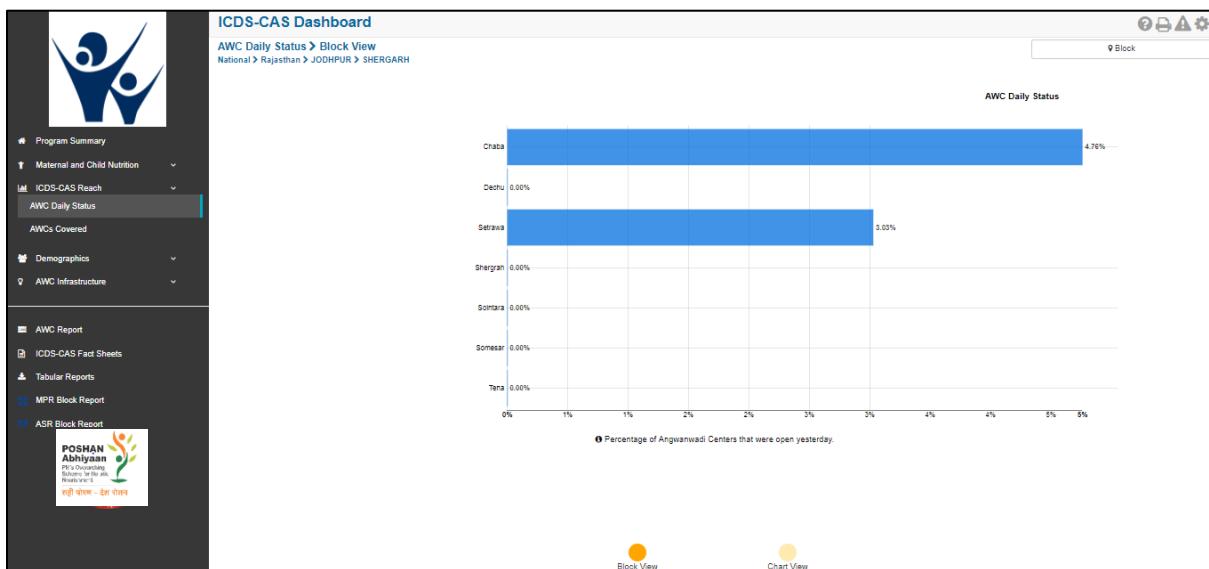

Figure 51: AWC Daily Status: Block View

7.1.5 AWC Daily Status: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

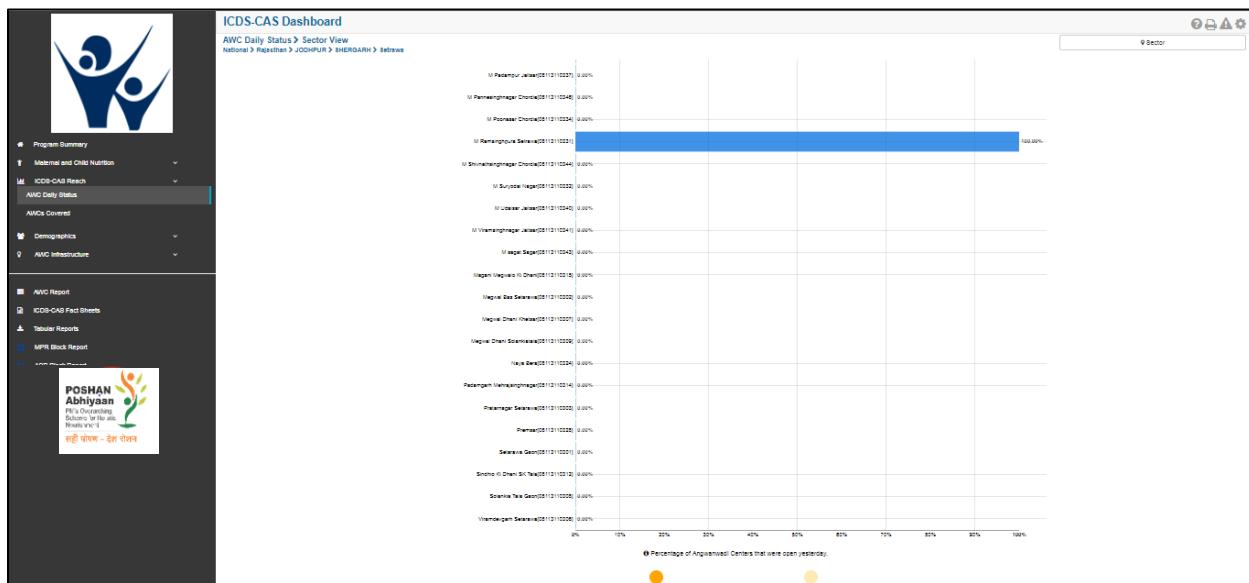

Figure 52: AWC Daily Status: Sector View

7.1.6 AWC Daily Status: Chart View – National

On the Map view page, click on the 'Chart View' bubble navigation to see a chart view of the indicator.

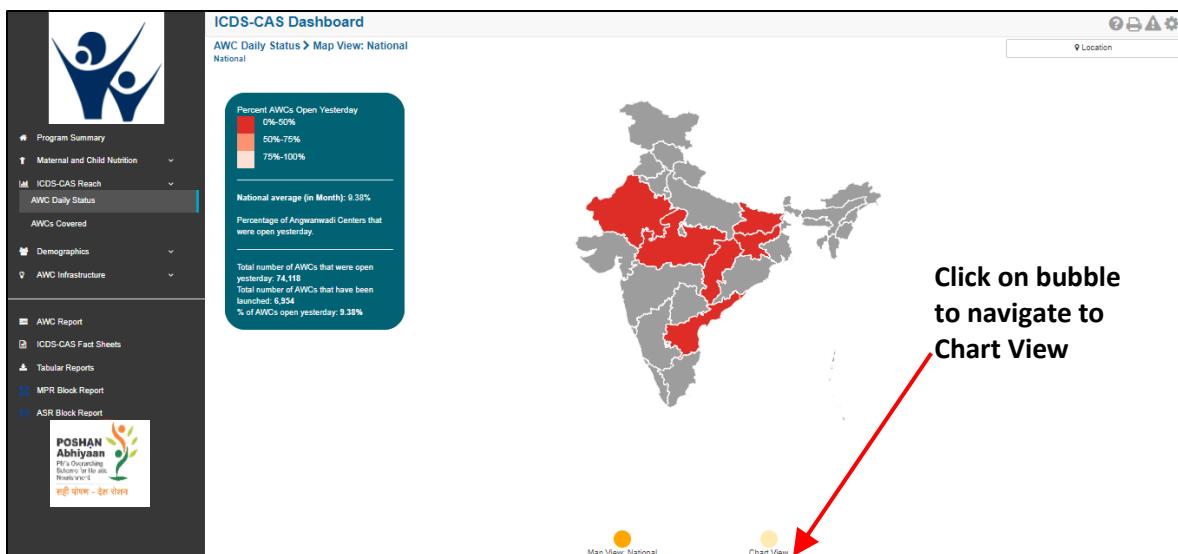

Figure 53: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

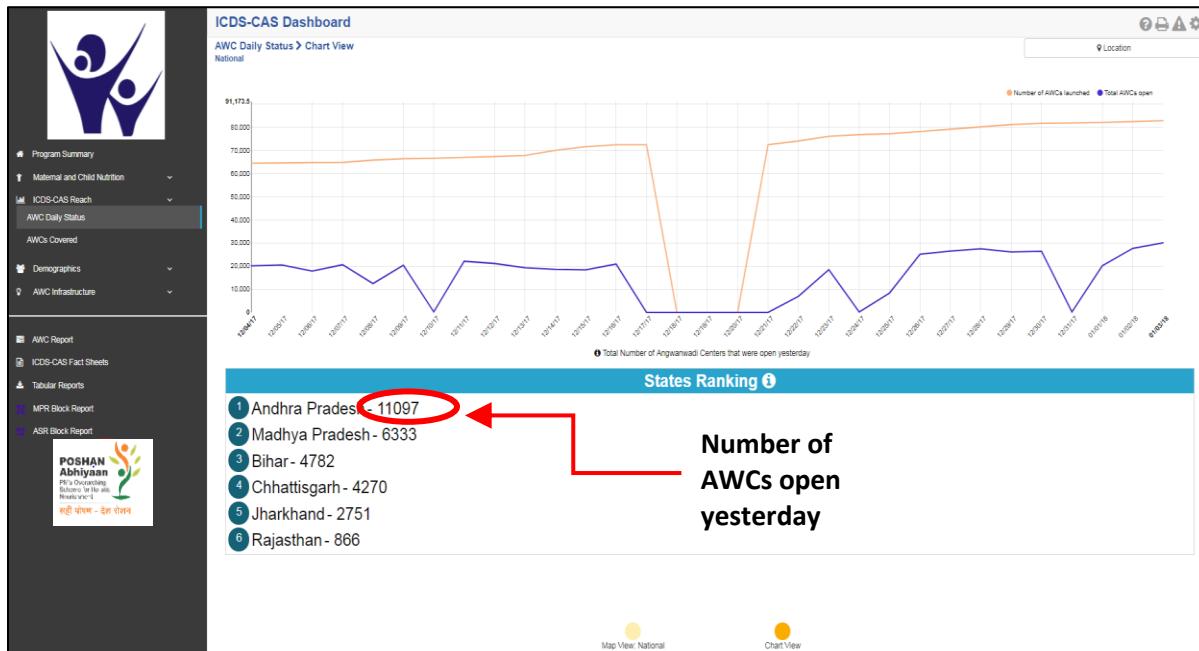

Figure 54: AWC Daily Status: Chart View – National

The x Axis on the chart view display the dates on which the AWC was open and Y axis displays the number of AWCs which were open yesterday. The red trend displays the details of the AWCs which have been launched till date and the blue trend line displays the number of AWC which were open from the total number of AWCs launched.

The ‘States Ranking’ section below the graph ranks the states based on number of AWCs which were open yesterday in each of the states.

7.1.7 AWC Daily Status: Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

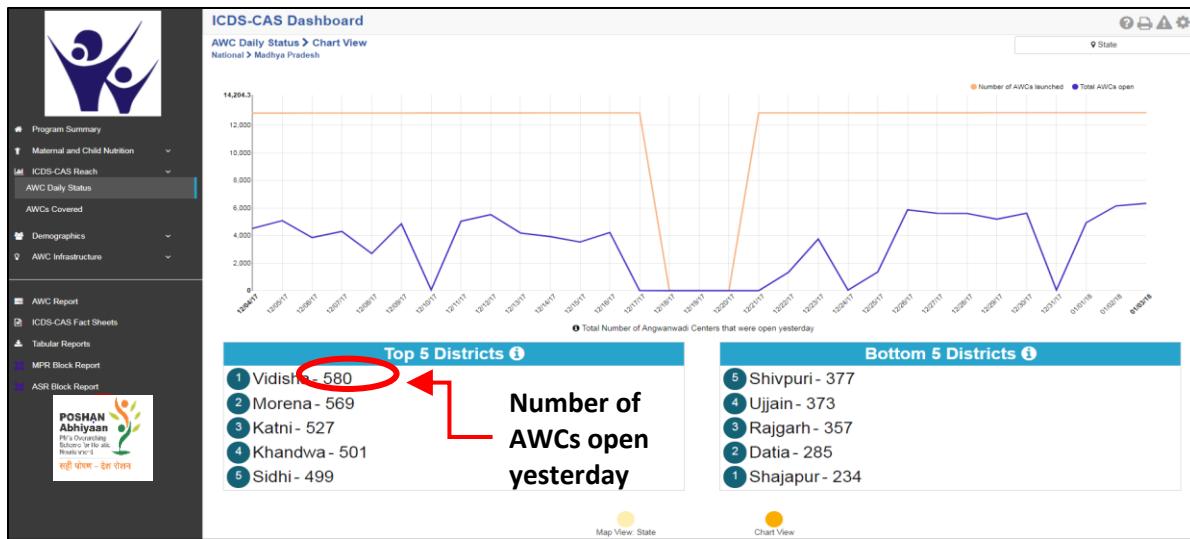

Figure 55: AWC Daily Status: Chart View – State

7.1.8 AWC Daily Status: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

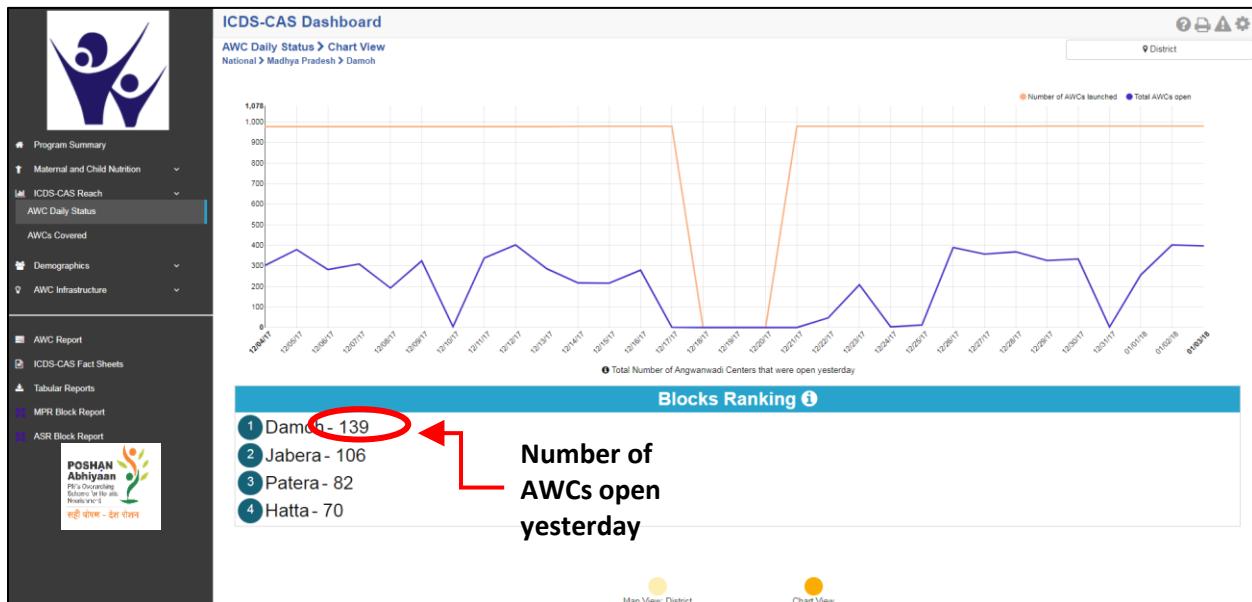

Figure 56: AWC Daily Status: Chart View – District

7.1.9 AWC Daily Status: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

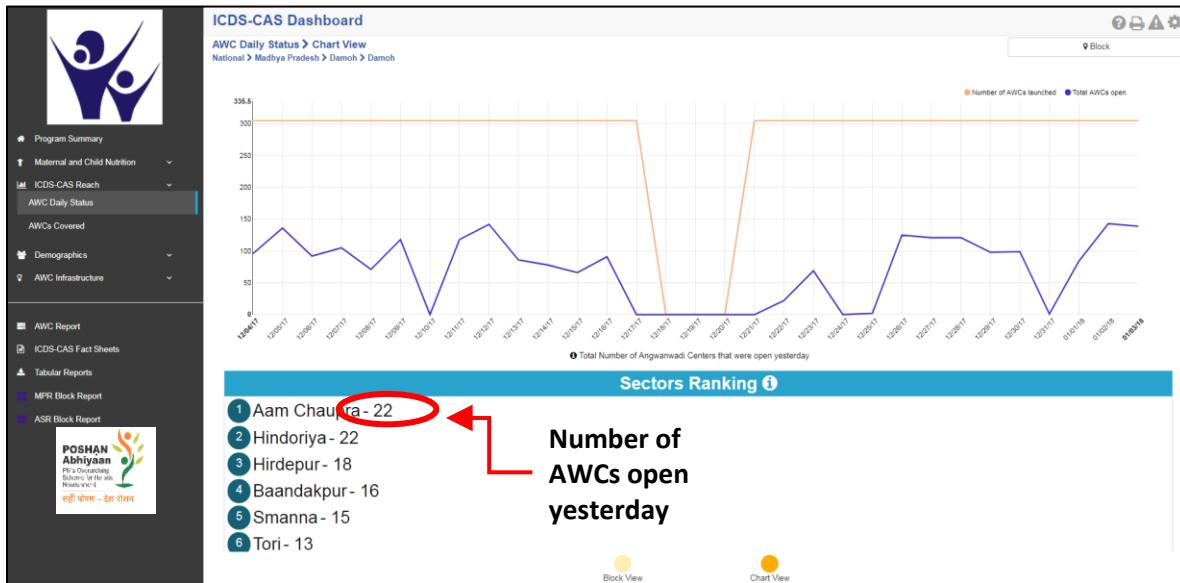

Figure 57: AWC Daily Status: Chart View – Block

7.1.10 AWC Daily Status: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

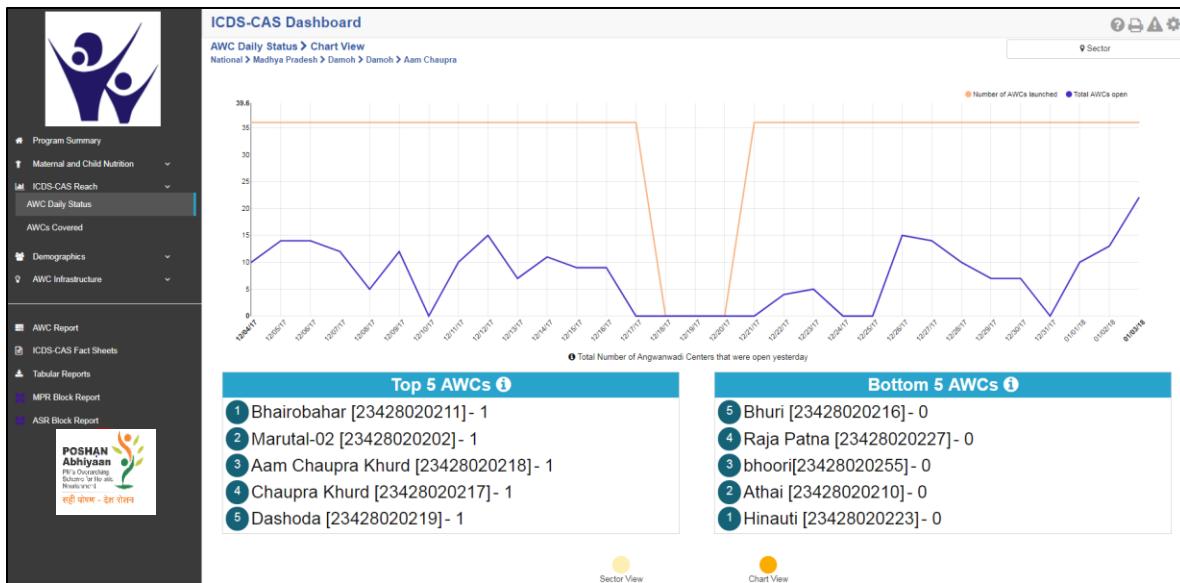

Figure 58: AWC Daily Status: Chart View – Sector

In the above snapshot, the AWCs with '1' written against them were open yesterday and the AWCs with '0' written against them were closed yesterday.

7.2 AWCs Launched

The second indicator under 'ICDS-CAS Reach' is 'AWCs Launched' which is explained below.

Definition of indicator – Total AWCs that have launched ICDS-CAS. AWCs are considered launched if they have submitted at least one Household Registration form.

The navigation workflow for moving to 'Map View' or 'Chart View' is similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

7.2.1 AWCs Launched: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

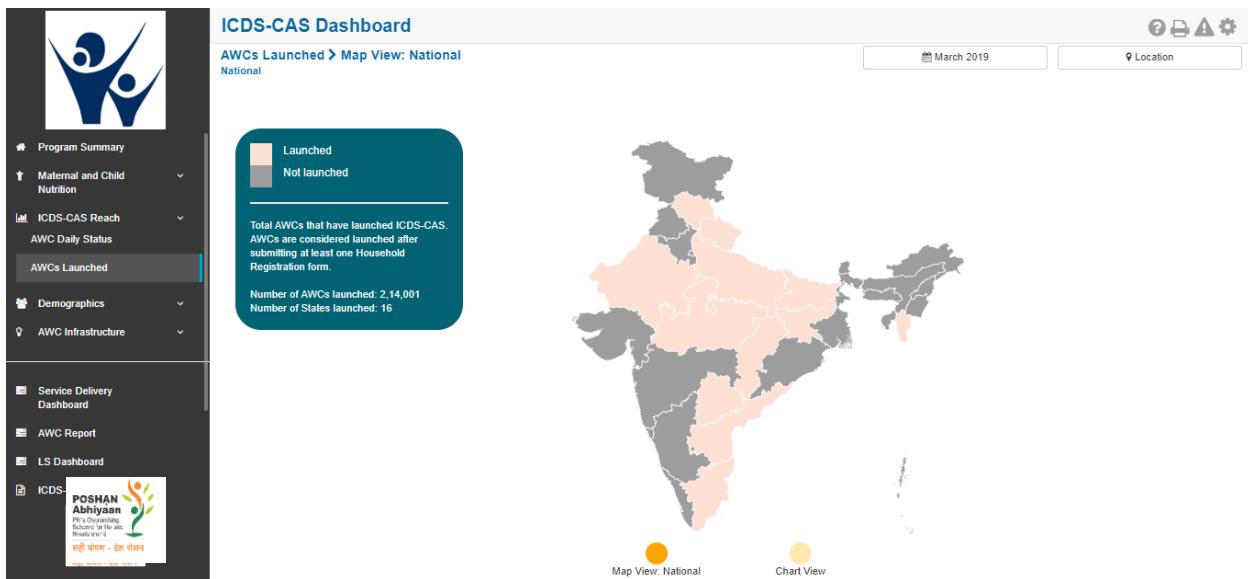

Figure 59: AWCS Covered: Map View – National

7.2.2 AWCS Launched: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWC Daily Status in Section 7.1.

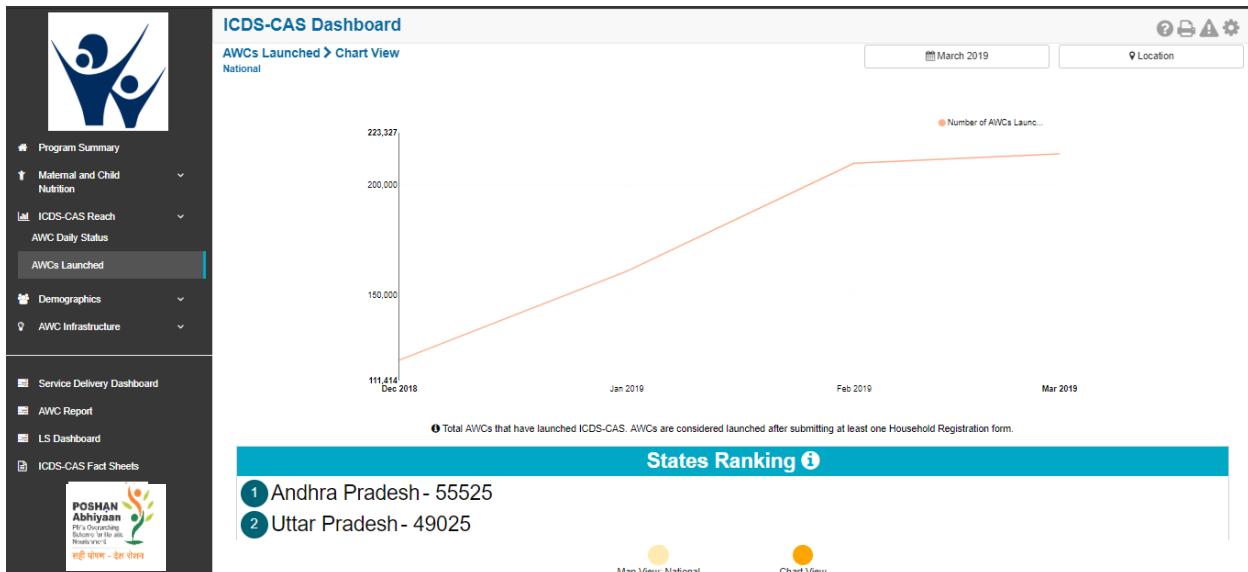

Figure 60: AWCS Covered: Chart View – National

8 Demographics

Demographics includes indicators that provide information about the number of beneficiaries covered under ICDS-CAS across various categories. The section has the following list of indicators:

1. Registered Households
2. Children (0-6 years) who are enrolled for ICDS services
3. Pregnant Women enrolled for ICDS services
4. Lactating Mothers enrolled for ICDS services
5. Adolescent Girls (11-18 years) enrolled for ICDS services
6. Percent Aadhaar-seeded Beneficiaries

On the left hand navigation panel, click on ‘Demographics’ to see a detailed list of indicators. Select the indicator to see a detailed ‘Map View’ for the selected indicator.

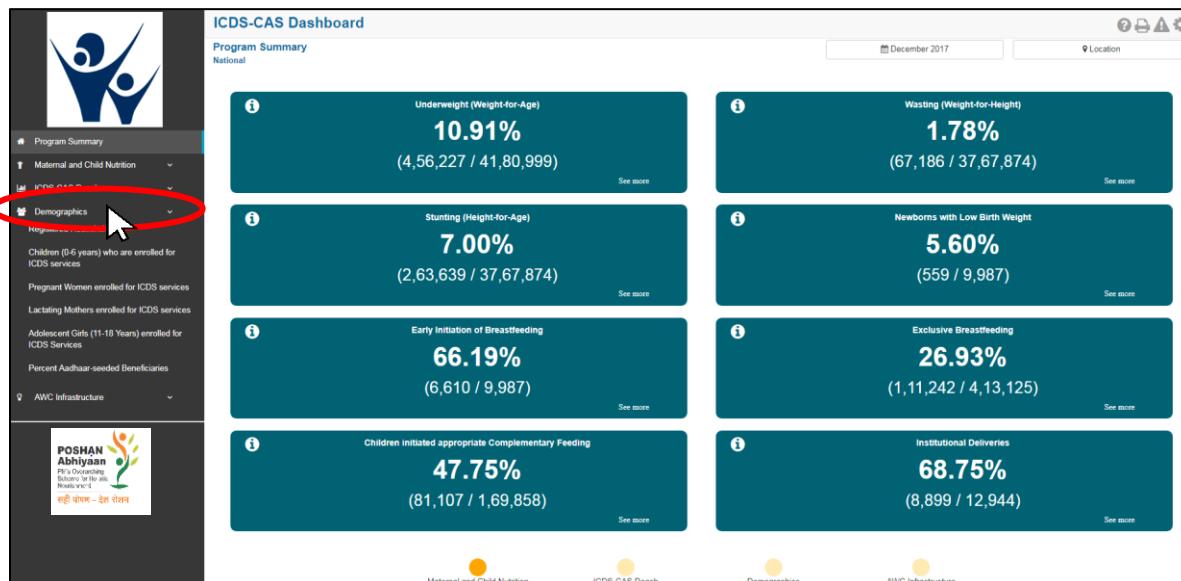

Figure 61: Link to view Demographics

8.1 Registered Households

The first indicator under ‘Demographics’ is ‘Registered Households’ which is explained below.

Definition of indicator – Total number of households registered

Click on the indicator ‘Registered Households’ from the left hand navigation panel under ‘Demographics’ to enter ‘Map View’.

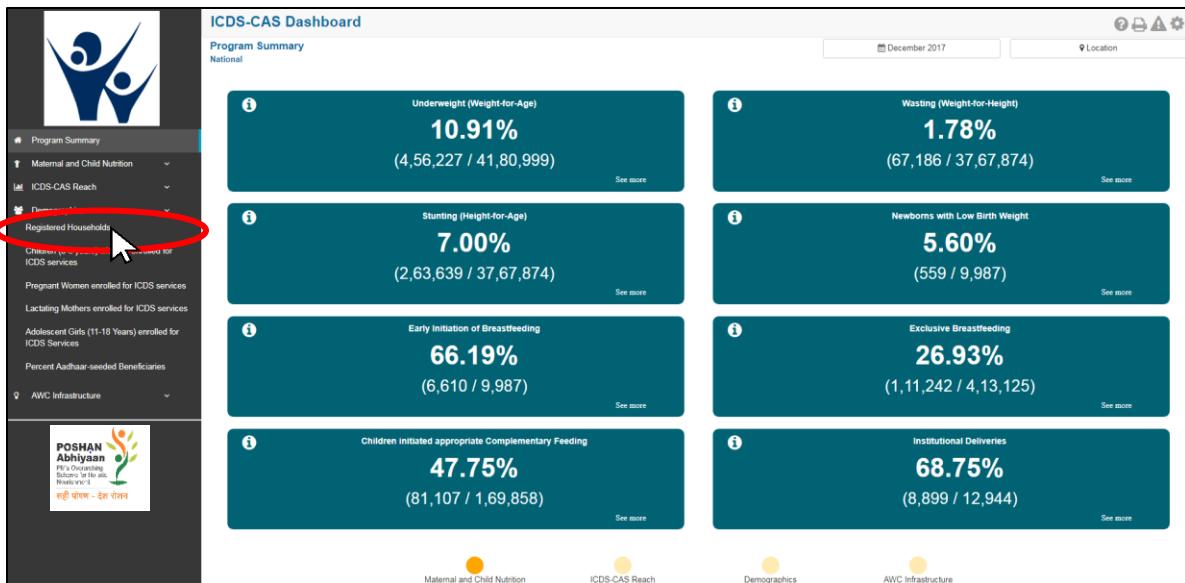

Figure 62: Link to view Registered Households

8.1.1 Registered Households: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

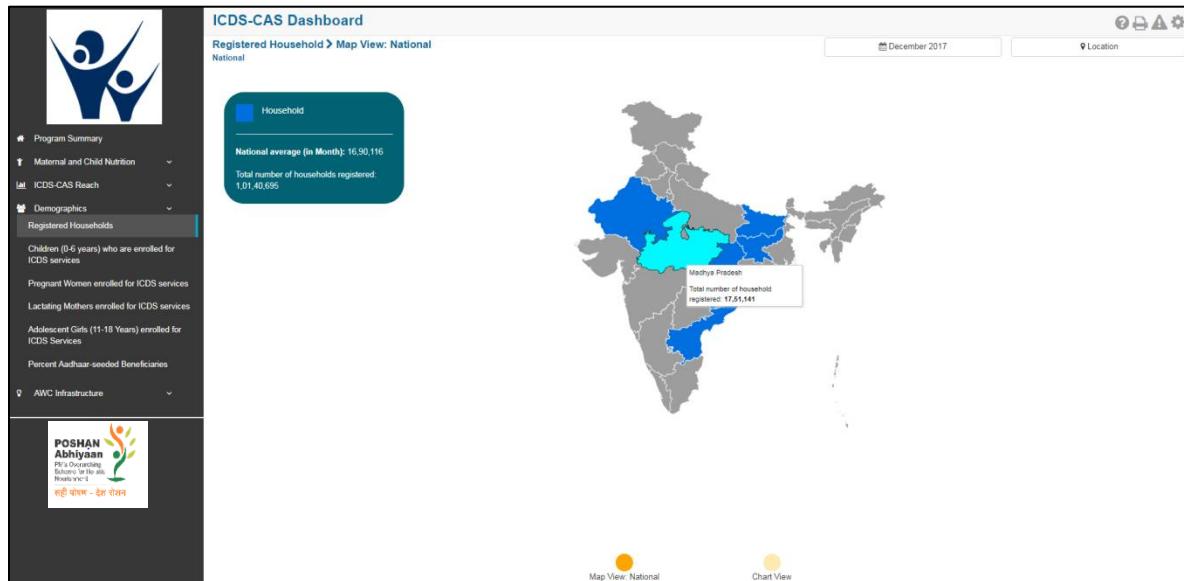

Figure 63: Registered Households: Map View – National

8.1.2 Registered Households: Map View – State

If a State level user (SPMU) logs into the dashboard, the ‘Map View’ will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

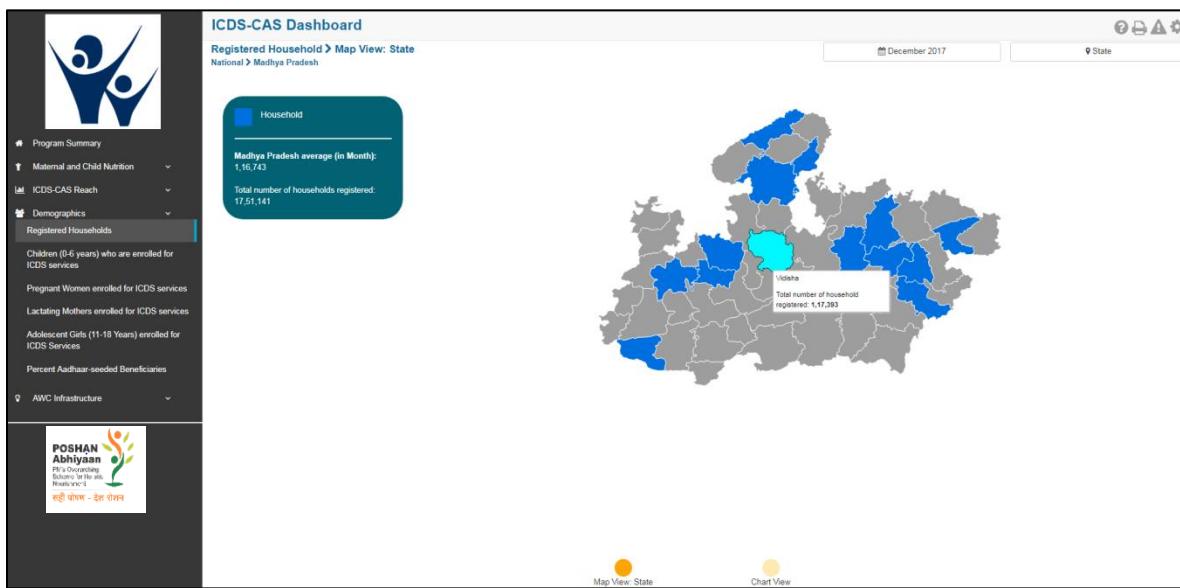

Figure 64: Registered Households: Map View – State

8.1.3 Registered Households: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

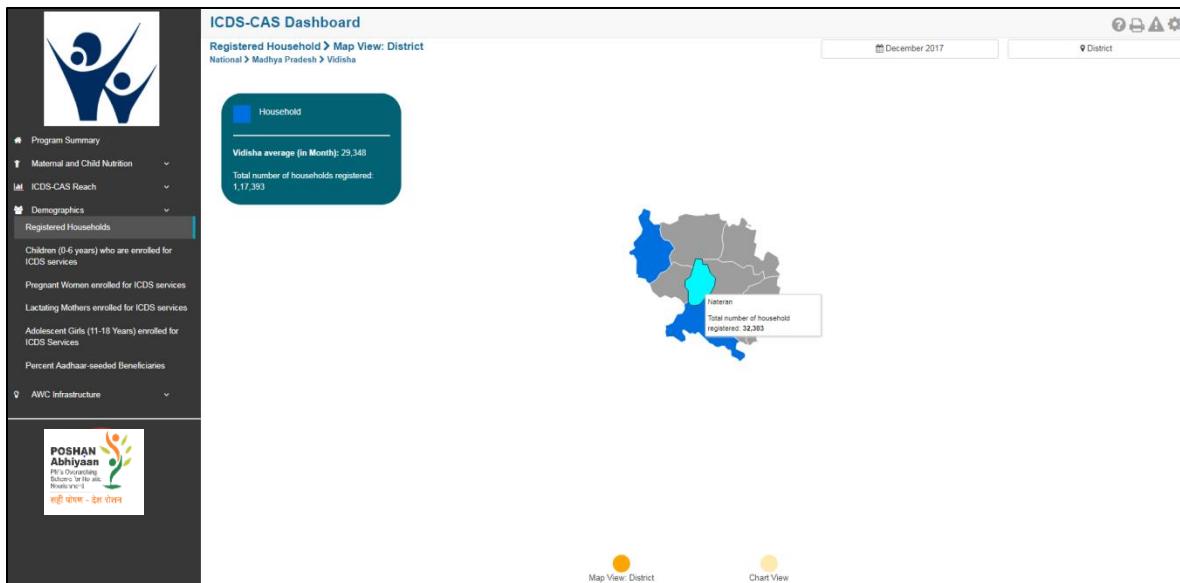

Figure 65: Registered Households: Map View – District

8.1.4 Registered Households: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Map View’ will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

Figure 66: Registered Households: Map View – Block View

8.1.5 Registered Households: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

Figure 67: Registered Households: Map View – Sector View

8.1.6 Registered Households: Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

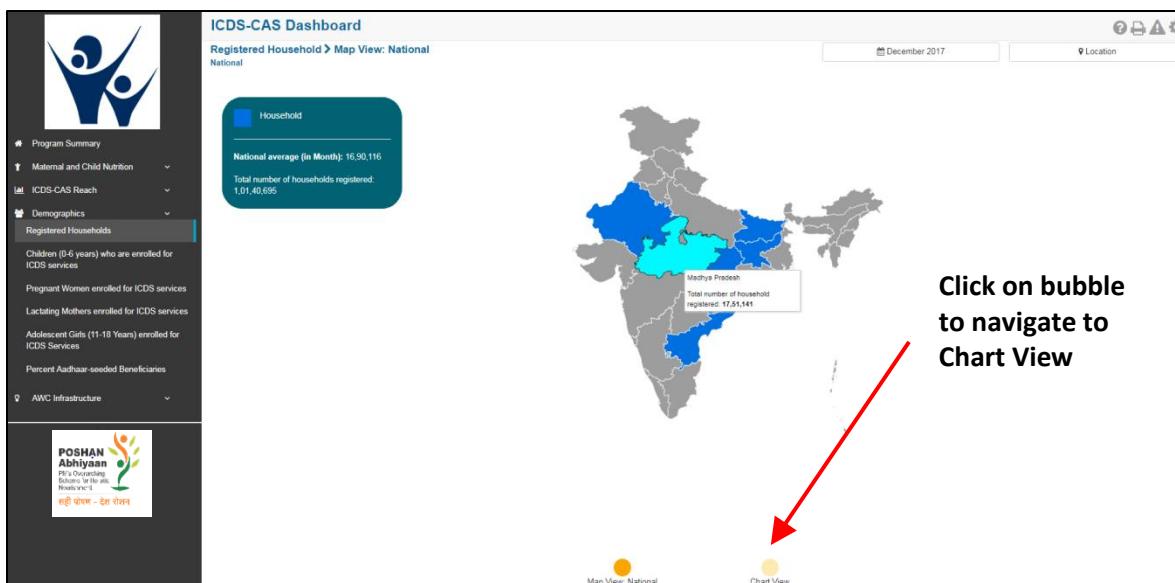

Figure 68: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

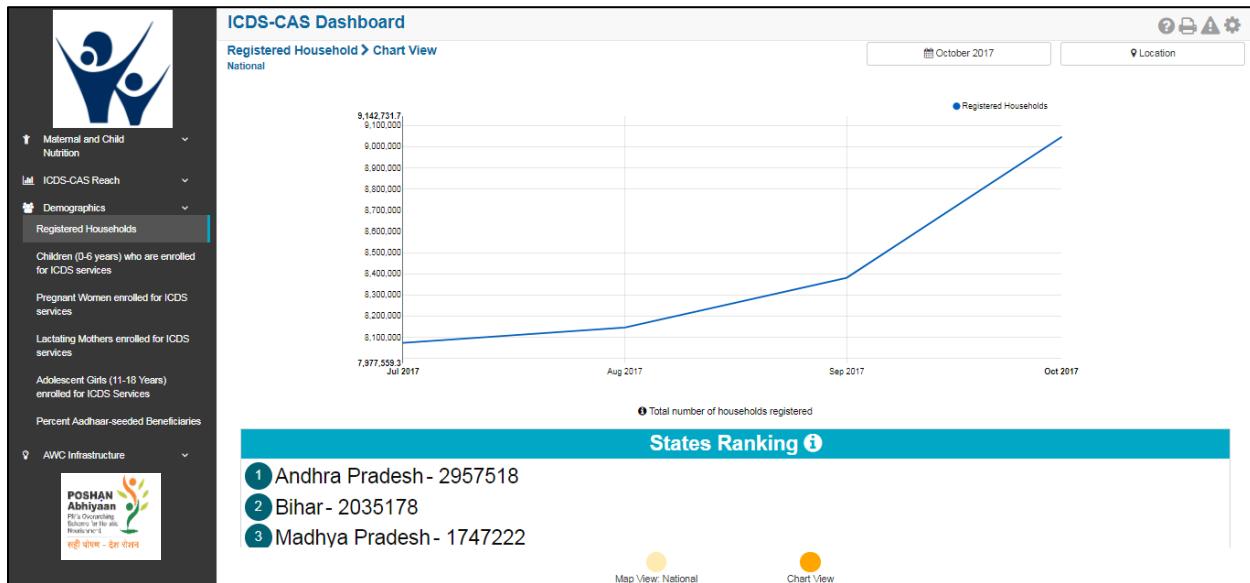

Figure 69: Registered Households: Chart View – National

8.1.7 Registered Households: Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

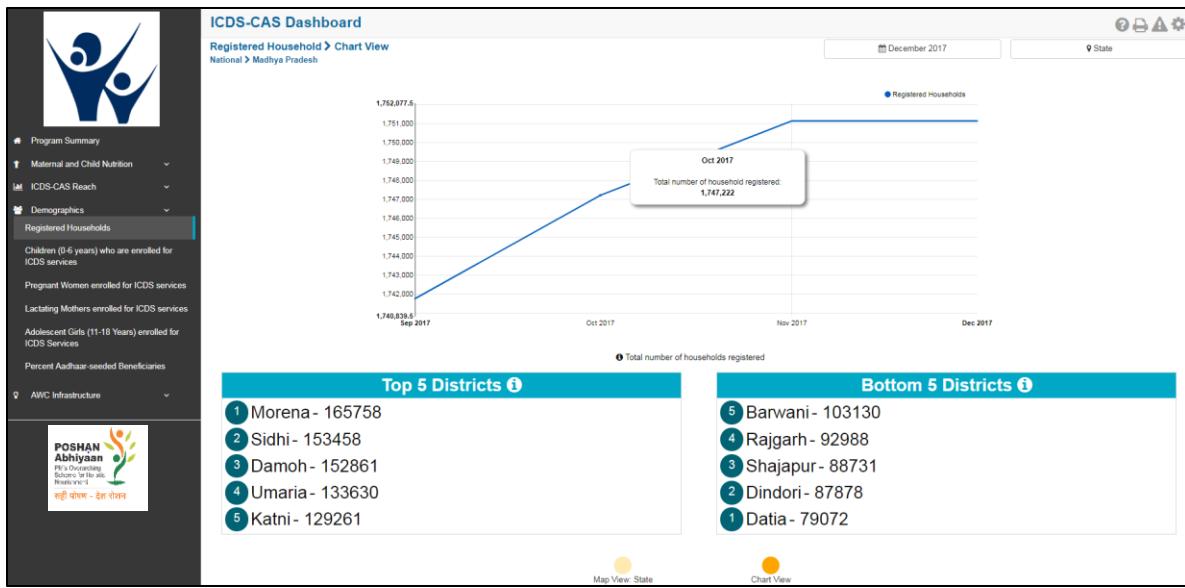

Figure 70: Registered Households: Chart View – State

8.1.8 Registered Households: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

Figure 71: Registered Households: Chart View – District

8.1.9 Registered Households: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

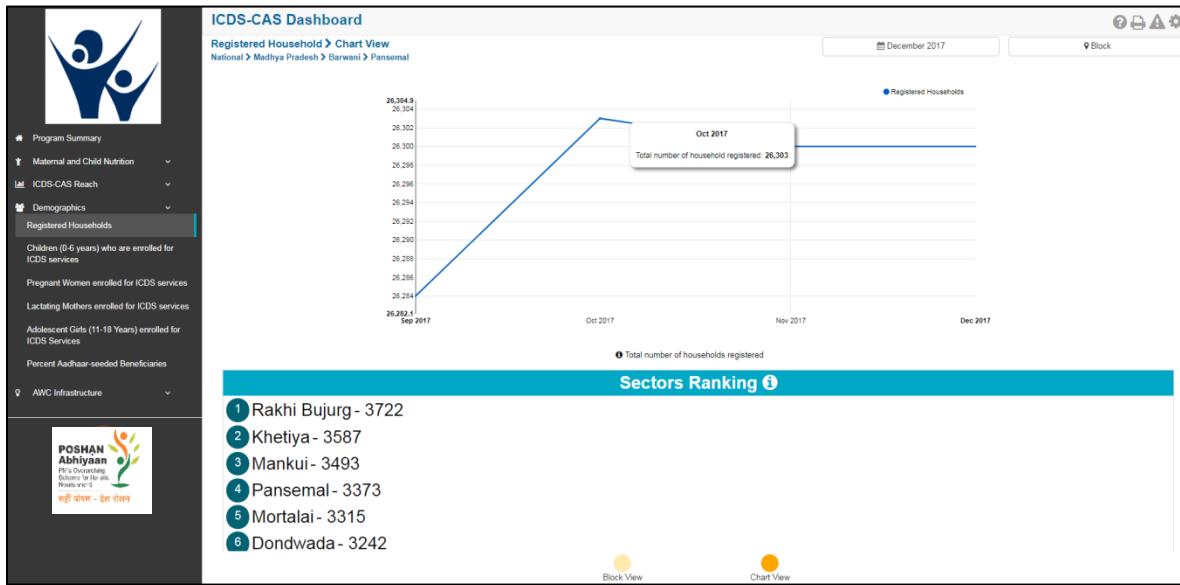

Figure 72: Registered Households: Chart View – Block

8.1.10 Registered Households: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

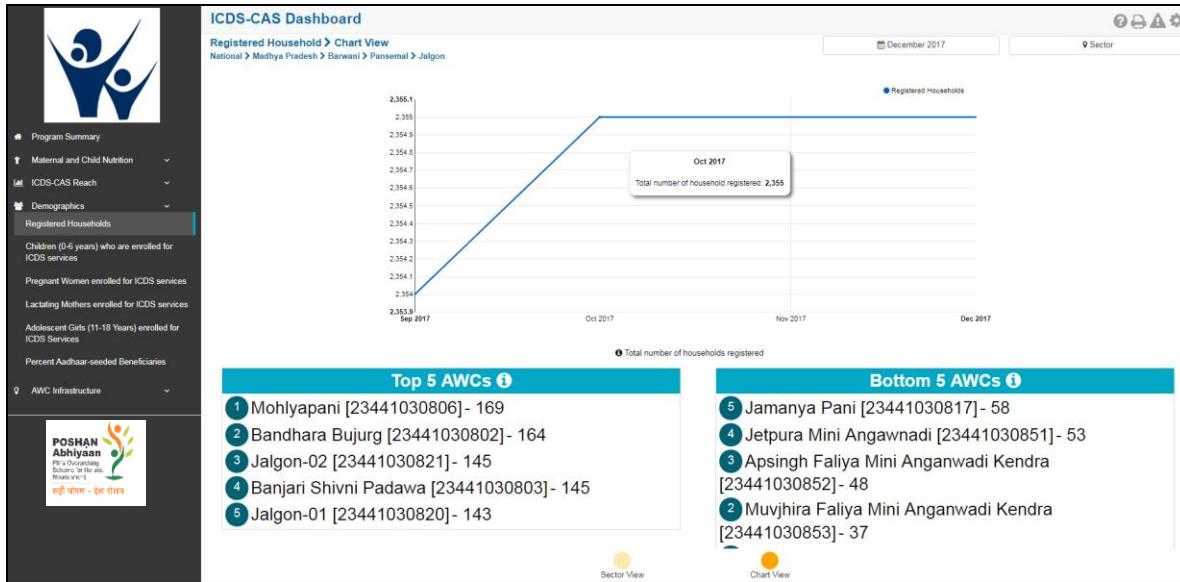

Figure 73: Registered Households: Chart View – Sector

8.2 Children (0-6 years) who are enrolled for ICDS services

The second indicator under ‘Demographics’ is ‘Children (0-6 years) who are enrolled for ICDS services’ which is explained below.

Definition of indicator – Number of children registered between 0-6 years old who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

8.2.1 Children (0-6 years) who are enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

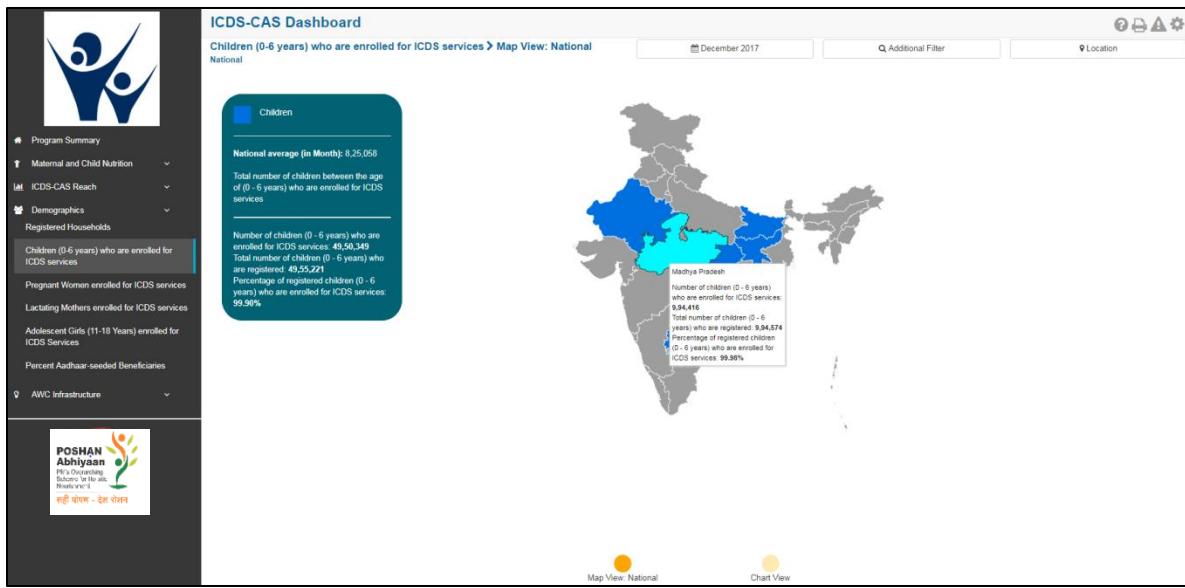

Figure 74: Children (0-6 years) who are enrolled for ICDS services: Map View – National

8.2.2 Children (0-6 years) who are enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

The X axis shows bifurcation of children between (0-6 years) to display number of children in the following age groups:

- Children between 0-1 Month
- Children between 1-6 Months
- Children between 6-12 months
- Children between 1-3 years
- Children between 3-6 years

The Y axis displays the total number of children (0-6 years) who are enrolled for ICDS services. The blue bars displayed in the below mentioned snapshot display the % of children in various age groups i.e. (0-6 years) out of the total number of children who are enrolled for ICDS-CAS services.

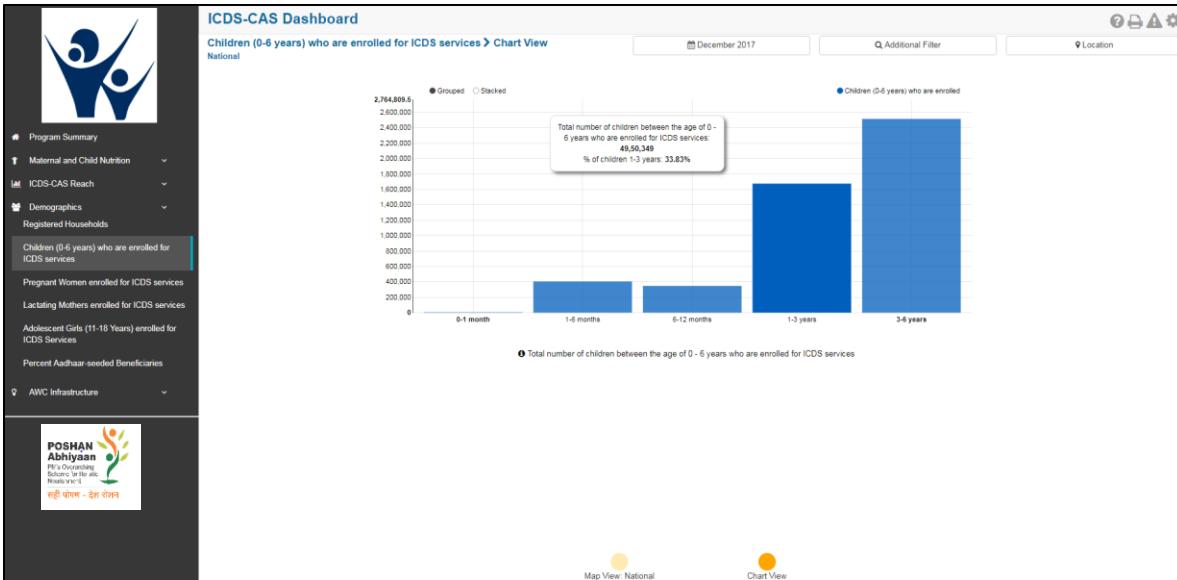

Figure 75: Children (0-6 years) who are enrolled for ICDS services: Chart View – National

8.3 Pregnant Women enrolled for ICDS services

The third indicator under ‘Demographics’ is ‘Pregnant Women enrolled for ICDS services’ which is explained below.

Definition of indicator – Number of pregnant women registered who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

8.3.1 Pregnant Women enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

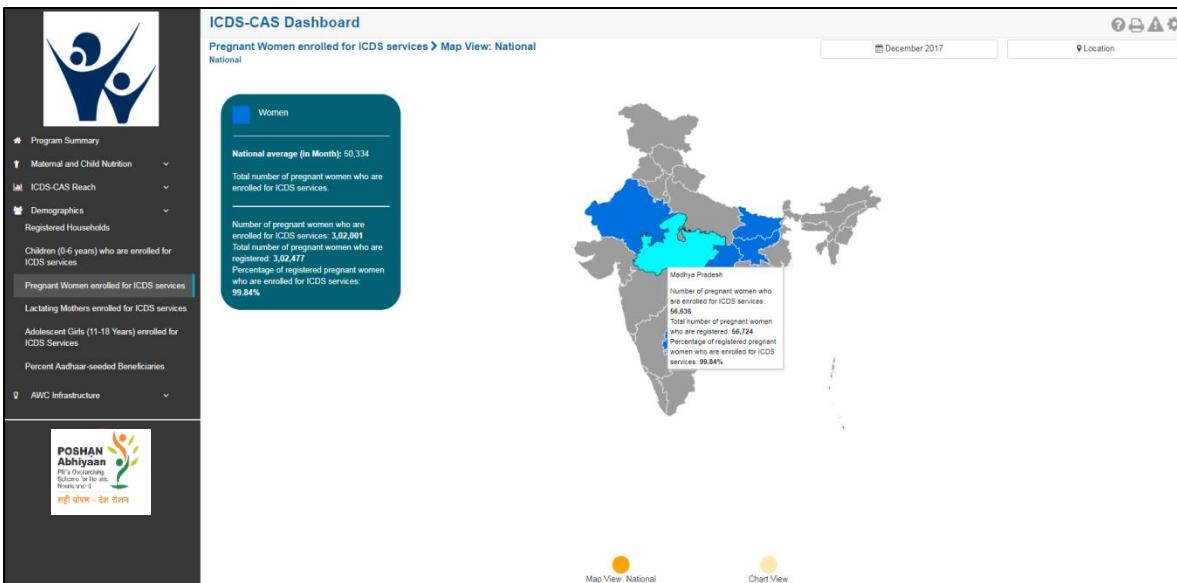

Figure 76: Pregnant Women enrolled for ICDS services: Map View – National

8.3.2 Pregnant Women enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

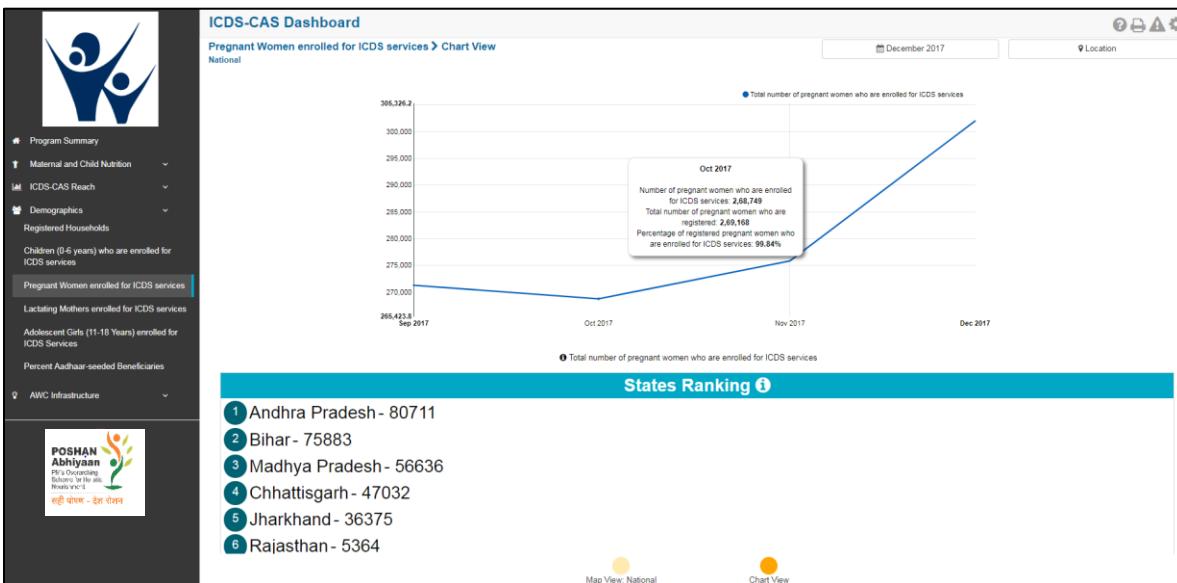

Figure 77: Pregnant Women enrolled for ICDS services: Chart View – National

8.4 Lactating Mothers enrolled for ICDS services

The fourth indicator under ‘Demographics’ is ‘Lactating Mothers enrolled for ICDS services’ which is explained below.

Definition of indicator – Number of lactating women registered who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

8.4.1 Lactating Mothers enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

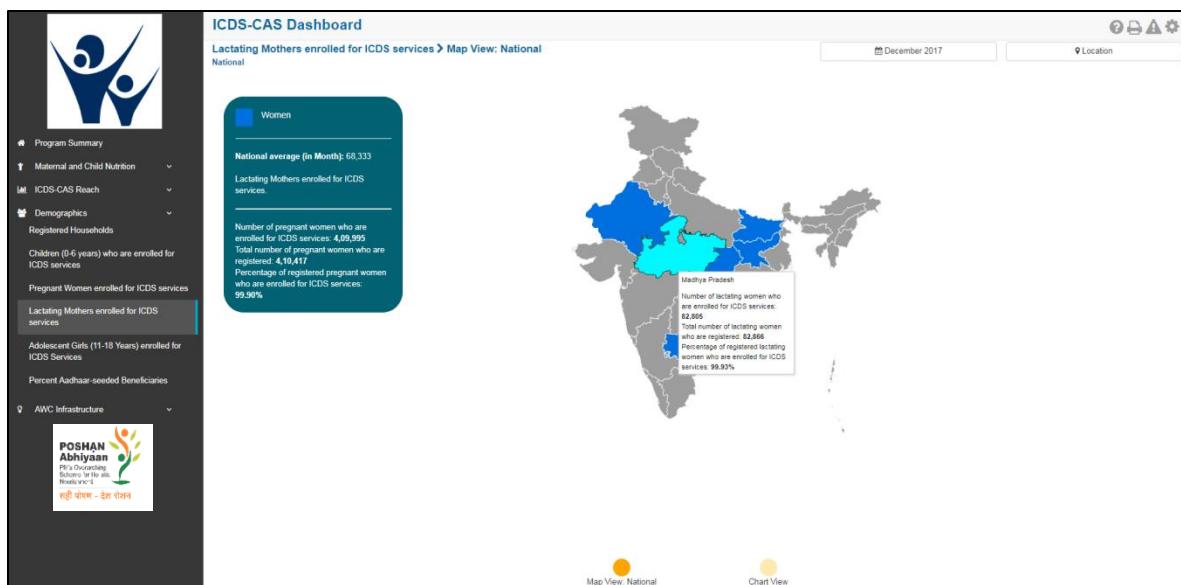

Figure 78: Lactating Mothers enrolled for ICDS services: Map View – National

8.4.2 Lactating Mothers enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

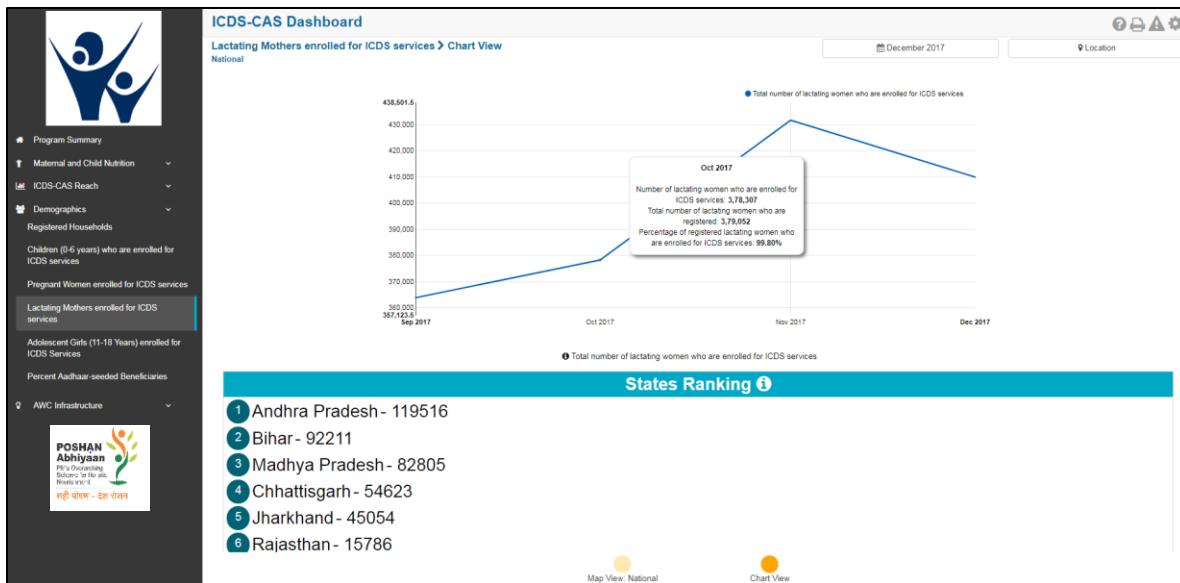

Figure 79: Lactating Mothers enrolled for ICDS services: Chart View – National

8.5 Adolescent Girls (11-14 years) enrolled for ICDS services

The fifth indicator under ‘Demographics’ is ‘Adolescent Girls (11-14 years) enrolled for ICDS services’ which is explained below.

Definition of indicator – Number of adolescent girls registered between 11-14 years old who are enrolled for ICDS services

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

8.5.1 Adolescent Girls (11-14 years) enrolled for ICDS services: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

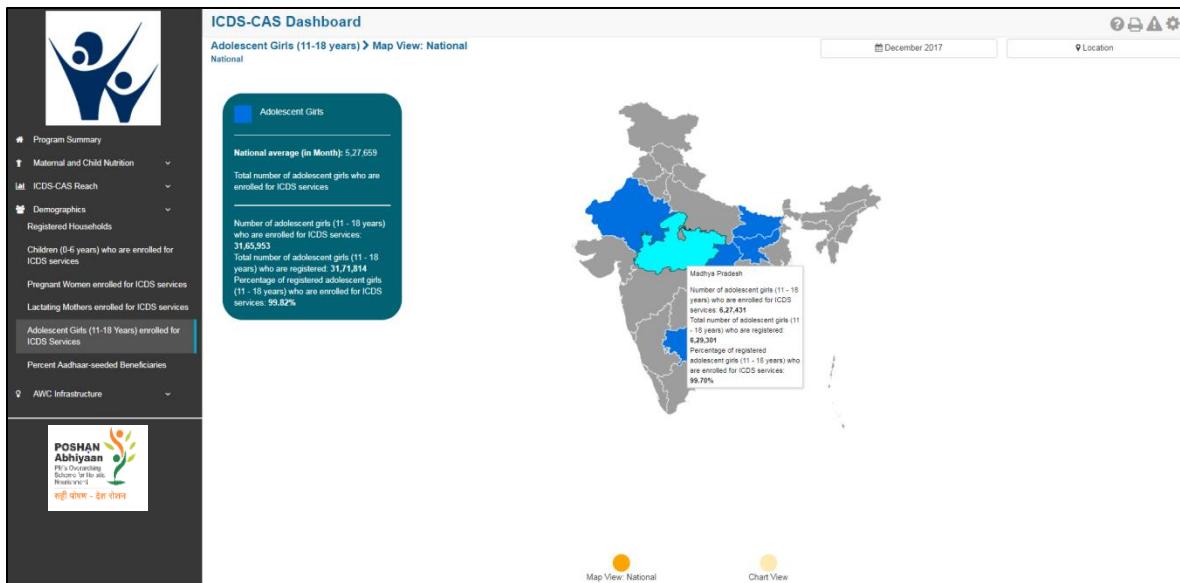

Figure 80: Adolescent Girls (11-18 years) enrolled for ICDS services: Map View – National

8.5.2 Adolescent Girls (11-14 years) enrolled for ICDS services: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

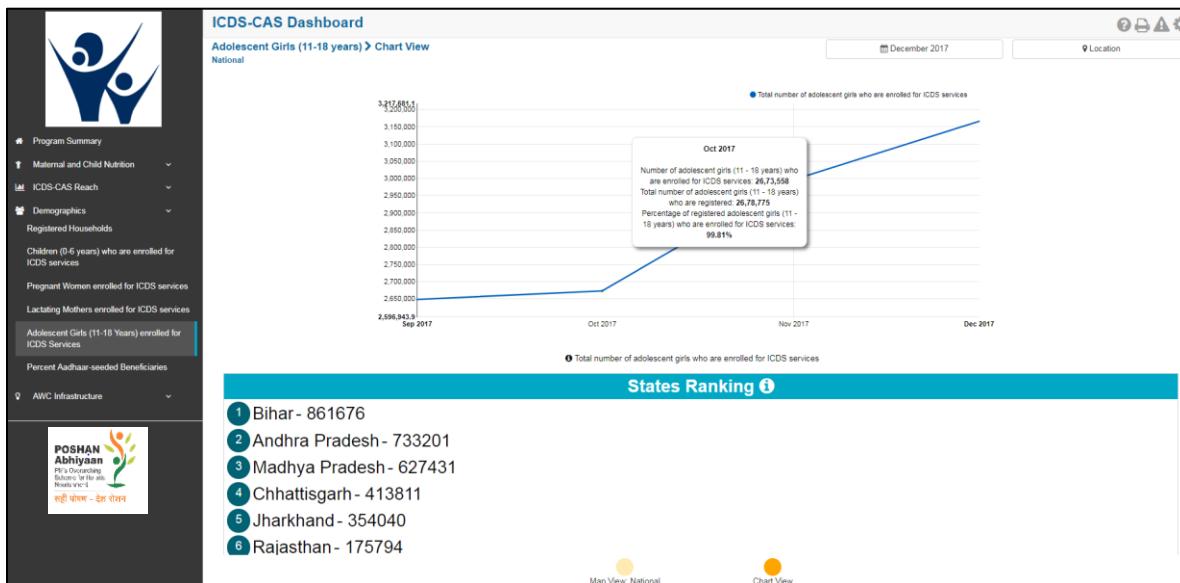

Figure 81: Adolescent Girls (11-18 years) enrolled for ICDS services: Chart View – National

8.6 Percent Aadhaar-seeded Beneficiaries

The last indicator under ‘Demographics’ is ‘Percent Aadhaar-seeded Beneficiaries’ which is explained below.

Definition of indicator – Percentage of ICDS beneficiaries whose Aadhaar identification has been captured

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – Registered Households in Section 8.1.

8.6.1 Percent Aadhaar-seeded Beneficiaries: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

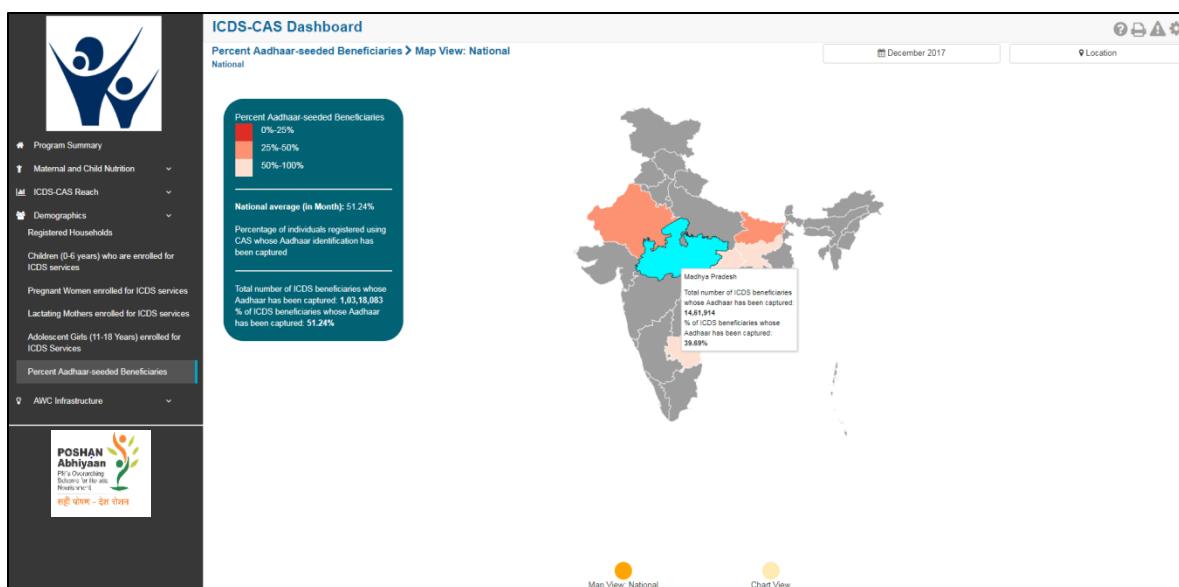

Figure 82: Percent Aadhaar-seeded Beneficiaries: Map View – National

8.6.2 Percent Aadhaar-seeded Beneficiaries: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – Registered Households in Section 8.1.

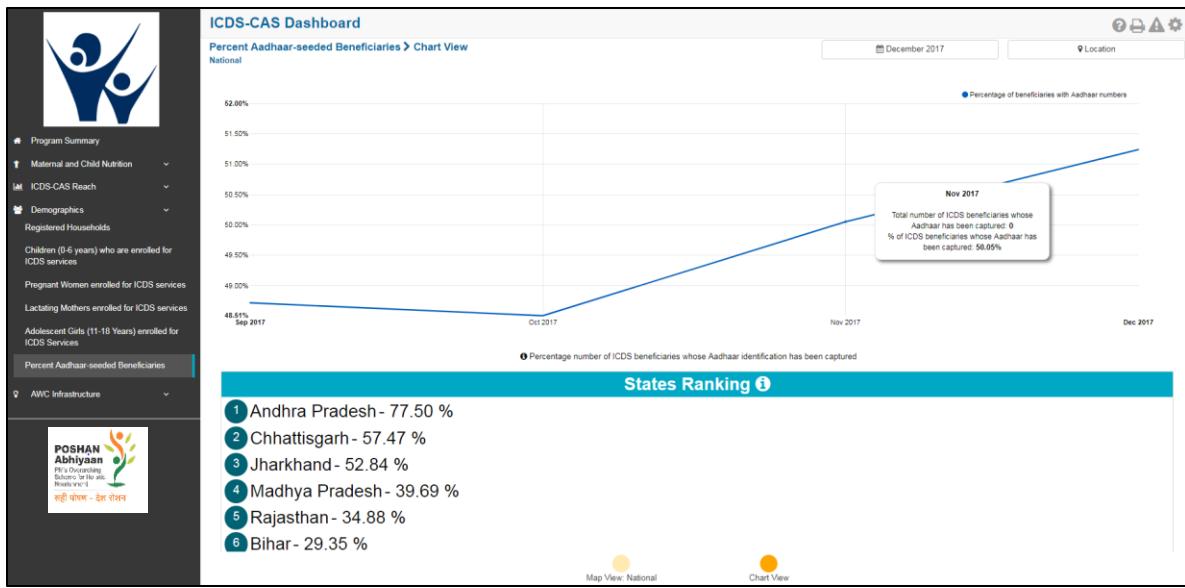

Figure 83: Percent Aadhaar-seeded Beneficiaries: Chart View – National

9 AWC Infrastructure

AWC Infrastructure includes indicators that provide information about infrastructure facilities available at the Anganwadi Centres (AWCs). The section has the following list of indicators:

1. AWCs with Clean Drinking Water
2. AWCs with Functional Toilet
3. AWCs with Medicine Kit
4. AWCs with Weighing Scale: Infants
5. AWCs with Weighing Scale: Mother and Child

On the left hand navigation panel, click on ‘AWC Infrastructure’ to see a detailed list of indicators. Select the indicator to see a detailed ‘Map View’ for the selected indicator.

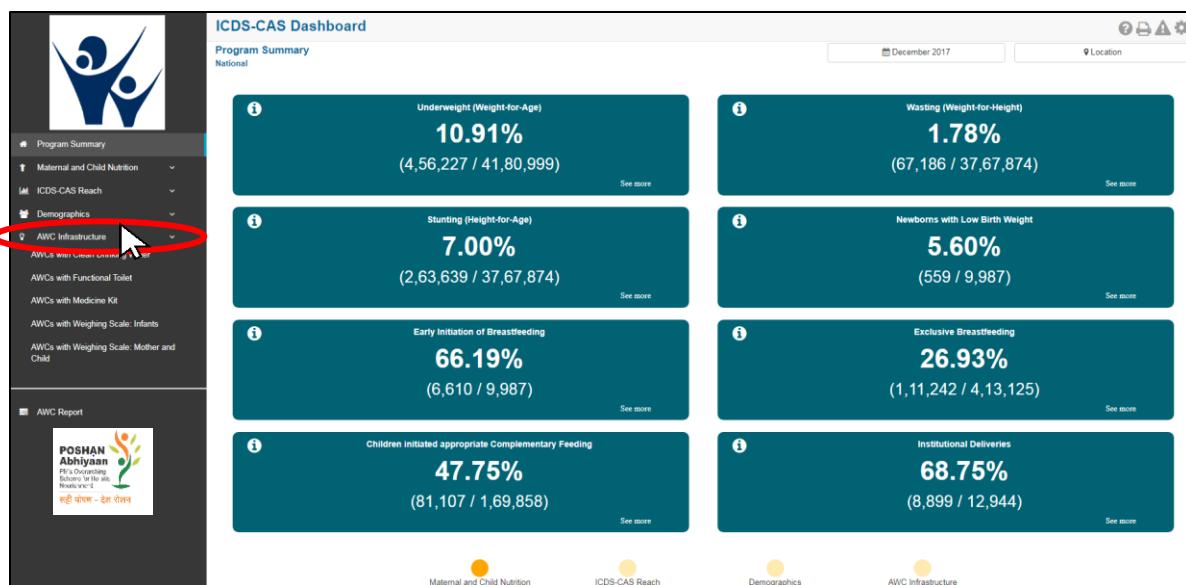

Figure 84: Link to view AWC Infrastructure

9.1 AWCs with Clean Drinking Water

The first indicator under ‘AWC Infrastructure’ is ‘AWCs with Clean Drinking Water’ which is explained below.

Definition of indicator – Number of AWCs with a source of clean drinking water

Click on the indicator ‘AWCs with Clean Drinking Water’ from the left hand navigation panel under ‘AWC Infrastructure’ to enter ‘Map View’.

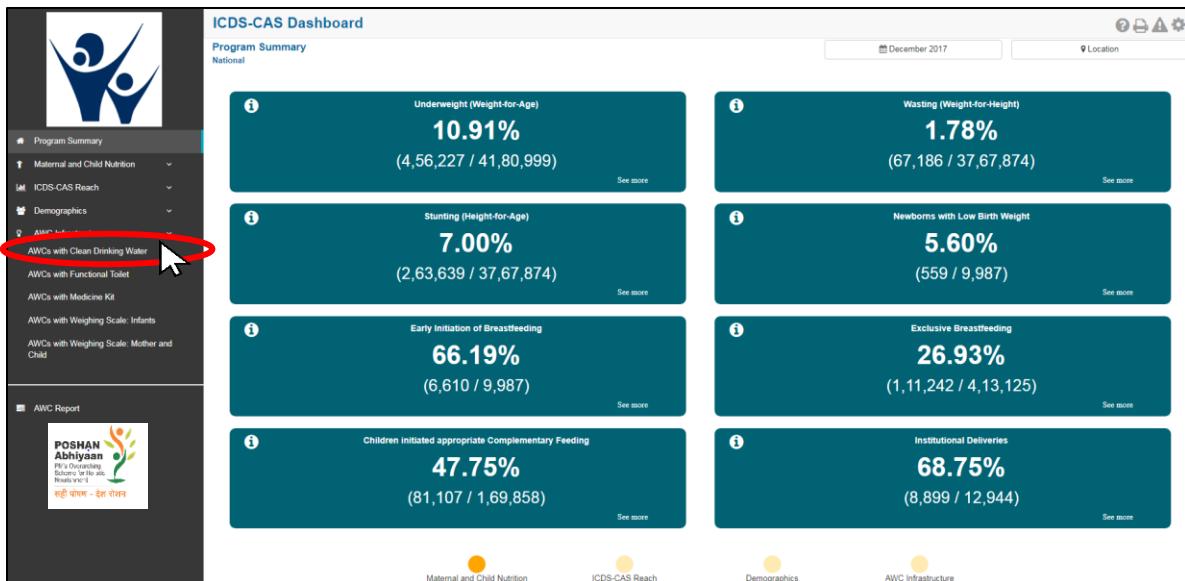

Figure 85: Link to view AWCs with Clean Drinking Water

9.1.1 AWCs with Clean Drinking Water: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the 'Map View' will show a National view as shown in the below snapshot.

The National level user can click on the map or select locations from location filter and drill down to lower levels (State / District / Block / Sector).

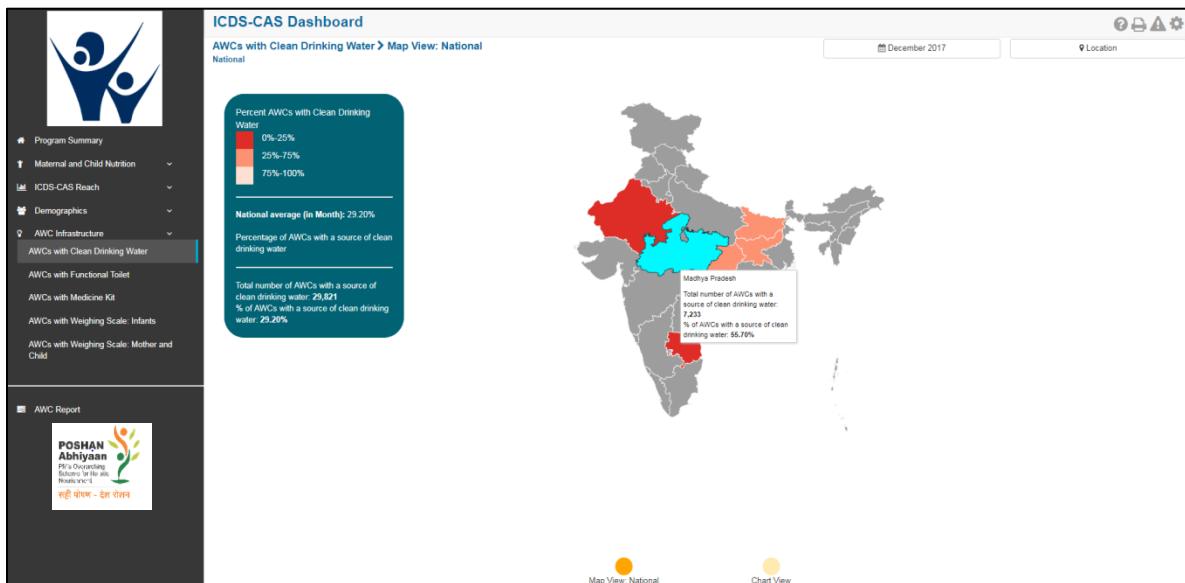

Figure 86: AWCs with Clean Drinking Water: Map View – National

9.1.2 AWCs with Clean Drinking Water: Map View – State

If a State level user (SPMU) logs into the dashboard, the ‘Map View’ will show a State view as shown in the below snapshot.

The State level user can click on the map or select locations from location filter and drill down to lower levels (District / Block / Sector).

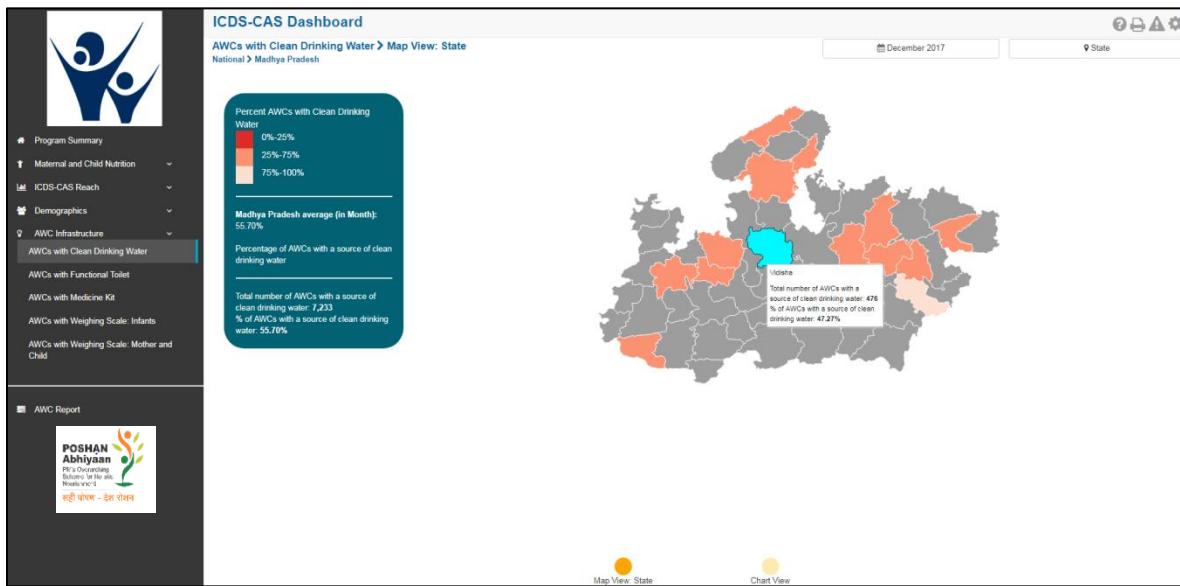

Figure 87: AWCs with Clean Drinking Water: Map View – State

9.1.3 AWCs with Clean Drinking Water: Map View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Map View’ will show a District view as shown in the below snapshot.

The District level user can click on the map or select locations from location filter and drill down to lower levels (Block / Sector).

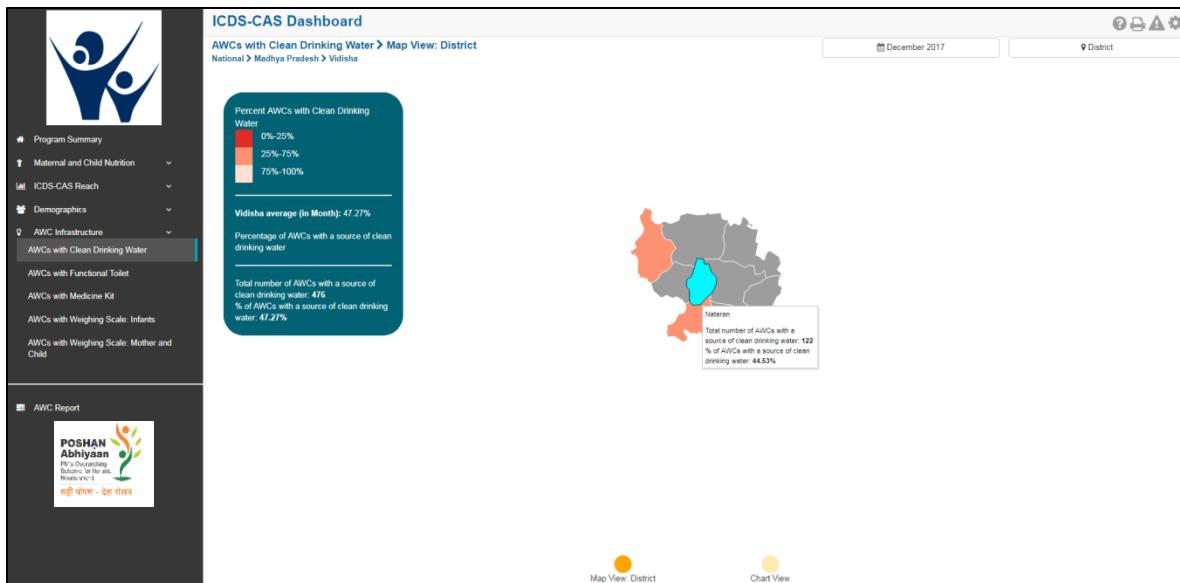

Figure 88: AWCs with Clean Drinking Water: Map View – District

9.1.4 AWCs with Clean Drinking Water: Block View

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Map View’ will show a Block view as shown in the below snapshot.

The Block view is a graphical view showing data for each Sector in the Block. The Block level user can click on the bar for any Sector or use the location filter to drill down to Sector view.

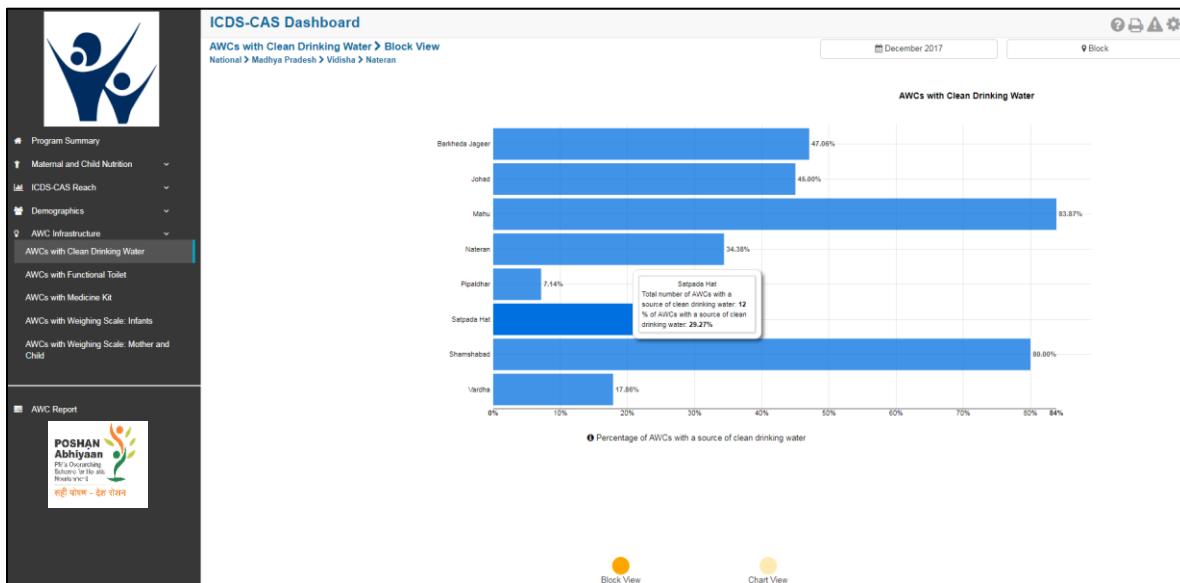

Figure 89: AWCs with Clean Drinking Water: Block View

9.1.5 AWCs with Clean Drinking Water: Sector View

The Sector view is a graphical view showing data for each AWC in the Sector. For more information about a particular AWC, the user can select the AWC by clicking on the bar chart or use the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

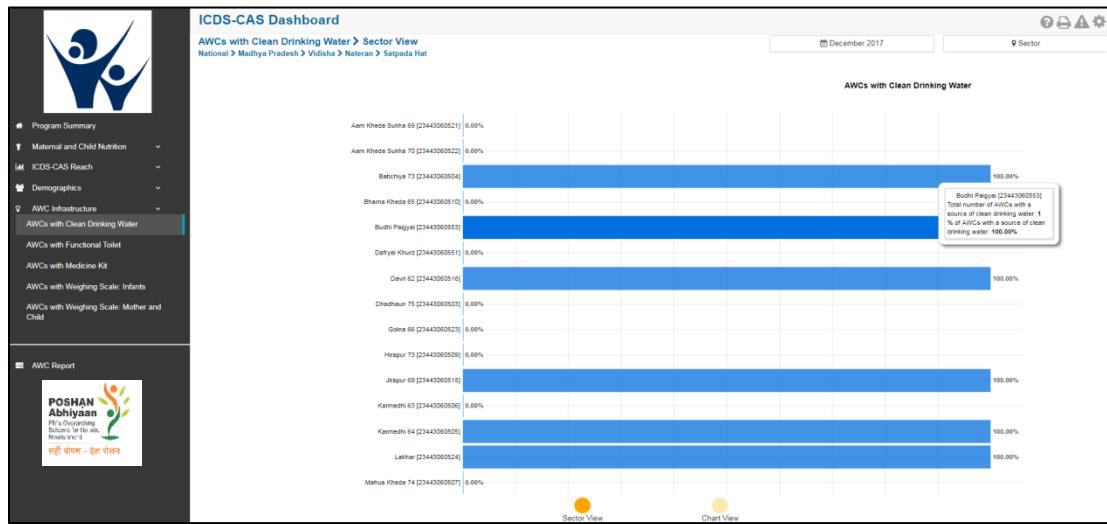

Figure 90: AWCs with Clean Drinking Water: Sector View

9.1.6 AWCs with Clean Drinking Water: Chart View – National

On the Map view page, click on the ‘Chart View’ bubble navigation to see a chart view of the indicator.

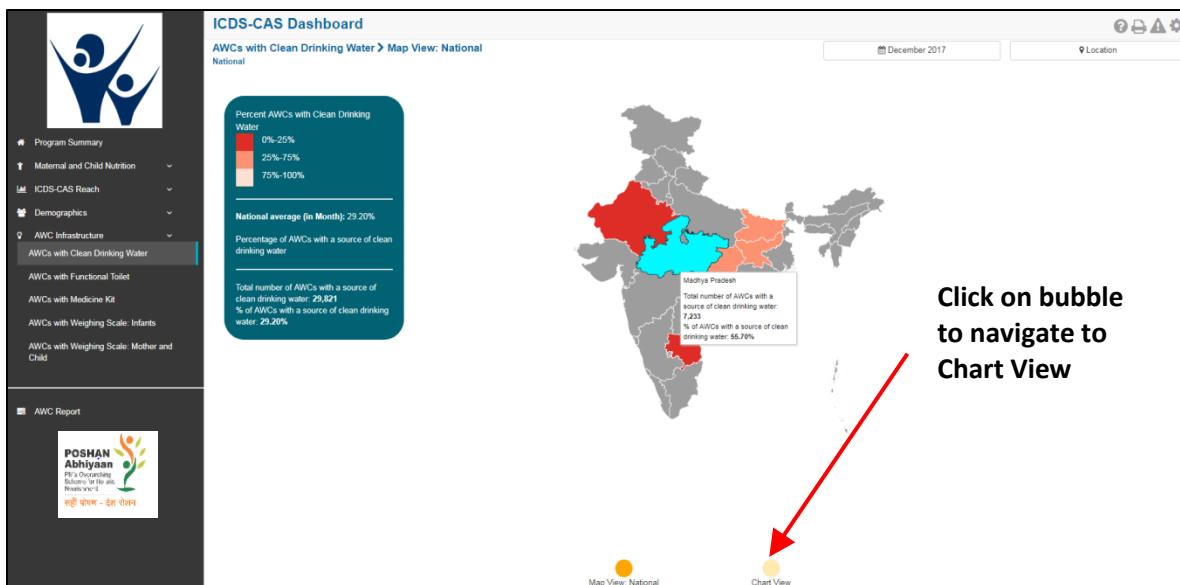

Figure 91: Navigating to Chart View

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

The National level user can use the location filter and drill down to lower levels (State / District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

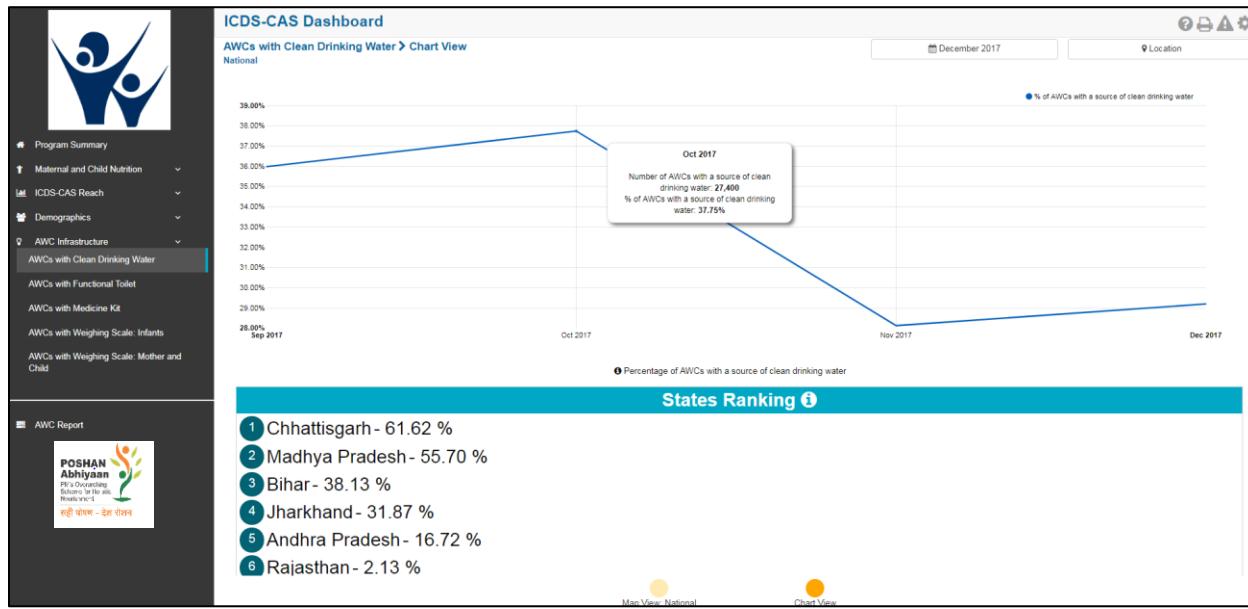

Figure 92: AWCs with Clean Drinking Water: Chart View – National

9.1.7 AWCs with Clean Drinking Water: Chart View – State

If a State level user (SPMU) logs into the dashboard, the ‘Chart View’ will show a State view as shown in the below snapshot.

The State level user can use the location filter and drill down to lower levels (District / Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

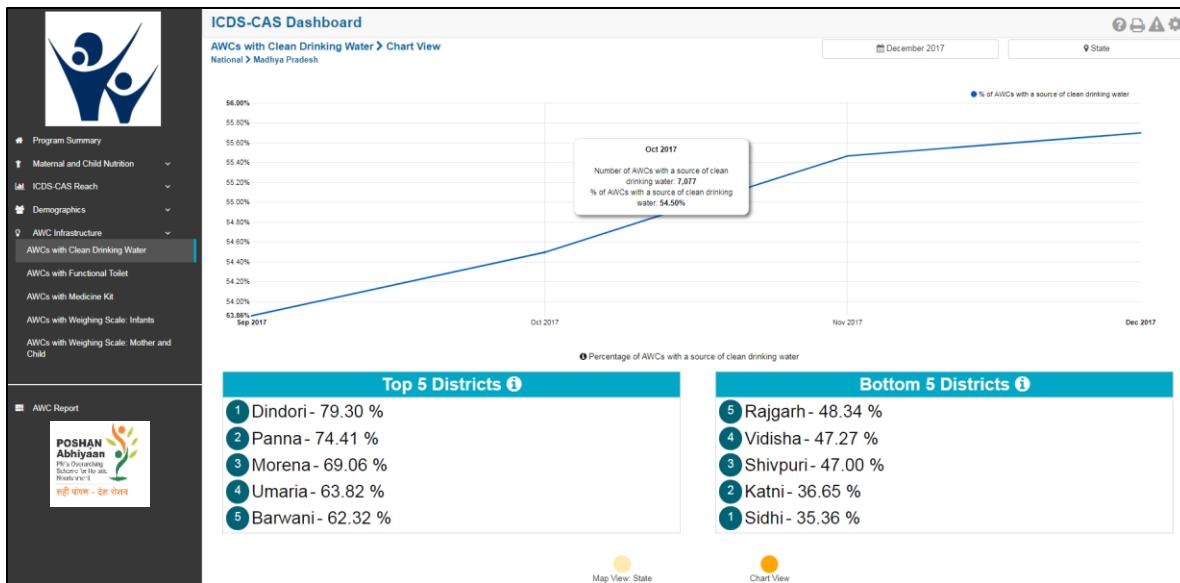

Figure 93: AWCs with Clean Drinking Water: Chart View – State

9.1.8 AWCs with Clean Drinking Water: Chart View – District

If a District level user (DPO / District Helpdesk) logs into the dashboard, the ‘Chart View’ will show a District view as shown in the below snapshot.

The District level user can use the location filter and drill down to lower levels (Block / Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

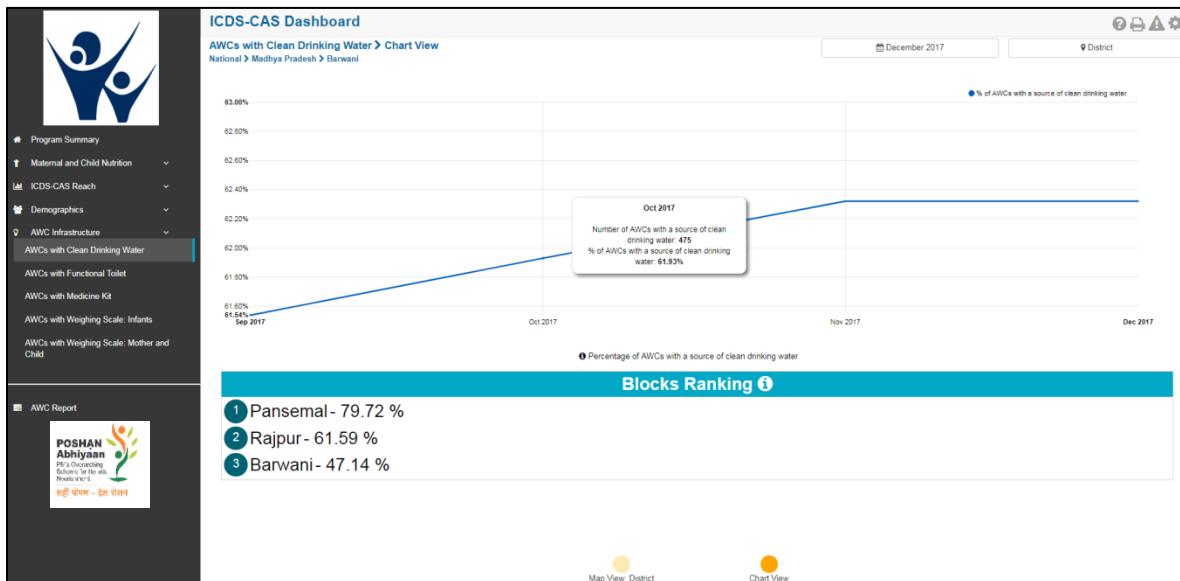

Figure 94: AWCs with Clean Drinking Water: Chart View – District

9.1.9 AWCs with Clean Drinking Water: Chart View – Block

If a Block level user (CDPO / Block Helpdesk) logs into the dashboard, the ‘Chart View’ will show a Block view as shown in the below snapshot.

The Block level user can use the location filter and drill down to lower levels (Sector) or directly move from ‘Map View’ to ‘Chart View’ at any level by clicking on the ‘Chart View’ bubble navigation on the ‘Map View’ page.

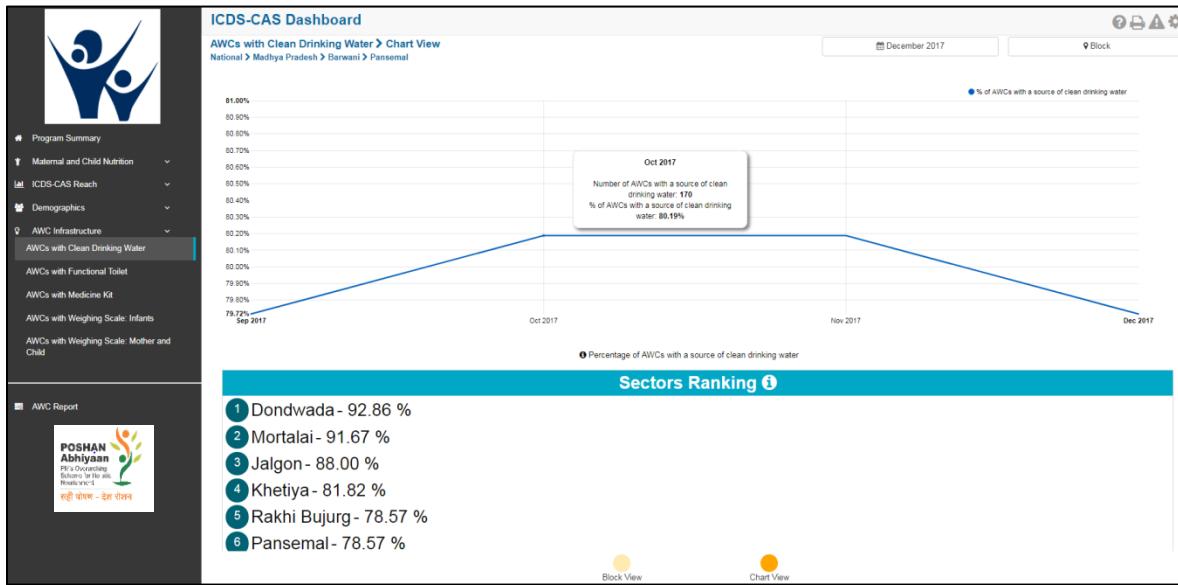

Figure 95: AWCs with Clean Drinking Water: Chart View – Block

9.1.10 AWCs with Clean Drinking Water: Chart View – Sector

The ‘Sector View’ will show a Sector level view as shown in the below snapshot. Any user level can use the location filter and drill down to Sector level chart view.

For more information about a particular AWC, the user can select the AWC using the location filter. The dashboard will direct the user to AWC Report which is explained further in Section 10.

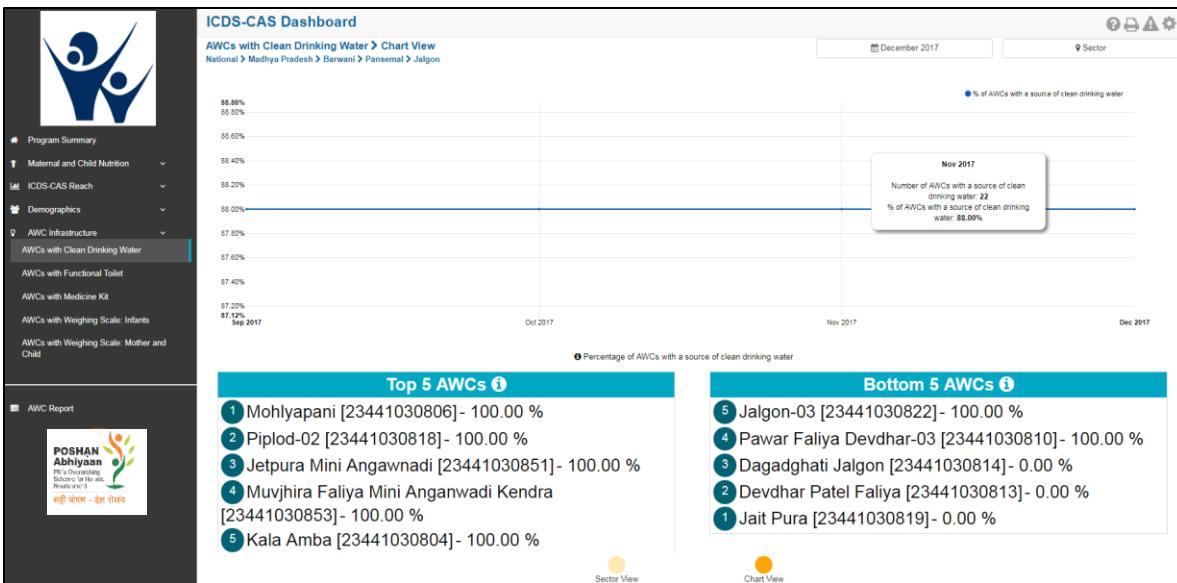

Figure 96: AWCs with Clean Drinking Water: Chart View – Sector

9.2 AWCs with Functional Toilet

The second indicator under ‘AWC Infrastructure’ is ‘AWCs with Functional Toilet’ which is explained below.

Definition of indicator – Number of AWCs with a functional toilet

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

9.2.1 AWCs with Functional Toilet: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

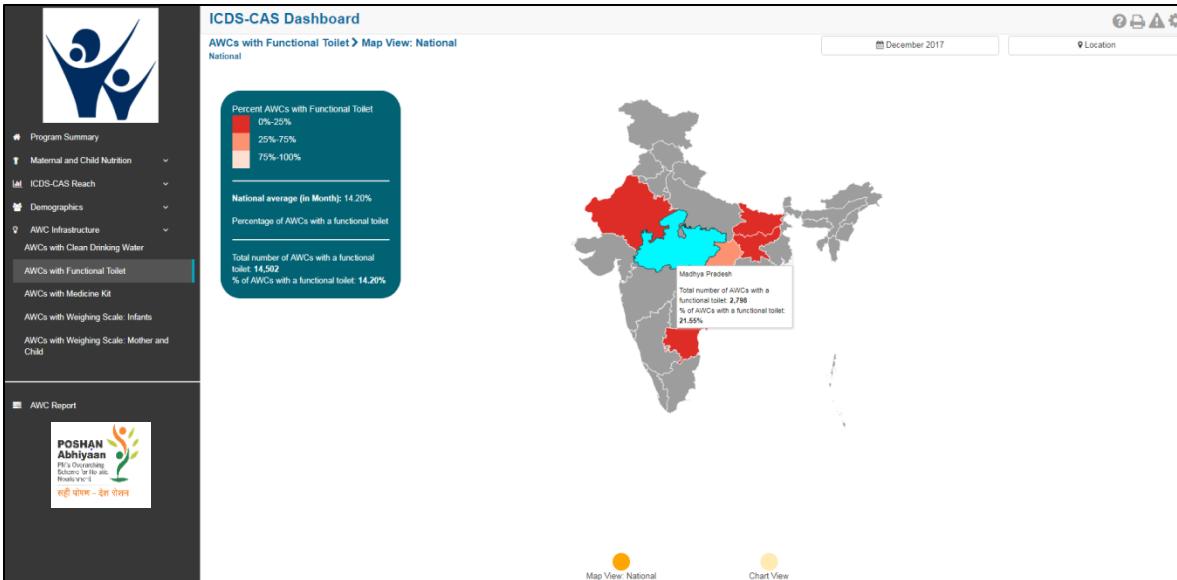

Figure 97: AWCs with Functional Toilet: Map View – National

9.2.2 AWCs with Functional Toilet: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

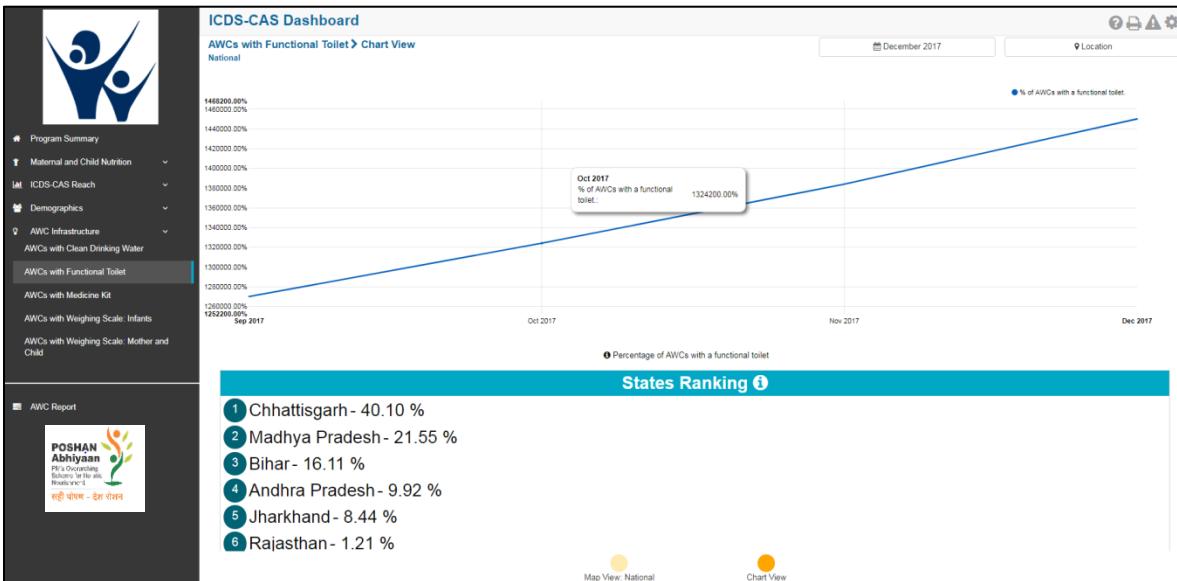

Figure 98: AWCs with Functional Toilet: Chart View – National

9.3 AWCs with Medicine Kit

The third indicator under ‘AWC Infrastructure’ is ‘AWCs with Medicine Kit’ which is explained below.

Definition of indicator – Number of AWCs with a medicine kit

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

9.3.1 AWCs with Medicine Kit: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

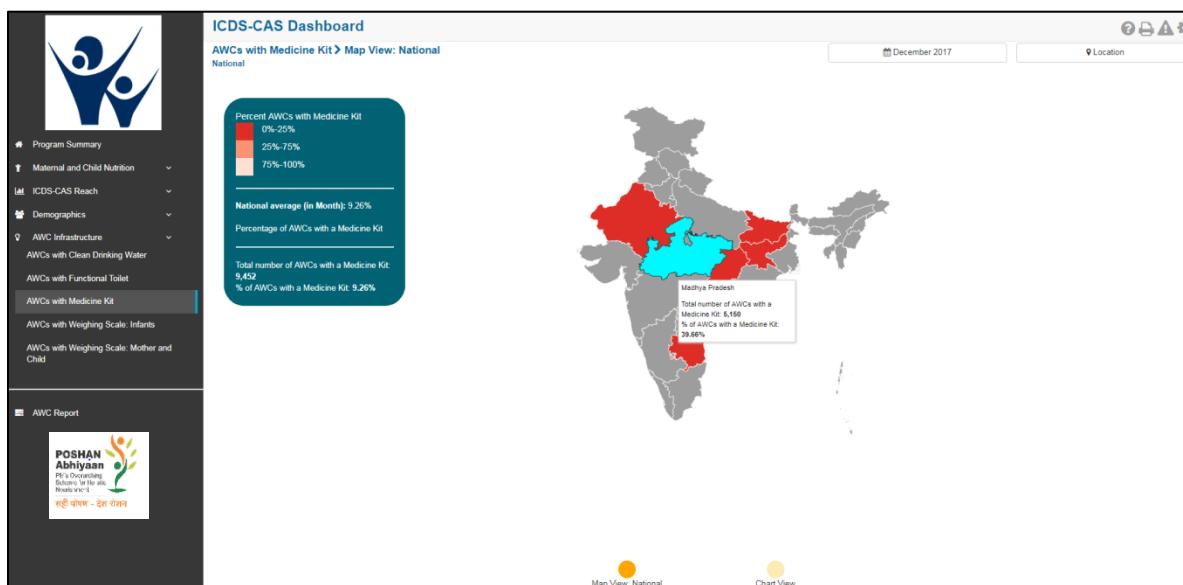

Figure 99: AWCs with Medicine Kit: Map View – National

9.3.2 AWCs with Medicine Kit: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

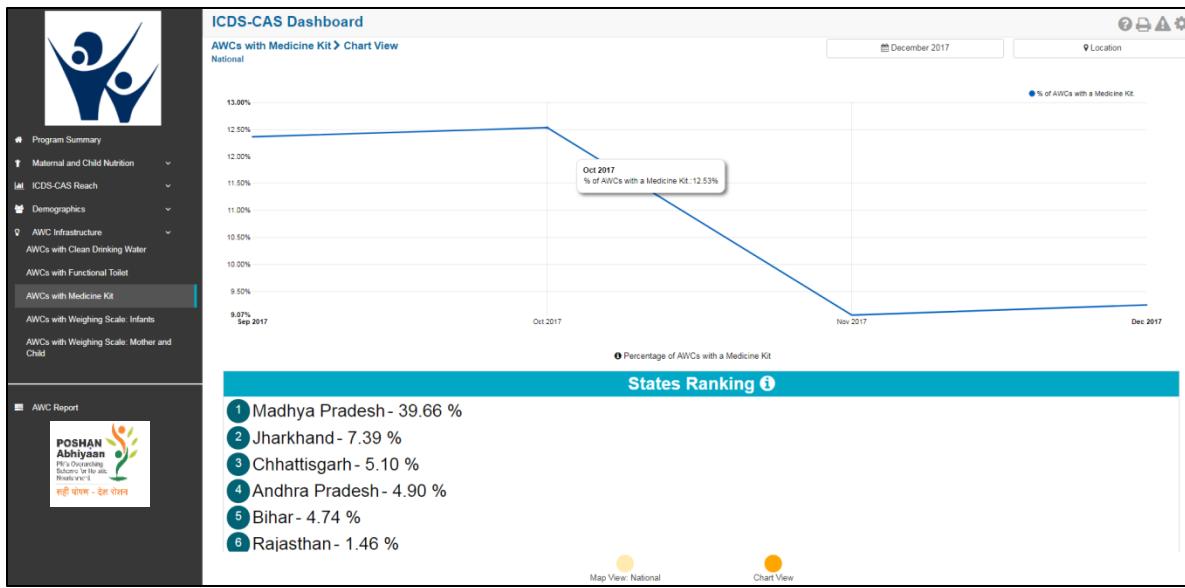

Figure 100: AWCs with Medicine Kit: Chart View – National

9.4 AWCs with Weighing Scale: Infants

The fourth indicator under ‘AWC Infrastructure’ is ‘AWCs with Weighing Scale: Infants’ which is explained below.

Definition of indicator – Number of AWCs with weighing scale for infants

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

9.4.1 AWCs with Weighing Scale: Infants: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

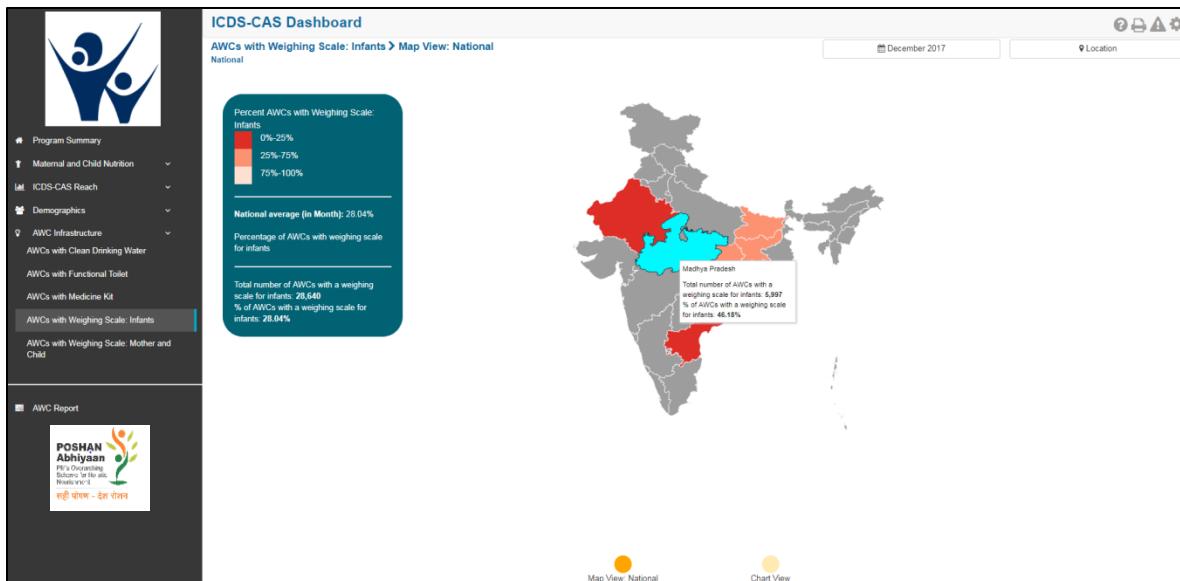

Figure 101: AWCs with Weighing Scale: Infants: Map View – National

9.4.2 AWCs with Weighing Scale: Infants: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

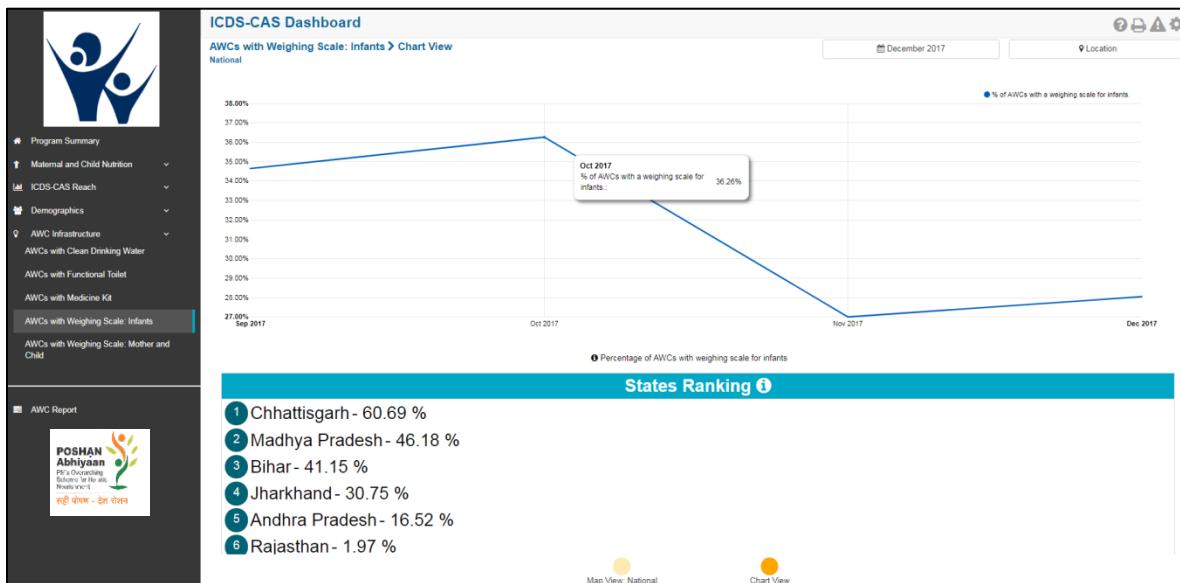

Figure 102: AWCs with Weighing Scale: Infants: Chart View – National

9.5 AWCs with Weighing Scale: Mother and Child

The last indicator under ‘AWC Infrastructure’ is ‘AWCs with Weighing Scale: Mother and Child’ which is explained below.

Definition of indicator – Number of AWCs with weighing scale for mother and child

The navigation workflow for moving to ‘Map View’ or ‘Chart View’ is similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

9.5.1 AWCs with Weighing Scale: Mother and Child: Map View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Map View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

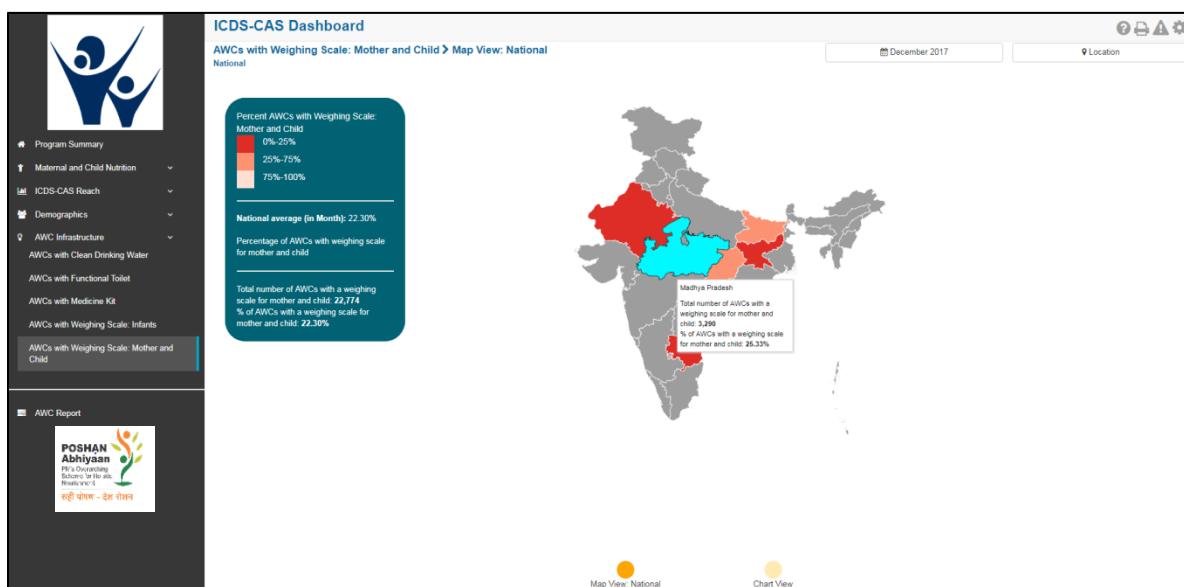

Figure 103: AWCs with Weighing Scale: Mother and Child: Map View – National

9.5.2 AWCs with Weighing Scale: Mother and Child: Chart View – National

If a National level user (MWCD / CPMU) logs into the dashboard, the ‘Chart View’ will show a National view as shown in the below snapshot.

Rest of the views (State / District / Block / Sector) are similar to as explained for the first indicator – AWCs with Clean Drinking Water in Section 9.1.

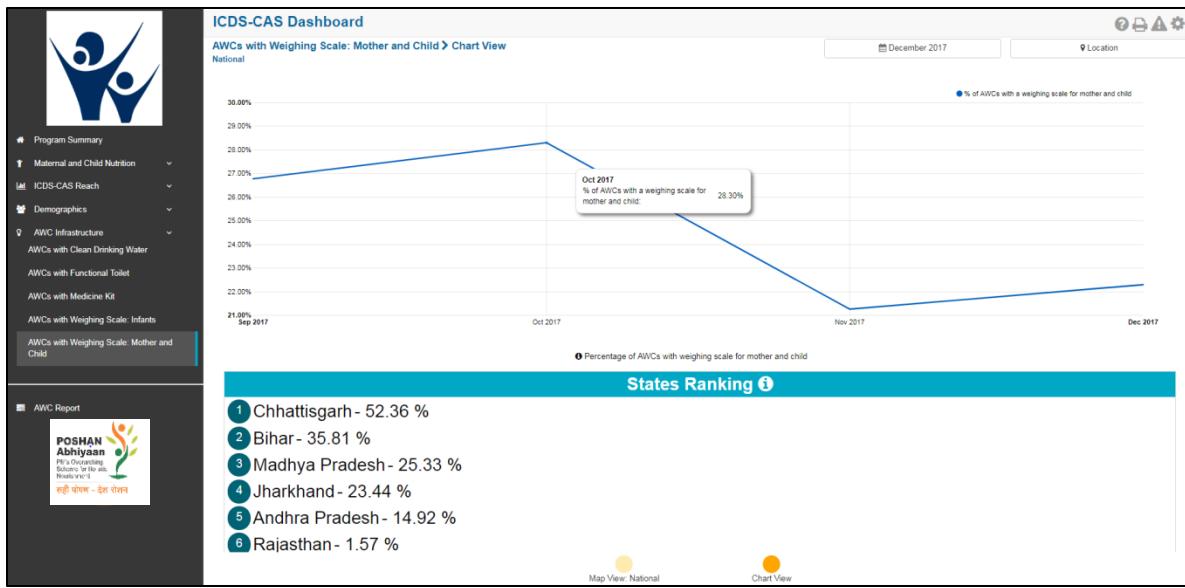

Figure 104: AWCs with Weighing Scale: Mother and Child: Chart View – National

10 Service Delivery Dashboard

Service Delivery Dashboard provides a snapshot view of the services delivered by the Anganwadi workers to Pregnant Women, Lactating Women and children between 0-6 years of age. Service Delivery indicators is available on the left-hand panel of the dashboard. It has following three filter options available

1. Location
2. Month, Year
3. Beneficiary Group

The beneficiary group filter allows the dashboard to select any of the following two beneficiary groups: -

1. Pregnant Women, Lactating Women and children between 0-3 years (0-1095 days)
2. Children between 3-6 years (1096-2190 days)

Time Filter: User may select any month to review the data for that period

Beneficiary Group Filter: User can select any of the available two beneficiary user groups

Location Filter: User may select State/District/Block/ Sector and review the data

State	Number of AWC	Home Visits	Growth Monitoring	Community Based Events	VH SND	Take Home Ration
Andhra Pradesh	55524	34.89 % (692822 / 1985730)	79.08 % (1373669 / 1737519)	0	6109	44.70 % (904186 / 2022865)
Bihar	12460	23.36 % (185232 / 793047)	67.82 % (522585 / 770530)	0	979	28.26 % (243737 / 862545)
Chandigarh	450	44.56 % (9091 / 20401)	47.68 % (12346 / 25894)	0	2	1.44 % (413 / 28729)
Chhattisgarh	10473	33.67 % (140588 / 417568)	46.36 % (166675 / 359517)	0	1860	70.08 % (288313 / 411429)

Figure 105 Service Delivery Dashboard Filters

Figure 105 Beneficiary Filters for Service Delivery dashboard

Based on the values of the beneficiary & locations filters selected, following indicators are available in the service delivery dashboard

Beneficiary Group	Location	Available Indicators
PW, LW & Children 0-3 years (0-1095 days)	National, State, District and Block level	Number of AWC, Home Visits, Growth Monitoring, Community Based Events, VHSND, Take Home Ration
	Sector Level	Number of AWC, Home Visits, Growth Monitoring, Community Based Events, VHSND, Take Home Ration
Children 3-6 years (1096-2190 days)	National, State, District and Block level	Supplementary Nutrition, Pre-School Education, Growth Monitoring
	Sector Level	Name of AWC, Supplementary Nutrition, Pre-School education, Growth Monitoring

11 AWC Report

'AWC Report' provides detailed information on various indicators about an individual Anganwadi Centre (AWC). The 'AWC Report' section covers the following indicators for each AWC:

1. Pre-School Education
2. Maternal and Child Nutrition
3. Demographics
4. AWC Infrastructure
5. Child Beneficiaries List

Note:

1. The user will be automatically directed to the 'AWC Report' section when he/she selects an AWC location using the location filter at the top right corner while viewing other reports.
2. The user must choose an individual AWC using the location filter to view an AWC Report.

From the left hand navigation panel, click on ‘AWC Report’ to view information for an individual AWC.

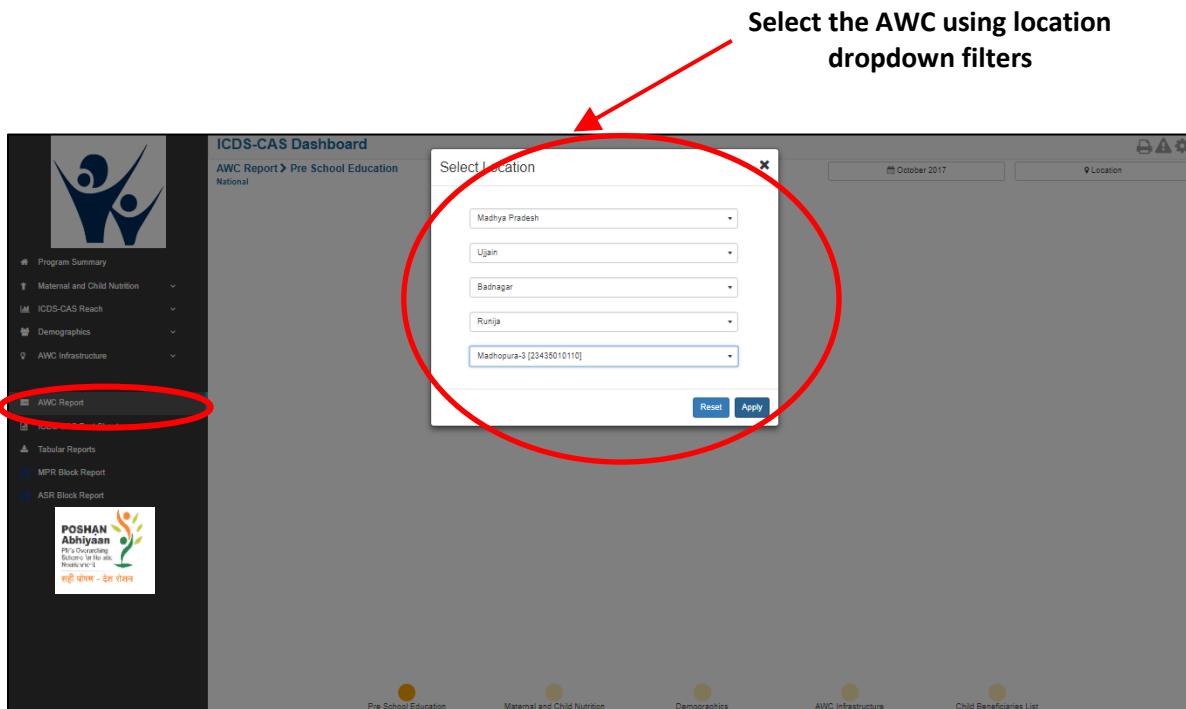

Figure 106: AWC Report

Select the ‘AWC’ for which you want to view the information and click on ‘Apply’. The landing page of the ‘AWC Report’ will be the ‘Pre-School Education’ page.

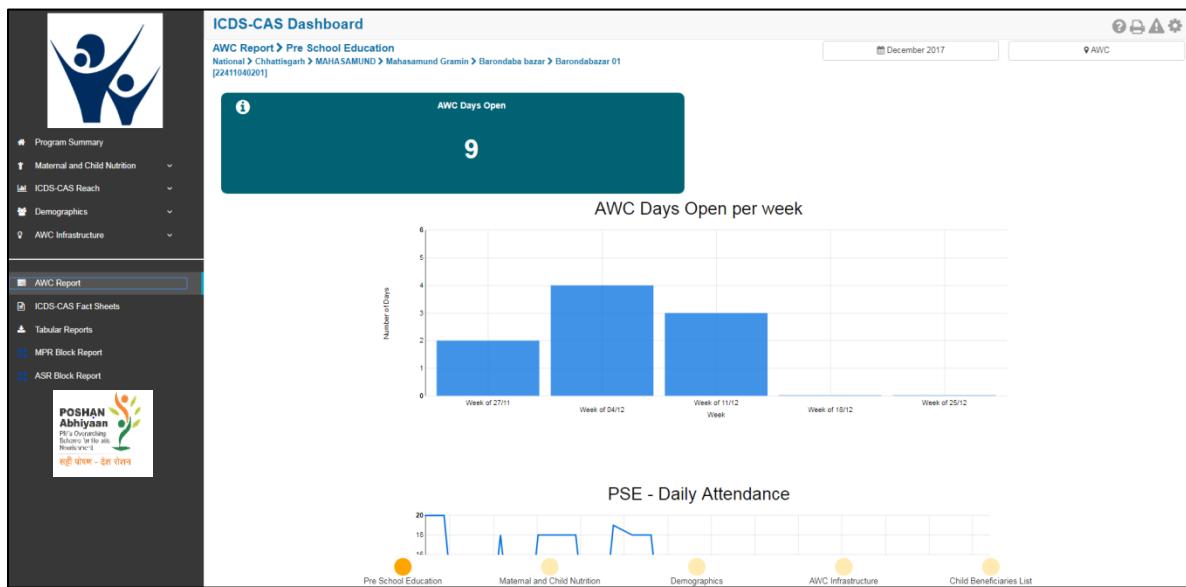

Figure 107: AWC Report: Landing Page

11.1 Pre-School Education

The ‘Pre-School Education’ section of the AWC Report provides information about the daily functioning of the AWC.

On the PSE page, the user can view the following information:

AWC Days Open – A KPI card displays the number of days the AWC was opened in the selected month. The AWC is expected to be opened 6 days a week (not on Sundays and public holidays).

Figure 108: AWC Days Open

AWC Days Open per Week – This is a graphical representation showing the number of days the AWC was opened in each week of the selected month.

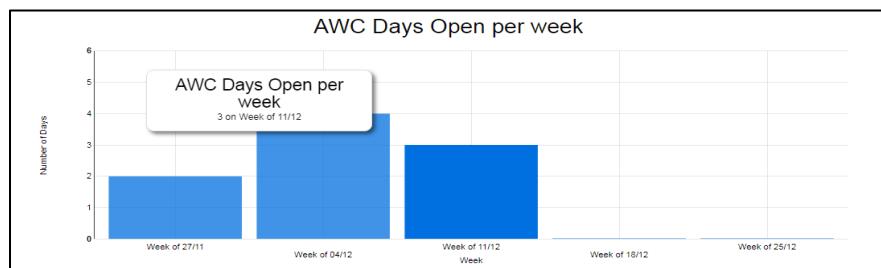

Figure 109: AWC Days Open per week

PSE – Daily Attendance –This is a graphical representation showing the number of children who attended the pre-school education on each day of the selected month.

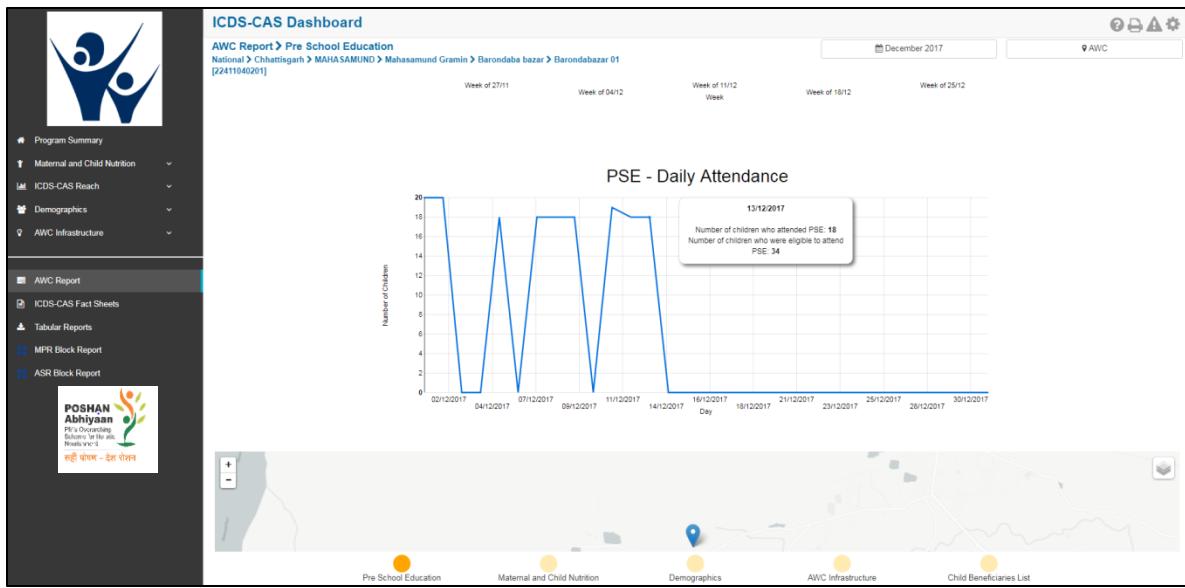

Figure 110: PSE - Daily Attendance

GPS locations –This section displays the GPS locations during ‘Daily Feeding’ form submissions in the AWW application by the AWW.

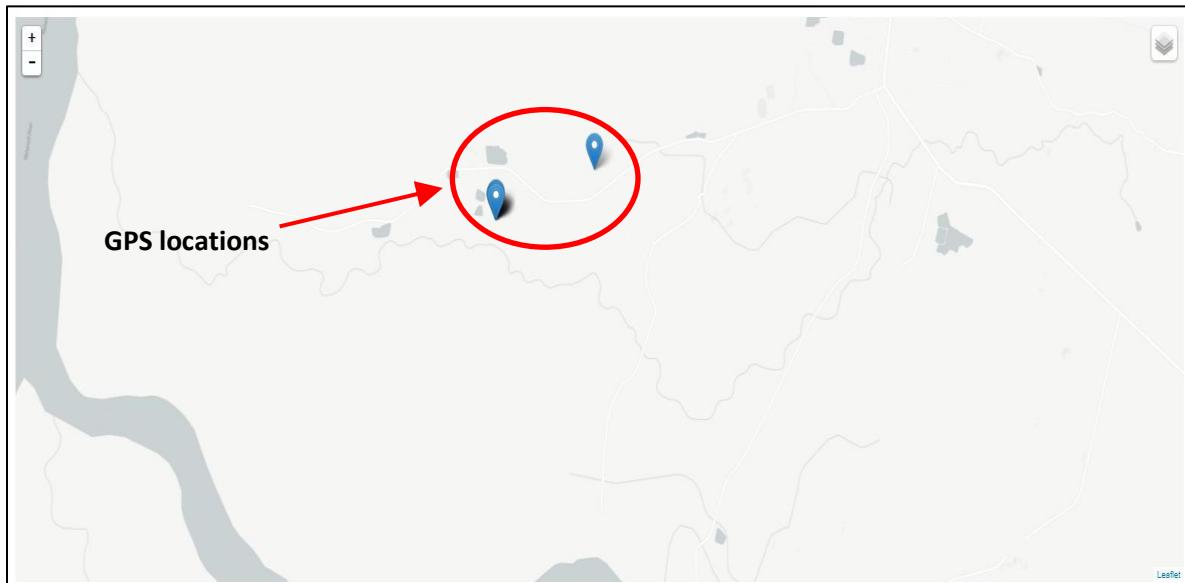

Figure 111: GPS Locations

Photographs from Daily Feeding form – This sections displays all the photographs captured by the AWW while filling out the daily feeding form in the AWW application.

Figure 112: PSE Photo Submissions

Click on the bubble navigation to move to the next indicator i.e. ‘Maternal and Child Nutrition’.

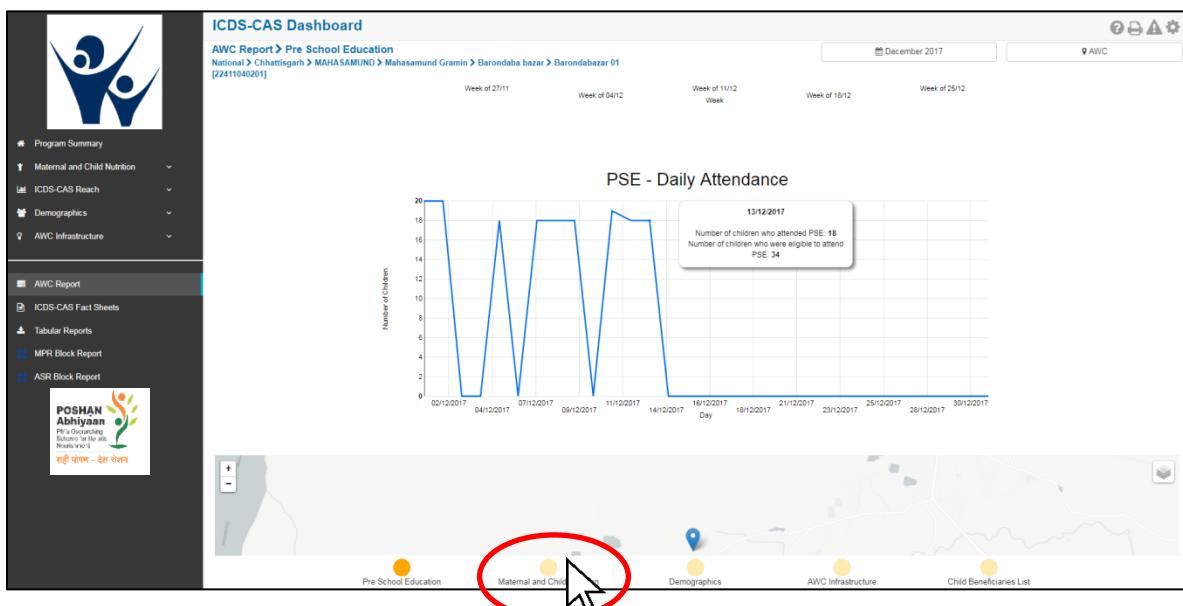

Figure 113: Navigating to Maternal and Child Nutrition

11.2 Maternal and Child Nutrition

The ‘Maternal and Child Nutrition’ section of the AWC Report provides information about indicators on mother and child health who are beneficiaries for the selected AWC. This section displays KPI cards for the following indicators:

1. Underweight (Weight-for-Age)
2. Wasting (Weight-for-Height)
3. Stunting (Height-for-Age)
4. Weighing Efficiency

5. Newborns with Low Birth Weight
6. Early Initiation of Breastfeeding
7. Exclusive Breastfeeding
8. Children initiated appropriate Complementary Feeding
9. Immunization Coverage (at age 1 year)
10. Institutional Deliveries

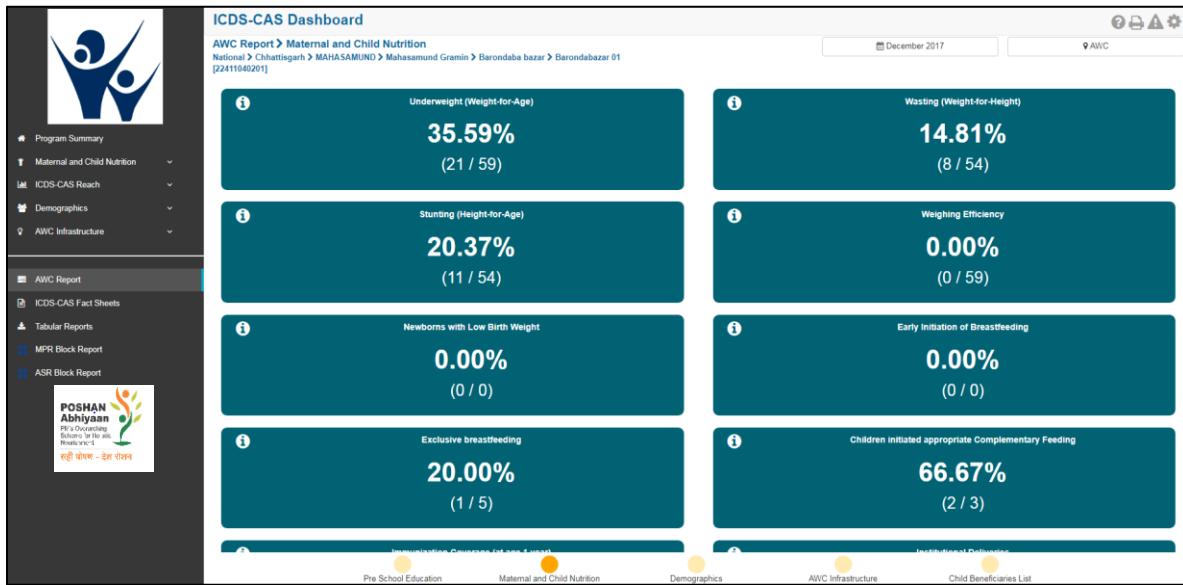

Figure 114: Maternal and Child Nutrition

11.3 Demographics

The ‘Demographics’ section of the AWC Report provides information about the number of beneficiaries covered by the AWC under ICDS-CAS across various categories. This section displays KPI cards for the following indicators:

1. Registered Households
2. Percent Aadhaar-seeded Beneficiaries
3. Percent children (0-6 years) who are enrolled for ICDS services
4. Percent pregnant women enrolled for ICDS services
5. Percent lactating women enrolled for ICDS services
6. Percent adolescent girls (11-14 years) enrolled for ICDS services

This section also displays a graphical representation for the number of children registered in the AWC across five age groups: 0-1 month, 1-6 months, 6-12 months, 1-3 years and 3-6 years.

Figure 115: Demographics

11.4 AWC Infrastructure

The ‘AWC Infrastructure’ section of the AWC Report provides information about availability of infrastructure facilities at the selected AWC. This section displays KPI cards for the following indicators:

1. Clean Drinking Water
2. Functional Toilet
3. Weighing Scale: Infants
4. Weighing Scale: Mother and Child
5. Medicine Kit

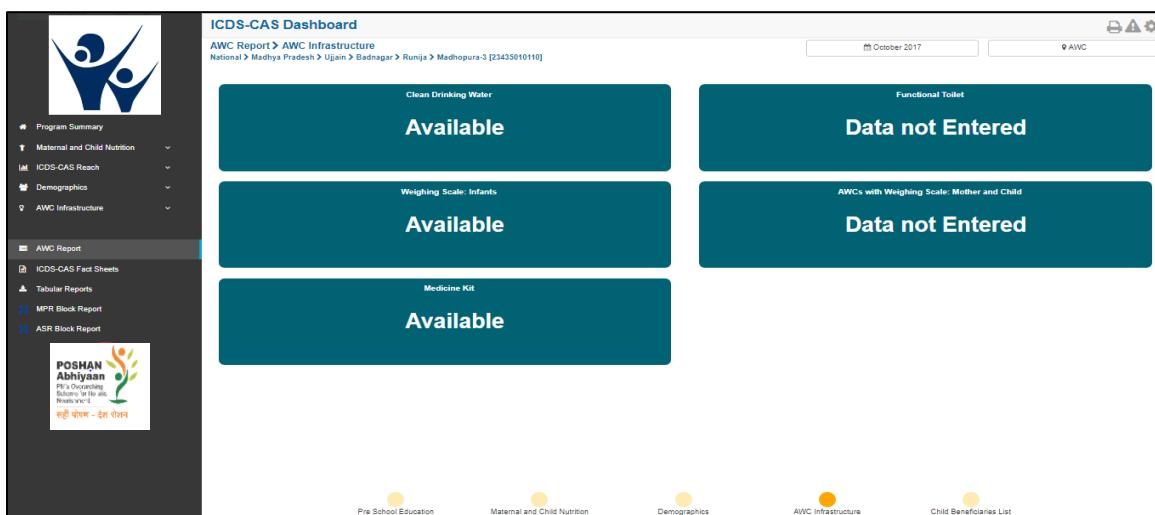

Figure 116: AWC Infrastructure

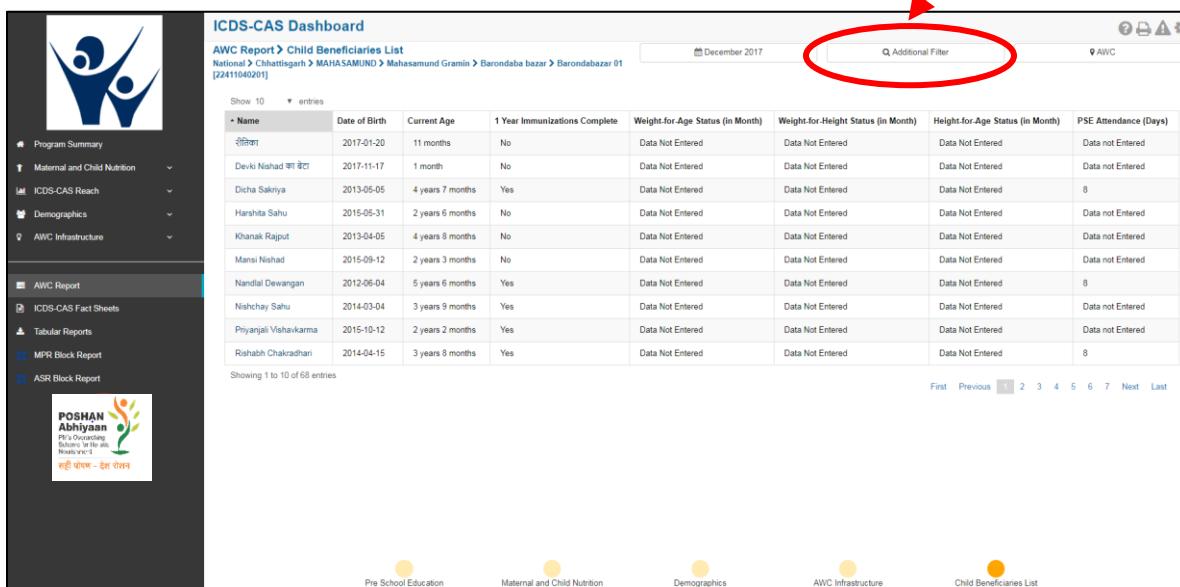

11.5 Child Beneficiaries List

The ‘Child Beneficiaries List’ section of the AWC Report provides a list of all the children (0-6 years) registered at the AWC. Following information is provided about each child registered at the centre:

1. Date of Birth
2. Current Age
3. 1 Year Immunizations Complete (Yes / No)
4. Weight-for-Age status
5. Weight-for-Height status
6. Height-for-Age status
7. PSE Attendance (in days)

Note: If an AWW has not entered the relevant information for the specific month, ‘Data Not Entered’ for the respective data.

The user can filter the list for any age group using the additional filter

Name	Date of Birth	Current Age	1 Year Immunizations Complete	Weight-for-Age Status (in Month)	Weight-for-Height Status (in Month)	Height-for-Age Status (in Month)	PSE Attendance (Days)

Figure 118: Child Beneficiaries List – Select Beneficiary

The ‘Child Beneficiary Details’ section provides the following information about the selected child:

1. Beneficiary Information – This section provides details like Name, Mother’s name, Date of Birth, Age and Sex of the beneficiary child.

Beneficiary Information:

Name:	Battula Teja Siva Durga
Mother Name:	BATTULA NEERAJA
Date of Birth:	2013-02-04
Age:	4 years 10 months
Sex:	M

Figure 119: Beneficiary Information

2. Growth Monitoring Graphs – This section provides graphical plots for the selected child beneficiary based on the following three indicators:
 - a. Weight for Age
 - b. Height for Age
 - c. Weight for Height

Note: The plot lines are displayed on the graph only as per the data entered by the AWW. Example - if a child’s weight was not recorded in the application for a particular month, then there will not be a plot for in the weight-for-age chart for the particular month.

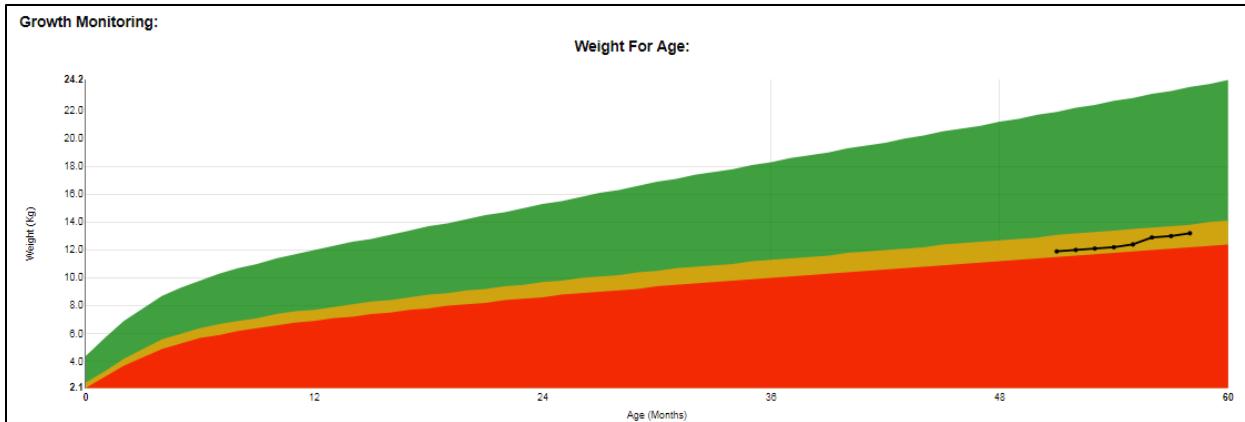

Figure 120: Weight for Age

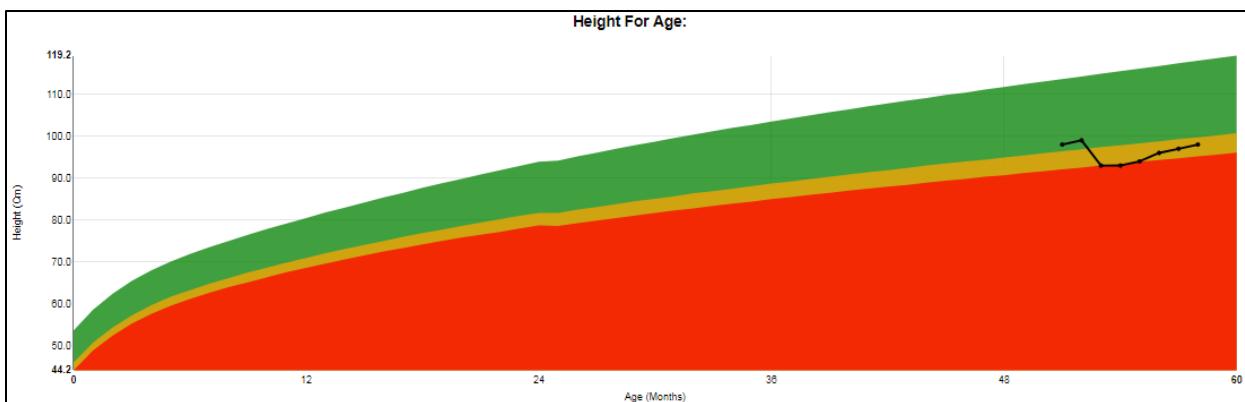

Figure 121: Height for Age

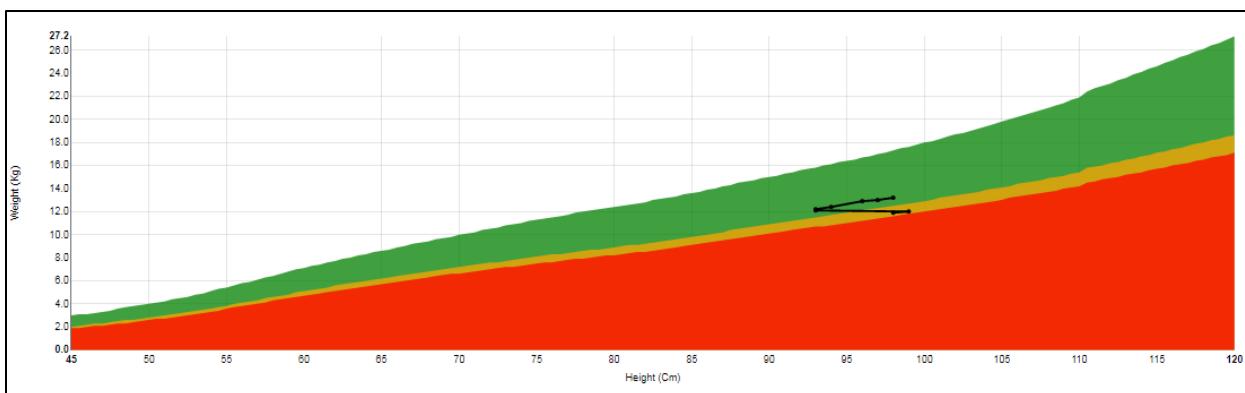

Figure 122: Weight for Height

11.6 Pregnant women

The Pregnant women report shows a list of pregnant women registered and availing services in an individual AWC and a set of indicators for each pregnant woman in the list.

Below are the indicators available for each woman:

1. Name
2. Age
3. Status
4. Pregnancy Registration
5. EDD*
6. Trimester
7. Anemia during last ANC
8. Number of ANC visits
9. Beneficiary Status
10. Number of THRs given in current month
11. Date of last THR

*Expected Date of Delivery

To access this report, user can click on the “AWC Report” in the left-hand side panel. User will be prompted to select the AWC location that they want to access the report for.

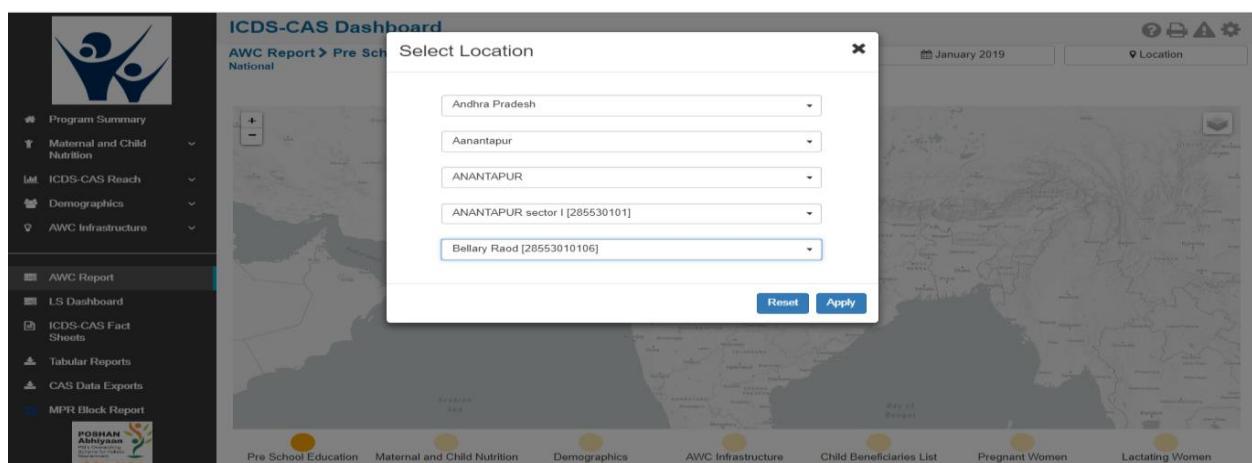

Figure 123 Location selection for pregnant women report

On selecting the location and clicking apply, user will be able to view a list of Pregnant Women who are taking services from that particular AWC.

Pre School Education Maternal and Child Nutrition Demographics AWC Infrastructure Child Beneficiaries List Pregnant Details Lactating Women

Figure 125 Pregnant women case details

User can click on the “back” button available on the top right corner (highlighted in image above) to go back to the list of pregnant women.

Note:

- i. Pregnant women report will be available only at AWC level.
- ii. There won't be any date filter since the report will show all the pregnant women in the AWC. As soon as a woman delivers, she will stop appearing in the Pregnant women report and appear in Lactating Women report (explained in the next section).
- iii. The status of a pregnant woman will change to ‘Pregnancy terminated’ if the woman has an abortion in the current month.

11.7 Lactating women

The Lactating women report shows a list of all the lactating women registered and availing services in an individual AWC and a set of indicators for each woman in the list.

Below are the indicators available for each woman:

1. Name
2. Age
3. Date of Delivery
4. Type of Delivery
5. Institutional Delivery
6. Number of PNC Visits
7. Breastfed within hour of birth
8. Exclusively breastfeeding at last home visit
9. Number of THRs given in the current month

To access this report, user can click on the “AWC Report” tab in the left-hand side panel. User will be prompted to select the AWC location that he or she wants to access the report for.

Breastfed within hour of birth	Exclusively breastfeeding at last home visit	Number of THR given

Figure 127 List of lactating women

Note:

- I. Lactating women report will be available only at AWC level.

12 LS Dashboard

This section provides various indicators with respect to the Lady Supervisor activity on monthly basis. LS Dashboard will be available at the left panel below the AWC Report section. Clicking on the “LS Dashboard” prompts the user to select a sector level location for which he/she wants to view the dashboard

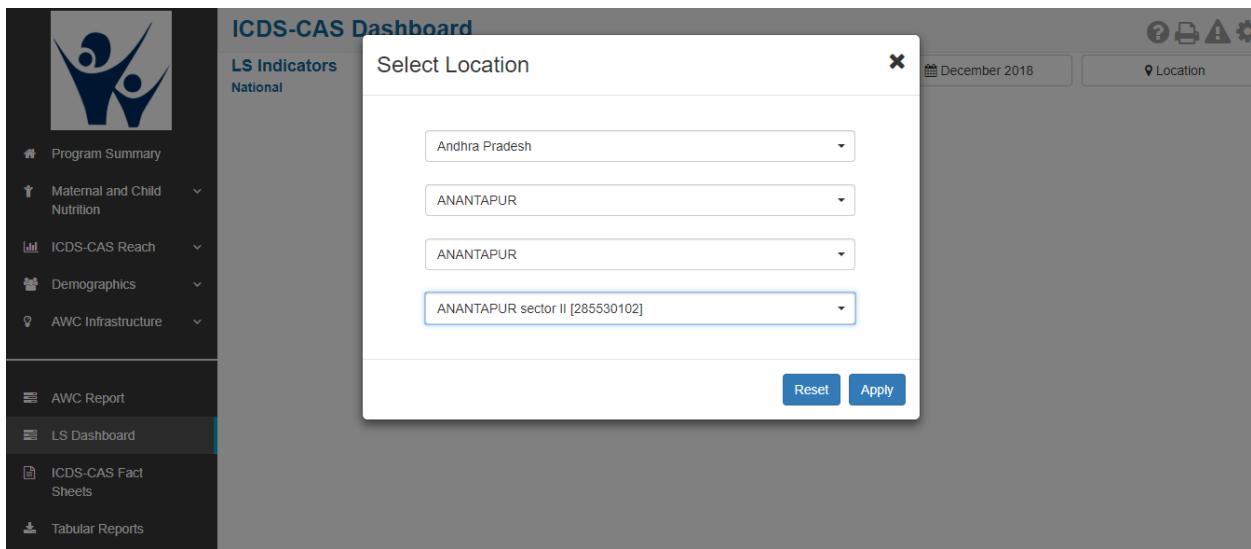

Figure 128 Location filter for LS Dashboard

Note: This report will be available only at sector level.

Once the location of the sector has been selected, the user should be able to view the following three indicators

1. Number of AWCs visited
2. Number of Beneficiaries visited
3. Number of VHND observed

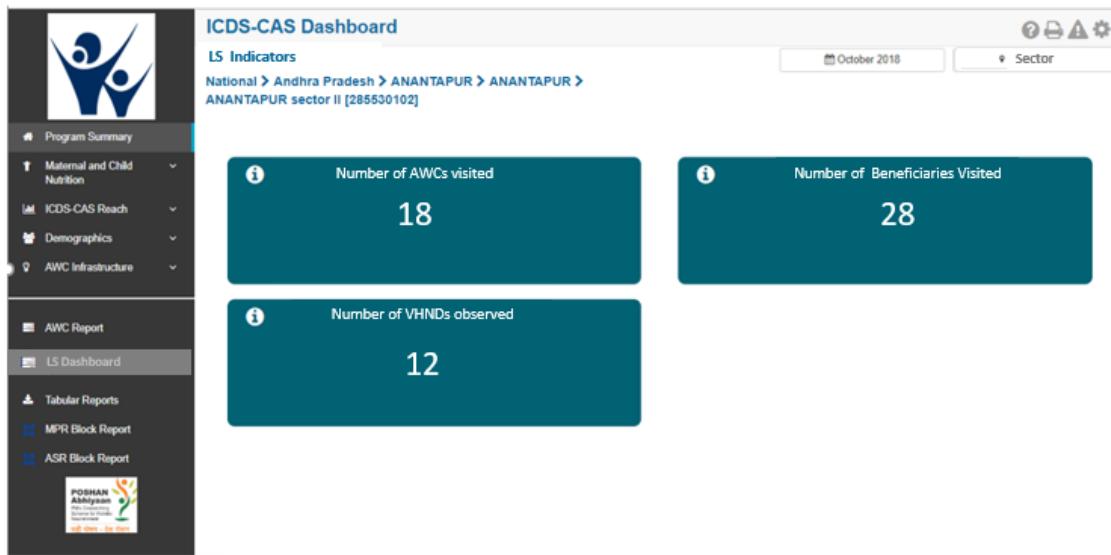

Figure 129 LS Dashboard Indicators

The three indicators are defined as following:

1. Number of AWCs visited: Number of AWC visit forms submitted by LS in current month
2. Number of Beneficiaries visited: Number of beneficiaries visited by LS in the current month
3. Number of VHND observed: Number of VHND observed by LS in the current month

13 ICDS-CAS Fact Sheet

This section provides the user at various levels (National/State/District/Block/Sector) access to ICDS-CAS Fact Sheet to view indicators on the following outcome areas:

- Maternal and Child Nutrition
- Interventions
- Behavior Change
- Water, Sanitation and Hygiene
- Demographics
- All

The ICDS- CAS Fact Sheet provides the user access to indicator wise data for last 3 months period along with National Average. The ICDS-CAS Fact Sheets can be easily printed and downloaded from the dashboard by the user.

Note: The National Average displayed for the specific month chosen using the ‘Select Month/Year’ filter is calculated using the data from the previous calendar month.

For Example – A National level user will see data for the entire country and can drill down to lower levels (State/District/Block/Sector), a State level user will see data for the entire State and can drill down to

lower levels (District/Block/Sector), a District level user will only see data for his/her District and can drill down to lower levels (Block/Sector), a Block level user will only see data for his/her Block and can drill down to lower levels.

Time Filter: User may select any month to review the data for that period

Location Filter: User may select State/District/Block/ Sector and review the data

The screenshot shows the ICDS-CAS Dashboard landing page. On the left, a sidebar menu includes 'Program Summary', 'Maternal and Child Nutrition', 'ICDS-CAS Reach', 'Demographics', 'AWC Infrastructure', 'AWC Report', and 'ICDS-CAS Fact Sheets' (which is highlighted with a red circle). Below the sidebar is the POSHAN Abhiyan logo. The main area displays six colored boxes representing different program components: Maternal and Child Nutrition (blue), Interventions (yellow), Behavior Change (orange), Water, Sanitation and Hygiene (green), Demographics (cyan), and All (purple). At the top right, there are two input fields for 'October 2017' and 'Location', both circled in red with arrows pointing to them from the descriptive text above.

Figure 130: ICDS-CAS Fact Sheets

required to click on the following:

This screenshot is identical to Figure 130, showing the ICDS-CAS Dashboard landing page. The difference is that the 'Maternal and Child Nutrition' icon, located in the top row of the central grid, is now highlighted with a red rectangular box and a red arrow points from the 'ICDS-CAS Fact Sheets' link in the sidebar towards this specific icon.

13.6 All – ICDS-CAS Fact Sheet

In order to view the related ICDS-CAS Fact Sheet for all the indicators the user shall be required to click on the following:

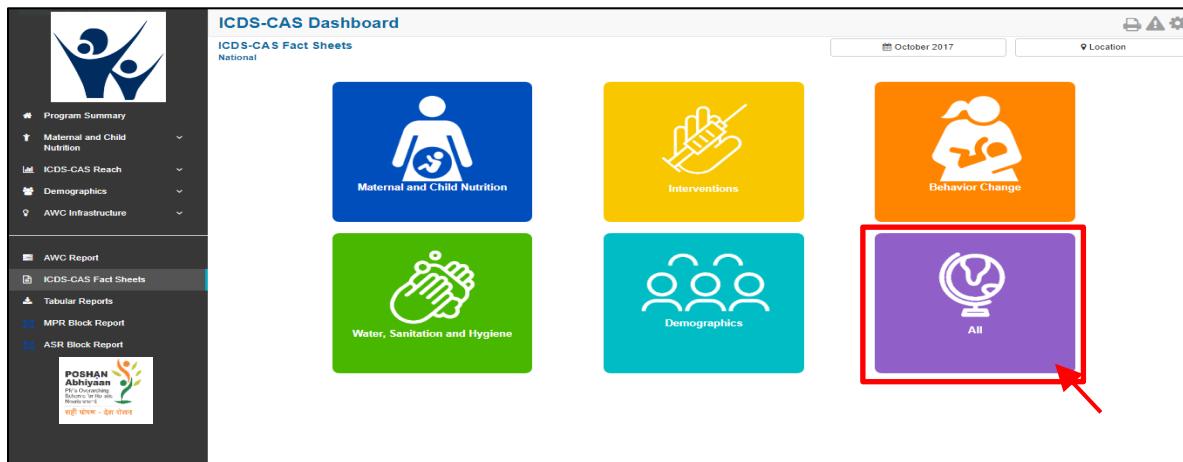

Figure 145: All Indicators

13.6.1 All Indicators ICDS-CAS Fact Sheet– National Level View

This ICDS-CAS Fact Sheet shall provide the user at National level information on all the indicators.

The screenshot shows the 'ICDS-CAS Fact Sheets > All' page. The sidebar and top navigation are identical to Figure 145. A message box states: 'Info! "You are downloading data for the current calendar month. Data for this report is calculated using calendar months (for example, January 1st-January 31st). Data for this month will not be complete until the end of the month."'. Below this is a table titled 'Nutrition Status of Children' with columns for Oct 2017, Nov 2017, Dec 2017, and National Average. The table lists various nutritional status categories with their respective percentages and trends (e.g., Weighting Efficiency, Total number of unweighted children, Children from 0 - 5 years who are severely underweight).

	Oct 2017	Nov 2017	Dec 2017	National Average
Weighing Efficiency (Children <5 weighed)	41.88 %	↓39.01 %	↓13.91 %	31.07 %
Total number of unweighted children (0-5 Years)	20,96,731	↑24,84,433	↑35,81,546	...
Children from 0 - 5 years who are severely underweight (weight-for-age)	1.96 %	↑1.99 %	↓1.98 %	1.98 %
Children from 0-5 years who are moderately underweight (weight-for-age)	9.38 %	↓9.10 %	↓8.97 %	9.14 %
Children from 0-5 years who are at normal weight-for-age	57.26 %	↓53.22 %	↓42.50 %	54.20 %
Children from 6 - 60 months with severe acute malnutrition (weight-for-height)	0.63 %	↑0.63 %	↑0.65 %	0.64 %
Children from 6 - 60 months with moderate acute malnutrition (weight-for-height)	1.01 %	↑1.15 %	↓1.14 %	1.10 %
Children from 6 - 60 months with normal weight-for-height	8.24 %	↑9.22 %	↑9.38 %	8.98 %
Children from 6 - 60 months with severe stunting (height-for-age)	3.85 %	↑4.10 %	↑4.19 %	4.06 %
Children from 6 - 60 months with moderate stunting (height-for-age)	2.40 %	↑2.79 %	↑2.83 %	2.68 %

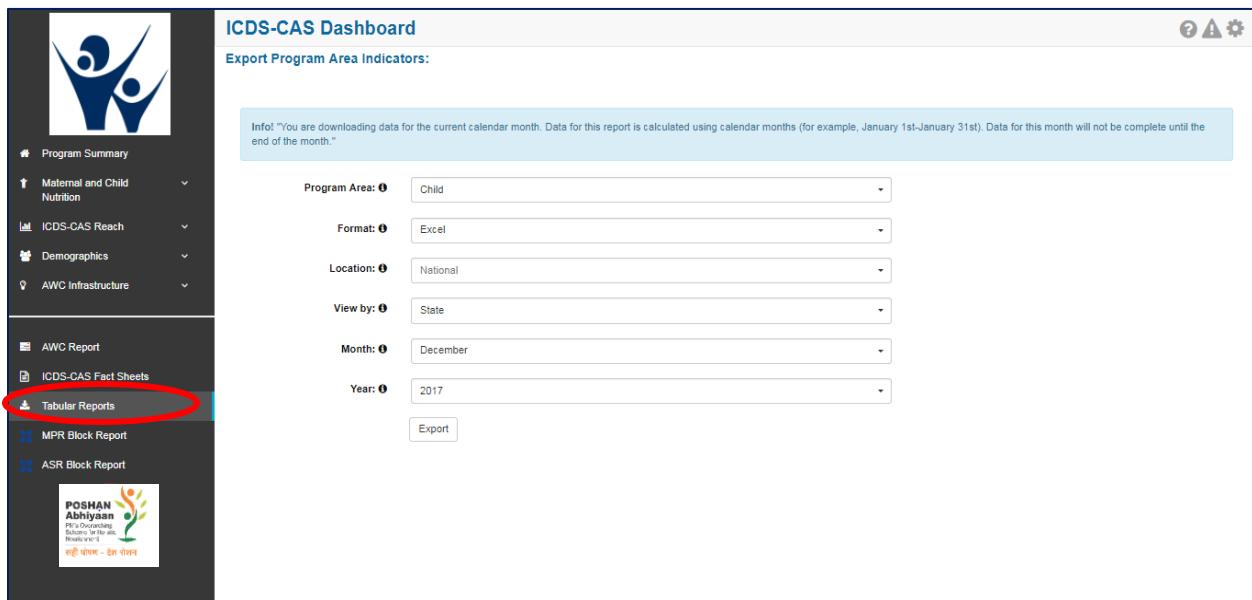

Figure 146: All Indicators– National Level User View

Please Note: The user based on his level of access shall have the option to select the month and location and review the ICDS-CAS Fact Sheet accordingly.

14 Tabular Reports

This section enables the user at various levels (National/State/District/Block/Sector) to download various reports pertaining to key program area indicators such as Child, Pregnant Women, Demographics, System Usage, AWC Infrastructure and Child Beneficiary List.

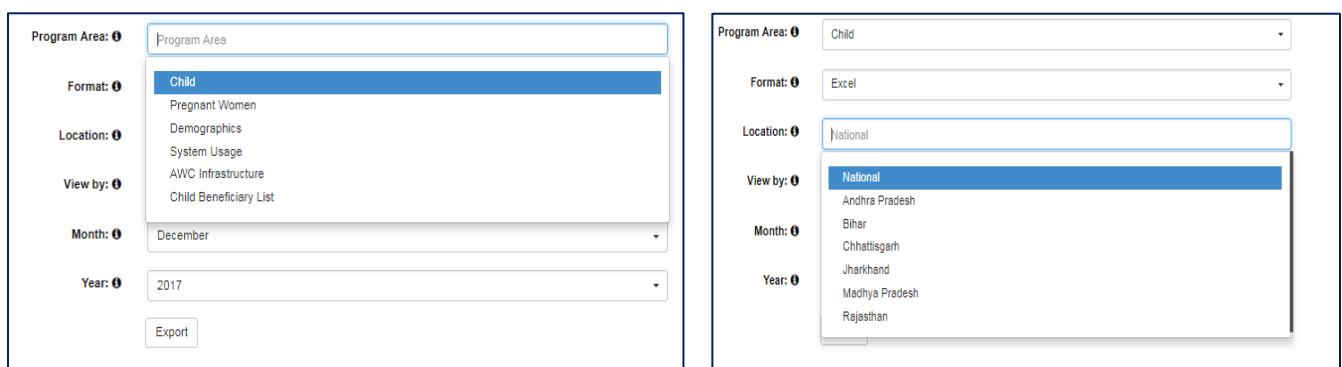

Once the user clicks on the “Tabular Reports” on the left hand navigation panel, the following screen shall be displayed prompting the users to select from the multiple filters available:

The screenshot shows the ICDS-CAS Dashboard interface. On the left, there's a vertical navigation bar with options like Program Summary, Maternal and Child Nutrition, ICDS-CAS Reach, Demographics, AWC Infrastructure, AWC Report, ICDS-CAS Fact Sheets, and Tabular Reports (which is circled in red). Below this is the POSHAN Abhiyaan logo. The main area is titled "ICDS-CAS Dashboard" and "Export Program Area Indicators". It includes a message about calendar months, several dropdown filters for Program Area (Child), Format (Excel), Location (National), View by (State), Month (December), and Year (2017), and an "Export" button.

Figure 147: Tabular Reports: Landing Page

On the landing page of “Tabular Reports” the user shall be provided access to various filters such as Program Areas, Report, Location, View By, Month and Year each having drop down menus for selection and requesting report exports. These drop downs are **filters** available to export selected data as per the needs of the dashboard user.

The two screenshots show the filter interface. The left one shows the "Program Area" dropdown expanded, with "Child" selected. The right one shows the "Location" dropdown expanded, with "National" selected. Both screenshots include other filter fields: Format (Excel), View by (State), Month (December), and Year (2017), along with an "Export" button.

Figure 148: Tabular Report - Filters

- Report filter allows the user to select CSV or Excel format for downloading the reports
- Location filter allows the user to select name of the State for which the report is required
- View By Filter allows the user to generate report for State/ District/ Block/ Supervisor/ AWC
- Month Filter allows user to generate report for any month of the year
- Year Filter allows user to select the year for which report is required such as 2016, 2017 etc.

Once the user has made his selection using the above mentioned filters he clicks on the “Export” button the relevant reports are downloaded.

14.1 Tabular Report: Program Area – Child

The user based on his/her access (National/State/District/Block/Sector) can use the above mentioned filters to download the report for program area pertaining to child indicators.

Figure 149: Program Area - Child

The filter selection shown above will automatically download the ‘Child’ Tabular Report in Excel format. Each Excel sheet shows two tabs. The first shows aggregated data for child related indicators at the National Level for December and the second tab shows ‘Export Info’, the filters that were chosen by the user on the ‘Tabular Reports’ page.

State	Weighing efficiency (in month)	Height measurement efficiency (in month)	Total number of unweighed children (0-5 Years)	Percentage of severely underweight children	Percentage of moderately underweight children	Percentage of normal weight-for-age children	Percentage of children with severe wasting
Andhra Pradesh	24.34 %	5.79 %	821171	0.85 %	5.50 %	55.86 %	0.63 %
Bihar	5.13 %	0.87 %	1000426	2.11 %	5.21 %	19.14 %	0.56 %
Chhattisgarh	5.77 %	0.82 %	505087	2.68 %	14.54 %	80.61 %	1.66 %
Jharkhand	5.38 %	0.08 %	476522	1.65 %	6.88 %	67.51 %	0.14 %
Madhya Pradesh	26.23 %	1.35 %	615569	3.39 %	17.49 %	72.54 %	0.58 %
Rajasthan	1.53 %	0.06 %	164555	0.07 %	0.32 %	2.59 %	0.01 %

Export Info: This displays the details of filters selected by the user while downloading the report

Figure 151: Program Area - Child: Excel Report "Export Info" Tab

14.2 Tabular Report: Program Area – Pregnant Women

The user can download the report for Pregnant Women related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of lactating women
- Number of pregnant women
- Number of postnatal women
- Percentage Anemia
- Percentage Tetanus Completed
- Percent women had at least 1 ANC visit by delivery
- Percent women had at least 2 ANC visit by delivery
- Percent women had at least 3 ANC visit by delivery
- Percent women had at least 4 ANC visit by delivery
- Percentage of women resting during pregnancy
- Percentage of women eating extra meal during pregnancy
- Percentage of trimester 3 women counselled on immediate breastfeeding

14.3 Tabular Report: Program Area – Demographics

The user can download the report for Demographic related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of households
- Total number of beneficiaries who have an Aadhaar ID
- Total number of beneficiaries (under 6 years old, pregnant women, and lactating women, alive and seeking services)
- Percent Aadhaar-seeded beneficiaries
- Number of pregnant women
- Number of pregnant women enrolled for services
- Number of lactating women
- Number of lactating women enrolled for services
- Number of children 0-6 years old
- Number of children 0-6 years old enrolled for services
- Number of children 0-6 months old enrolled for services
- Number of children 6 months to 3 years old enrolled for services
- Number of children 3 to 6 years old enrolled for services
- Number of adolescent girls 11 to 14 years old
- Number of adolescent girls 15 to 18 years old
- Number of adolescent girls 11 to 14 years old that are enrolled for services
- Number of adolescent girls 15 to 18 years old that are enrolled for services

14.4 Tabular Report: Program Area - System Usage

The user can download the report for System Usage related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Number of days AWC was open in the given month
- Number of launched AWCs (ever submitted at least one HH registered form)
- Number of household registration forms
- Number of add pregnancy forms
- Number of birth preparedness forms
- Number of delivery forms
- Number of PNC forms
- Number of exclusive breastfeeding forms
- Number of complementary feeding forms
- Number of growth monitoring forms

- Number of take home rations forms
- Number of due list forms

14.5 Tabular Report: Program Area – AWC Infrastructure

The user can download the report for System Usage related indicators by using the filters as explained in Section 12. The key indicators available in this report are listed below:

- Name of State/ District/ Block/ Sector/ AWC
- Percentage AWCs with drinking water
- Percentage AWCs with functional toilet
- Percentage AWCs with medicine kit
- Percentage AWCs with weighing scale: infants
- Percentage AWCs with weighing scale: mother and child

14.6 Tabular Report: Program Area – Child Beneficiary List

This report is an important and detailed report which allows the user at (National/State /District/ Block/ Sector) to export the child beneficiary list using the below mentioned filters and download the report.

On selecting the “Child Beneficiary List” in Program Area as explained in the above mentioned section the user shall be provided the option to further filter and export the report as per requirement. The user can select the filter such as:

- Data not entered for weight
- Data not Entered for height (Unmeasured)
- Severely Underweight
- Moderately Underweight
- Normal (weight-for-age)
- Severely Stunted
- Moderately Stunted
- Normal (height-for-age)
- Severely Wasted
- Moderately Wasted
- Normal (weight-for-height)

Note: This report is only available for download at the District, Block, Sector and AWC level locations. Additionally, at least one filter must be chosen from the list mentioned above. This report provides the user with list of individual beneficiaries by name that will be useful for monitoring and tracking the nutritional status of each beneficiary.

The screenshot shows the ICDS-CAS Dashboard interface. On the left is a dark sidebar with icons and text for Program Summary, Maternal and Child Nutrition, ICDS-CAS Reach, Demographics, AWC Infrastructure, AWC Report, ICDS-CAS Fact Sheets, Tabular Reports, MPR Block Report, and ASR Block Report. At the bottom of the sidebar is the Poshan Abhiyan logo. The main panel is titled 'ICDS-CAS Dashboard' and 'Export Program Area Indicators'. It includes a message: 'Info! You are downloading data for the current calendar month. Data for this report is calculated using calendar months (for example, January 1st-January 31st). Data for this month will not be complete until the end of the month.' Below this are dropdown menus for 'Program Area' (set to 'Child Beneficiary List'), 'Format' (set to 'Excel'), 'Location' (set to 'Bihar' with 'BHAGALPUR' selected), 'Month' (set to 'December'), and 'Year' (set to '2017'). A 'Filter List By' section contains a list of nutritional status categories with checkboxes, and an 'Export' button at the bottom.

Figure 152: Program Area - Child Beneficiary List

14.7 Tabular Report: ICDS CAS Monthly Register

This report is meant to be a physical record kept of the activities taking place in the AWC for a month. It has the following sections:

1. Basic Details: This includes identification information such as the AWW Location, Code, Name of the AWW and her phone number etc. There is also provision for manually filling in additional details such as the LGD code, the name of the supervisor, etc.
2. Infrastructure: This has details on the type of AWC building, toilet, kitchen and drinking water available at the AWC.
3. Total Population: As per the Anganwadi Survey Register, this section breaks down the beneficiaries availing services at the given AWC.
4. AWC Functioning and Services Delivered: This details the Breakfast, HCM and THR delivered to the children and beneficiaries in the month, along with the days PSE was conducted and AWC was opened.
5. Services: Detailed breakdown of the Supplementary Nutrition and PSE Education given by gender and other demographic identifying data (such as SC/ST/OBC/General/Minority).
6. Classification of Nutritional Status of Children: Break-down of children (0-3 years; 3-5 years) into whether they're moderately/severely underweight, stunted, or wasted.
7. Village Health Sanitation and Nutrition Day Activity Summary: Details of the VHSND, including immunizations conducted and ante-natal check ups taken place.
8. THR Distribution: There is a provision to input the details of THR distribution to children (both normal as well as underweight) and to pregnant women.

ICDS-CAS Monthly Register

1. Basic Details

Name of Project: BIHPUR	*LGD Code:	*Main AWC / Mini AWC:
Name of AWC: AAHUTI BARI KHAL JAGDEV MANDAL KA DARWAJA [10224020132]	AWC Code: 10224020132	*Name Of Supervisor:
Name of AWW: ██████████	Mobile number of AWW: 917463888761	*Name of AW Helper:

2. Infrastructure

Type of AWC building Pucca / Others: Data Not Entered Owned/rented/Others:

Whether drinking water available at AWC? (Y/N): Yes

Whether Kitchen available at AWC? (Y/N): Data Not Entered

Whether toilet available at AWC? (Y/N): Data Not Entered Type of toilet at AWC:

3. Total Population as per Anganwadi Survey Register

Infants (0-6 Months)	Children (6-36 Months)	Children (36-72 months)	Pregnant Women	Lactating Mothers
6	70	118	9	6

4. AWC Functioning & services delivered

Number of days AWC functioned: 25

Number of days AWC conducted Preschool Education: 23

ECCE material available at AWC(Y/N): Data Not Entered

The report can be downloaded in two formats: one PDF per AWC, or as one combined PDF for all the AWCs.

14.8 Tabular Report: Program Area - AWW Performance Report

The AWW Performance report should be used to disburse the incentives to Anganwadi Workers (AWW) & Anganwadi Helpers (AWH). This report has following information: -

1. State
2. District
3. Block
4. Supervisor
5. AWC
6. AWW Name
7. AWW Contact Number
8. Home Visits Conducted
9. Weighing Efficiency

10. AWW Eligible for Incentive
11. Number of Days AWC was Open
12. AWH Eligible for Incentive

AWW Eligible for Incentive

An AWW would be eligible for incentive when she has met the following two criteria:

- a. **Home Visits Conducted** - An AWW should have completed at least 60% of the total eligible beneficiary visits
- b. **Weighing Efficiency**- The weighing efficiency of the AWC should be more than 60% for that month

AWH Eligible for incentive

An AWH would be eligible for incentive when following criteria is met: -

- a. **Number of days the AWC was open** - The Anganwadi centre should have been opened for at least 21 days in that month

Figure 153 Snapshot of the AWW performance Report downloaded at a block level

Key points to note for the AWW Performance Report:

1. This report will be available at State, District & Block level.
2. The data synced by the AWWs **till 10th of every month** will be considered for AWW Performance Report. Any data synced post 10th (i.e. between 11th and 15th) will not be considered for AWW Performance Report calculation.
3. For calculating home visits conducted value unscheduled home visits will not be counted.
4. The report will be available for download on and after 15th of every month for the performance of last month. For example, to show October performance, report will be available only on or after 15th November.
5. If an AWC is not launched, The AWW Performance report will reflect the same status in the report. All the columns would be marked as 'AWC Not Launched'

Note: This report was available only at block level until February 2019. Post the Change request implemented in February 2019, users can now download the reports at state, district and block level as well.

14.9 Tabular Report: LS Performance Report

This report provides a list of lady supervisors and following three indicators for each of them:

- I. Total Number of AWCs visited
- II. Total Number of Beneficiaries Visited
- III. Total Number of VHNDs observed

This report is available for download in excel and csv formats and is available at following levels

- I. State
- II. District
- III. Block

User can click on the “Tabular reports section in the left hand panel” and select the “LS Performance Report” in the Program Area to export and download the report for their region.

The screenshot shows the ICDS-CAS Dashboard interface. On the left, there is a sidebar with various program summary links. In the center, there is a form titled 'Export Program Area Indicators'. At the bottom of this form, there is a section for selecting the 'Program Area' which is set to 'LS Performance Report'. Below this, there are dropdown menus for 'Format' (set to 'Excel'), 'Location' (set to 'Andhra Pradesh'), 'Month' (set to 'March'), and 'Year' (set to '2019'). At the bottom right of this section are 'Export' and 'Reset' buttons. The entire interface has a light blue header bar and a dark grey sidebar.

Figure 154 LS Performance report in tabular reports

15 CAS Data Exports

The CAS data exports provides one beneficiary data per row in a table for a given month. This will help facilitate the raw data access to states to carry out beneficiary level analysis at a state level. The data will be available in 3 tables:

1. AWW Infrastructure

- a. Captures the AWC level details in an aggregate manner including infrastructure and other details
- 2. CCS Records
 - a. Pregnancy and lactation period of a mother
- 3. Child Health Records
 - a. Covering children between 0-6 years of age

For accessing the CAS Data exports, click on the CAS Data exports section in the Left-hand panel, select the state and report to be downloaded and click on export. Please refer to the screenshot below.

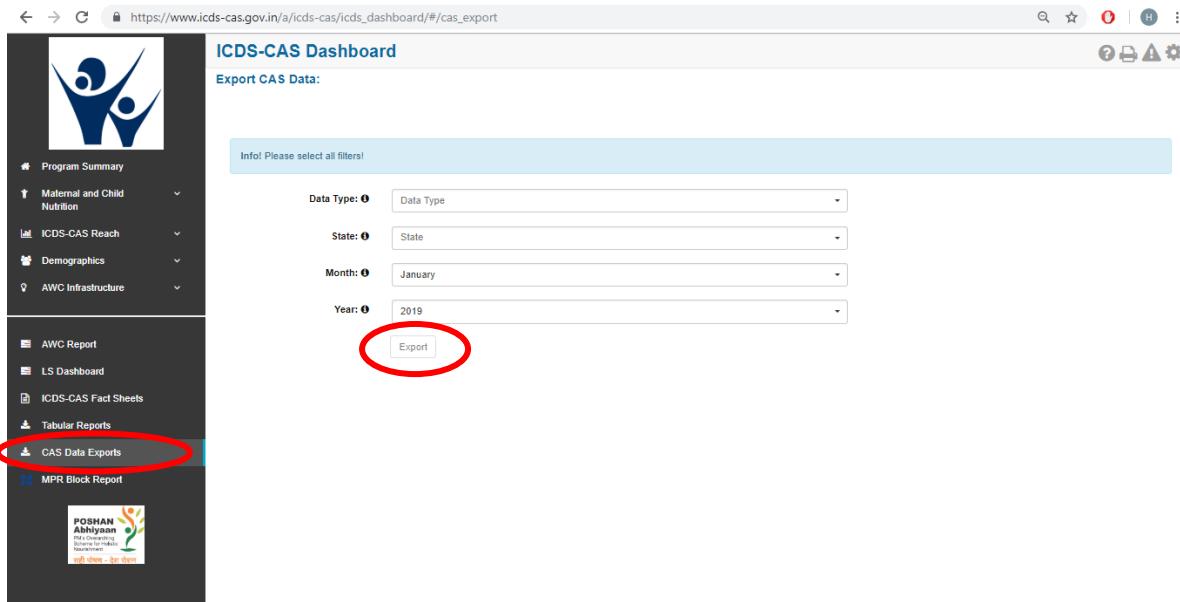

Figure 155: CAS Data Exports-Landing Page

For more details on the CAS data export indicators, please refer to [Appendix A](#).

This data is accessible through an API (Application Program Interface) as well.

Note: Data will be available for the current month starting 15th of the next month.

Accessing CAS Data Export API:

To extract the ICDS CAS Dashboard data using an API, use a command in the following format:

```
curl -o <extract_file_name>.csv -L -H "Authorization: ApiKey <username>:<apikey>" "icds-cas.gov.in/a/icds-cas/icds_dashboard/data_export?month=<month_in_number>&year=<year_in_number>&state_name=<state_name>&type=<report_type>"
```

Type Parameter:

Report type	Parameter Value (case sensitive)
Child	child
AWC	awc
Pregnant and Lactating Woman	woman

Sample Request: To get all the Pregnant & Lactating Women data of Bihar in January 2019

```
curl -o sampleBiharWomanExtract.csv -L -H "Authorization: ApiKey sampleAPUser@dimagi.com:c761c50946804027c2ec8k46a1212075fe6c7d17" "icds-cas.gov.in/a/icds-cas/icds_dashboard/data_export?month=1&year=2019&state_name=Bihar&type=woman"
```

Sample user details referred in the above command:

Sample User: ICDS Sample API User

Username: sampleAPUser@dimagi.com

APIKey: c761c50946804027c2ec8k46a1212075fe6c7d17

Note: Please write to CPMU for approval and API access.

16 MPR Block Report

The user can select and click on the “MPR Block Report” on the left-hand navigation panel, the screenshot of the landing page visible to the user is provided below:

Figure 156: Landing Page

Once the user clicks on the “MPR Block Report” on the left hand navigation panel the user shall be navigated to the below mentioned screen wherein the user shall be required to make selection using the filters available on the page. The user is required to select the month and year to review his relevant Block MPR in the dropdown.

Figure 157: Block MPR Report page filter

The Monthly Progress Reports displays the following information:

- Identification and Basic Information
- Details of Births and Deaths during the month
- Details of new registrations at AWCs during the month
- Delivery of Supplementary Nutrition and Pre-School Education
- Number of AWCs using Iodized salt
- Program Coverage
- Pre-School Education conducted for children 3-6 years

- Growth Monitoring and Classification of Nutritional Status of Children (as per growth chart based on the WHO Child Growth Standards)
- Immunization Coverage
- Village Health and Nutrition Day (VHND) activity summary
- Referral Services
- Monitoring and Supervision During the Month

17 ASR Block Report

The user can select and click on the “ASR Block Report” on the left hand navigation panel and shall be redirected to the below mentioned page where user would be required to choose the location, year, month and accordingly the ASR shall be generated.

The screenshot shows the ICDS-CAS Project Reports interface. On the left, a sidebar lists various report categories: TOOLS (My Saved Reports), BLOCK REPORTS (Block MPR, Block ASR - highlighted in blue), CUSTOM REPORTS (ICDS-CAS Dashboard), REPORTS (Hardware - Per Block, Hardware - Per District, Hardware - Individual Hardware, Issue Tracker - Individual Issues, Issue Tracker - Issues (Block), Issue Tracker - Issues By Ticket Level, Issue Tracker - Issues By Type, Issue Tracker - Issues (District), Issue Tracker - Issues (State)), and MONITOR WORKERS. The main content area is titled "Report Filters" and includes a dropdown menu for "Location" set to "All", and buttons for "Apply", "Favorites", "Save...", and "Email Supported". Below this is a message: "Why can't I see any data? Please choose your filters above and click Apply to see report data."

Figure 158: Block ASR Report page filter

Once the user has made the selection, the user shall be able to view and download the ASR report.

18 Snapshot of Indicator Views on Dashboard

This section provides a snapshot of key indicators available on the dashboard along with their definitions and their location on the dashboard.

Indicator	Definition	Section in Dashboard			
		Map and Chart Views	ICDS-CAS Fact Sheet	Tabular Report	AWC Report
<i>Program Area: Maternal and Child Nutrition</i>					
% Underweight Children (weight-for-age)	Of the total number of children who were weighed in current month (0-5 years old, alive, open in month, seeking services), the percentage of children who were moderately or severely underweight in current month	✓	✓	✓	✓
% Wasting (weight-for-height)	Of the total number of children who were weighed and had height measured in current month (0-5 years), the percentage of children who were moderately or severely wasted in current month	✓	✓	✓	✓
% Stunting (height-for-age)	Of the total number of children who were weighed in current month (0-5 years), the percentage of children who were moderately or severely stunted in current month	✓	✓	✓	✓
% Newborns with Low Birth Weight	Of the total number of children born in the month and weighed, the percentage of children who were born with a low birth weight	✓	✓	✓	✓
% Weighing efficiency (Children <5 weighed)	Of the total number of children who were eligible to be weighed (0-5 years old, alive, open in month, seeking services), the percentage of children who were weighed	✗	✓	✓	✓
% Early Initiation of Breastfeeding	Of the total number of children born in the month, the percentage of children who were breastfed at birth.	✓	✓	✓	✓

Indicator	Definition	Section in Dashboard			
		Map and Chart Views	ICDS-CAS Fact Sheet	Tabular Report	AWC Report
% Exclusive breastfeeding	Of the total number of children eligible for exclusive breastfeeding (0-6 months old), the percentage of children who were exclusively breastfed in the month	✓	✓	✓	✓
% Children initiated appropriate complementary feeding	Of the total number of children eligible for initiation of complementary feeding (6-8 months old), the percentage of children who initiated complementary feeding	✓	✓	✓	✓
% Institutional deliveries	Of the total number of women who were seeking services and delivered in the month, the percentage of institutional deliveries in the month.	✓	✓	✓	✓
Total Number Unweighed	Of the total number of children who were eligible to be weighed (0-5 years old, alive, open in month, seeking services), the total number of children who were unweighed	✗	✓	✓	✗
% Immunization coverage (at age 1 year)	Of the total number of children who are eligible to be fully immunized (older than 12 months), the percentage of children who are fully immunized (including late and on time immunizations)	✓	✓	✓	✓
Program Area: ICDS-CAS Reach					
Number of AWCs Open yesterday	Of the total number of launched AWCs, the number of AWCs that were open yesterday	✓	✓	✓	✗
AWCs covered	Number of launched AWCs (ever submitted at least one Household Registration form)	✓	✗	✗	✗

19 Dashboard Usage Checklist

This section outlines the activities which need to be undertaken by dashboard users on daily, weekly and monthly basis for effective monitoring of ICDS program.

Daily

- Review Program Summary and note whether data is increasing or decreasing.
- For indicators that are decreasing, view the Map/Chart view to look at trends.
- Go to the Chart view page and view top and bottom performing locations under your administrative level.
- Follow up with these locations to understand reasons for poor performance and identify areas for support.

Weekly

- Use the Map View to see if there are certain areas performing better than others.
- Consider if there are factors specific to those geographic areas influencing the trends.
- Use the Chart View to see how the indicator has changed in the past four months. If there has been a consistent negative trend or significant negative change in the indicator.
- Investigate the reasons for this change.
- Follow up with the respective location leaders to offer support.

Monthly

- Review ICDS-CAS Fact Sheets to see how the current month's progress compares to the past two months.
- Select priority indicators to address in the coming month. Share information about these indicators with your team so they have context on the problem.
 - See Map View to show the status of the indicator across geographic areas.
 - See Chart View to see historical trends on the indicator.
- Make a plan for addressing service delivery indicators that are stagnant or worsening over time.
 - Work with the ICDS team in your administrative area to identify the service delivery inputs that would lead to improved performance on outcomes indicators.
 - Set reasonable targets for improvement. Remember that some indicators will be slower to change than others. Some short-term targets could include increasing the number of AWCs open daily, a high percentage of PSE attendance, and weighing efficiency.
 - Agree on goals for service delivery improvement with the ICDS team in your administrative area.
 - Set up a time to review your progress on this month's goals.

20 Decision Making through Dashboard

The ICDS-CAS Dashboard display data and provides reports on various program areas for administrative officers to interpret as they see fit to the program. This section of the manual aims to provide some support to administrative officials on how to interact with and understand the various data points and reports available on the dashboard in order to make data-driven decisions in the ICDS program.

In order to provide a detailed understanding of how to navigate the dashboard for use in decision-making to improve service delivery of the ICDS program, two use-cases are presented here:

Use Case 1: State Project Management Unit (AWC Infrastructure)

Scenario: SPMU wishes to complete procurement of weighing scales. In order to do so, the SPMU team uses the ICDS-CAS Dashboard to investigate the current status of weighing scales available at AWCs in the State. How can the team access this information from the dashboard?

Steps to be followed on the Dashboard:

- View State-level Program Summary for AWC Infrastructure to follow up on procurements of scales that were made for several Districts.
- Select “See more” to see District-level data on a Map View.

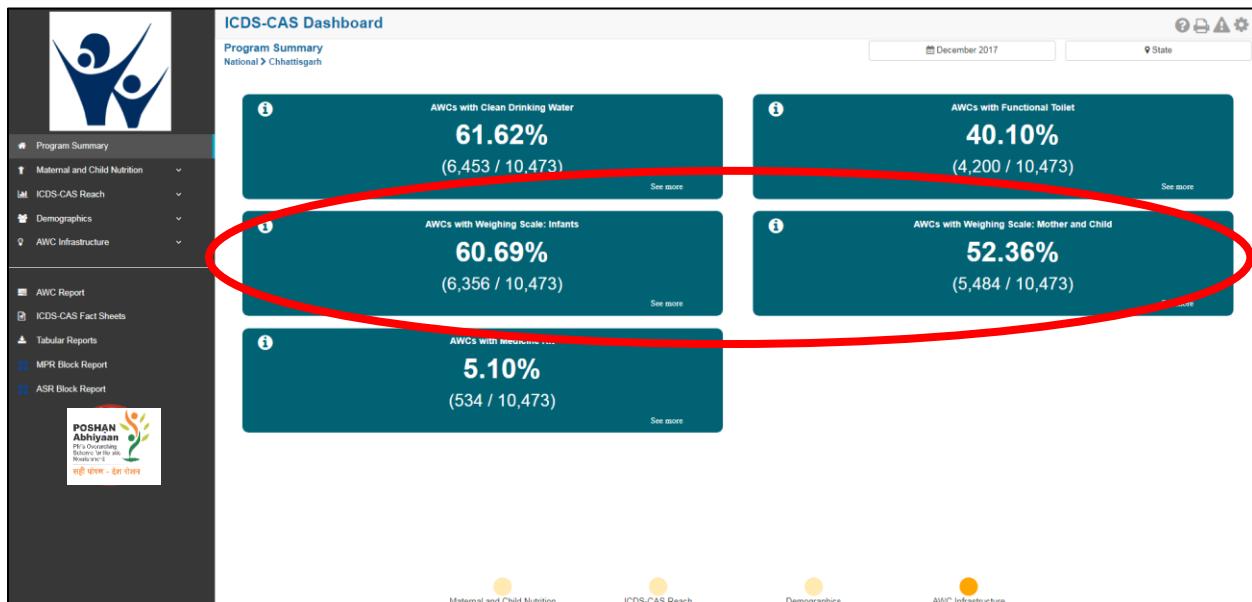

Figure 159: Use Case 1

- Switch to Chart View to see a ranking of top- and bottom-performing Districts.
- Contact lowest-performing Districts to investigate potential bottlenecks in the distribution of scales.
- Encourage District officials to ensure that AWWs are completing the Infrastructure Details form in the ICDS-CAS application.

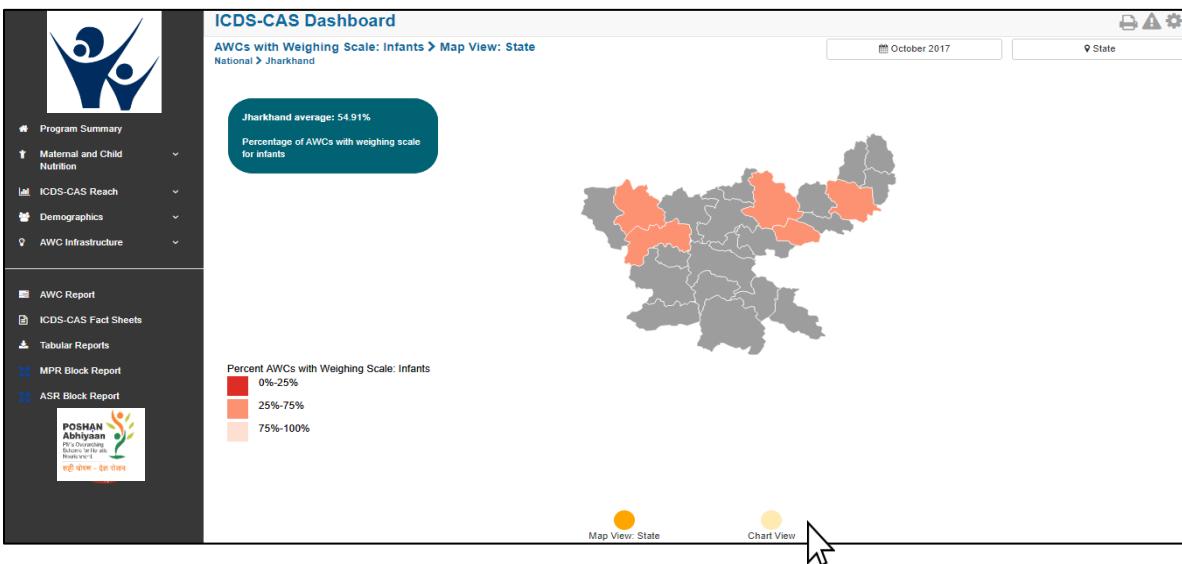

Figure 160: Use Case 1

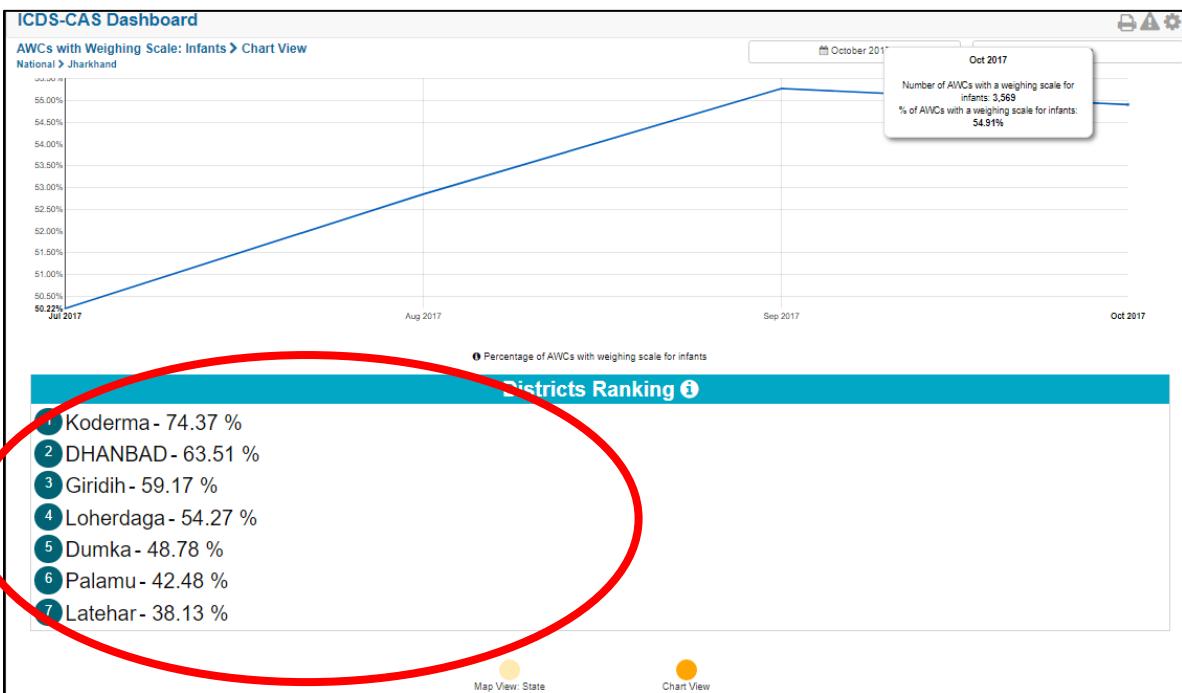

Figure 161: Use Case 1

Use Case 2: District Program Officer (AWW Performance)

Scenario: DPO wishes to monitor the performance of AWWs and follow up with low performing workers. How can the DPO access this information from the dashboard?

Steps to be followed on the Dashboard:

- Views District-level Program Summary for Maternal and Child Nutrition.
- Notice that the indicator Early Initiation of Breastfeeding is very low.
- Select “See more” to see the data on a Map View. Drill down to the Block that shows the lowest percentage of Early Initiation of Breastfeeding.

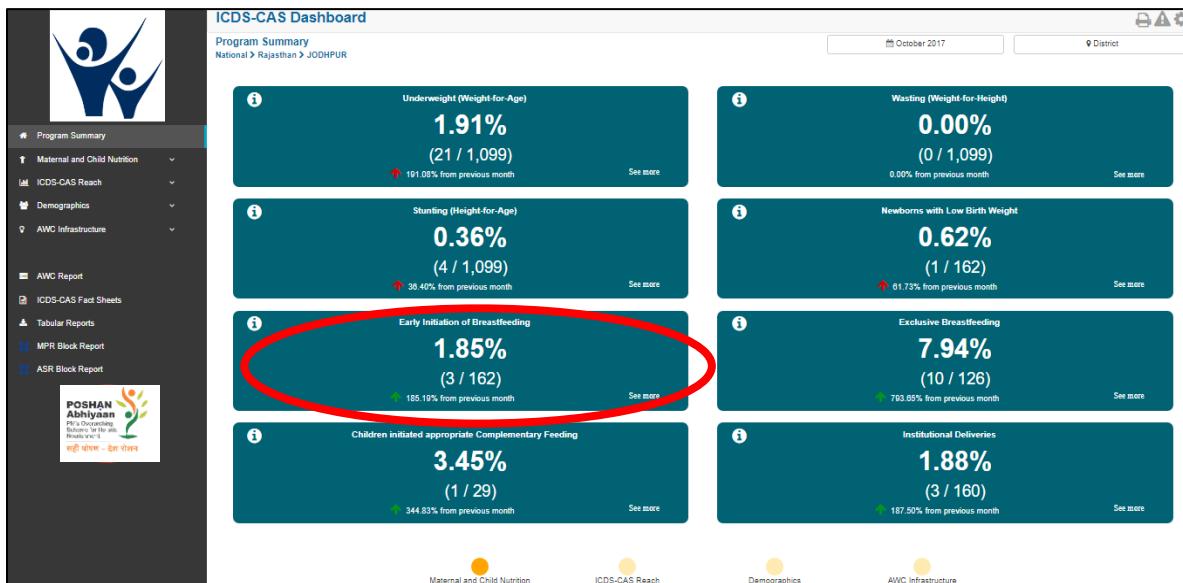

Figure 162: Use Case 2

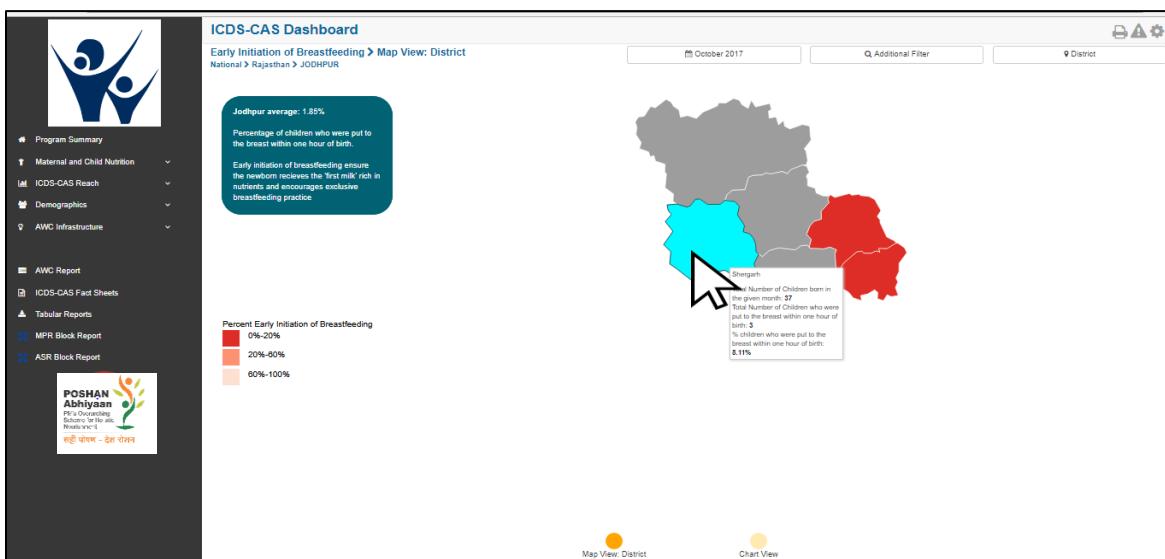

Figure 163: Use Case 2

- Upon looking at the map, notice that one Sector has significantly lower performance on “Early Initiation of Breastfeeding”.
- Switch to chart view to see a ranking of top- and bottom-performing AWCs.

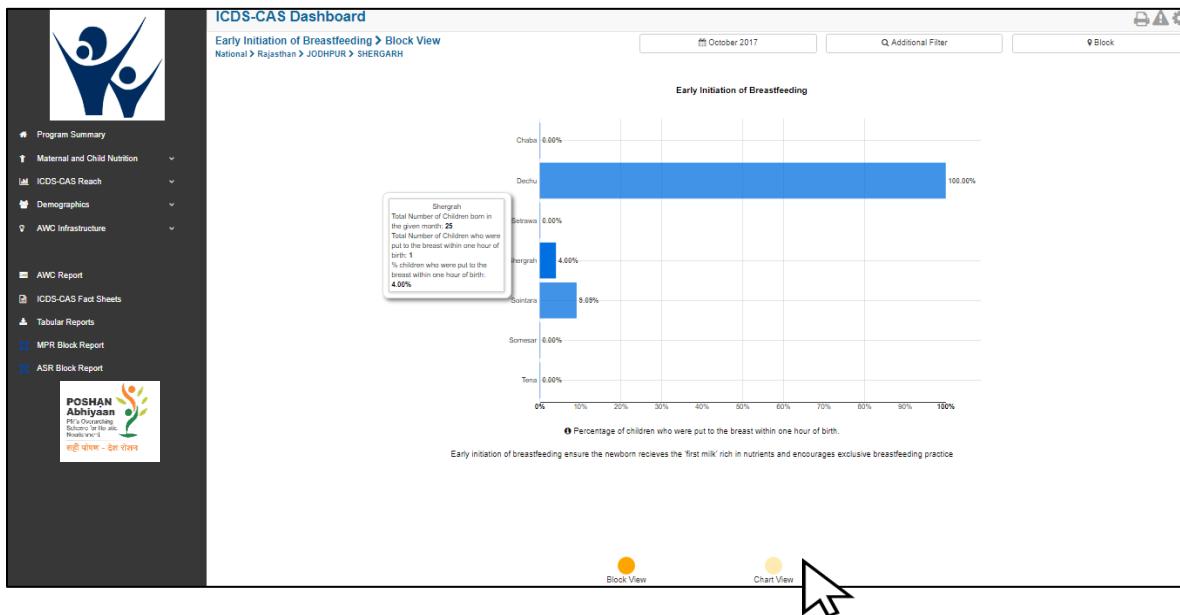

Figure 164: Use Case 2

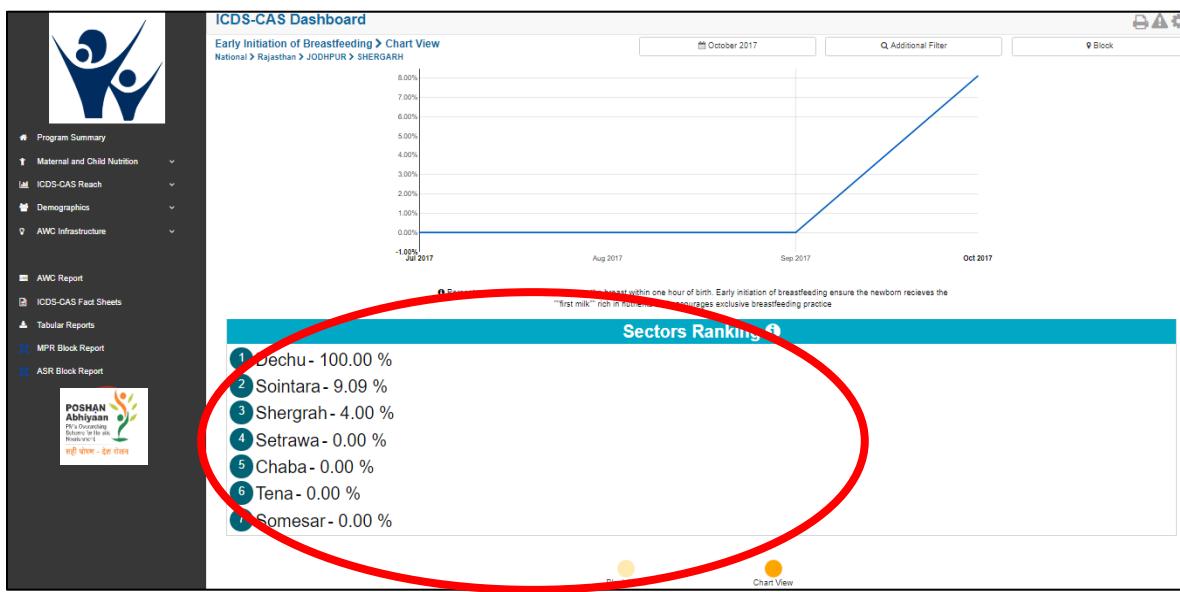

Figure 165: Use Case 2

- Go to Tabular Reports to download the ‘Child’ report by AWC level for the specific location
- Identify the lowest-performing AWCs

- Call the AWW's supervisor and encourage her to give more mentoring to AWWs about the importance of early initiation of breastfeeding as well as to improve app usage.

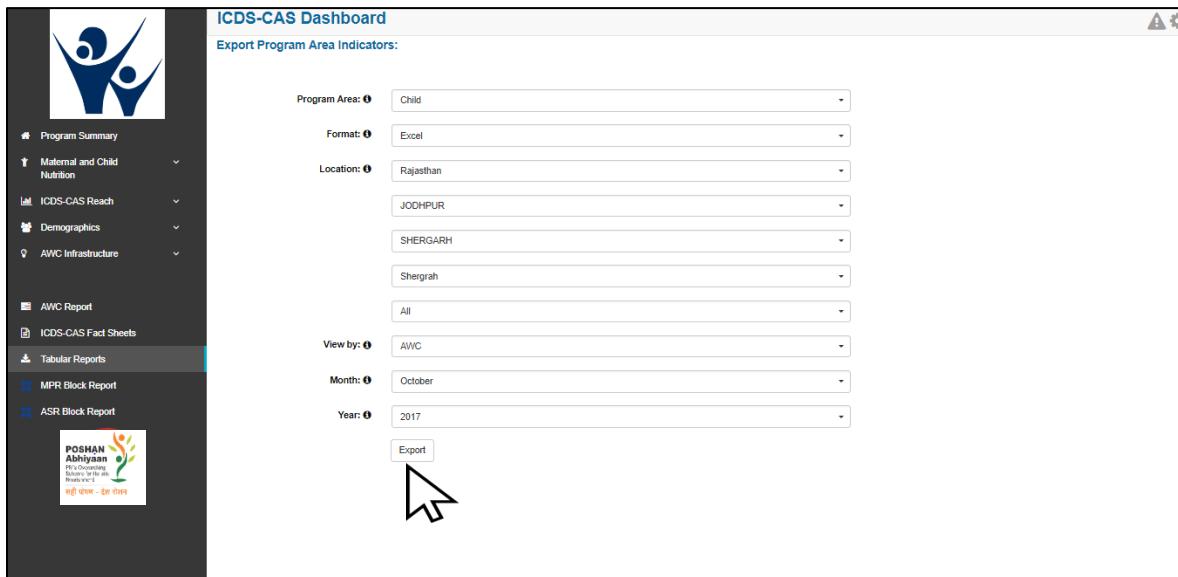

Figure 166: Use Case 2

	State	District	Block	Supervisor	Weighting	Height Measure	Total number	Percenta ge of severely underweight children	Percenta ge of moderately underweight children	Percenta ge of children with moderate stunting	Percenta ge of children with normal height-for-age	Percenta ge of children complete d 1 year immuniza tions	Percenta ge of children breastfeed ing at birth	Percentage of children exclusively breastfeed ing	Percenta ge of children initiated complementary feeding with appropriate diversity quantity	Percenta ge of children receiving complem entary feeding with appropriate diversity quantity	Percenta ge of children receiving complem entary feeding with appropriate diversity quantity	Percenta ge of children receiving complem entary feeding with appropriate diversity quantity	Percenta ge of children receiving complem entary feeding with appropriate diversity quantity

Figure 167: Use Case 2

Disclaimer

The screenshots and figures shown in the manual are only for reference purpose. The user is requested to visit the ICD-CAS Dashboard for actual and up-to date figures.

Appendix A

In this appendix, we have three tables describing all the indicators for the CAS Data Export reports for the Mother-CCS record, Child Health & AWC infrastructure respectively. To refer to how to export CAS Data, please refer to the [CAS Data Export](#) section.

Mother-CCS Record (Woman from pregnancy until the lactation phase)	
Indicator	Description
awc_id	Identification ID of Aanganwadi centre
case_id	Unique case id of beneficiary
month	The month which is applicable for the data set downloaded
age_in_months	Age in months at the end of the month
ccs_status	Represents the phase of the beneficiary. This could be pregnant, lactating or other
open_in_month	If the case is open in the month and is relevant for the time window
alive_in_month	Indicates if the beneficiary was alive in that month .'1' indicates alive '0' indicates dead
trimester	Trimester of the beneficiary. Values 1,2,& 3 indicate pregnant woman. Blank indicate lactating woman. All indicate any non-AWC row
num_rations_distributed	Indicates the count of THRs (Take Home Ration) distributed in the month for the beneficiary.
thr_eligible	Whether the beneficiary is eligible for Take Home Rations.
tetanus_complete	Whether or not the tetanus vaccination was administered in completion
delivered_in_month	Indicates if the delivery took place in the relevant month
anc1_received_at_delivery	If at least 1 ANC visit by the time of delivery
anc2_received_at_delivery	If at least 2 ANC visit by the time of delivery
anc3_received_at_delivery	If at least 3 ANC visit by the time of delivery
anc4_received_at_delivery	If at least 4 ANC visit by the time of delivery
registration_trimester_at_delivery	Trimester in which the beneficiary was registered for the pregnancy
using_ifa	If pregnant seeking services cases who indicated, they were using IFA (Iron/Folic Acid) tablets during their last visit before end of month
ifa_consumed_last_seven_days	Trimester 2 or 3 cases who indicated they were used more than 4 IFA (Iron/Folic Acid) tablets during the last 7 days on their last BP visit (before end of month)
anemic_severe	Pregnant seeking services woman who were severe for anemia during their last BP visit updating it (could have been in previous month)

anemic_moderate	Pregnant seeking services woman who were moderate for anemia during their last BP visit updating it (could have been in previous month)
anemic_normal	Pregnant seeking services woman who were normal for anemia during their last BP visit updating it (could have been in previous month)
anemic_unknown	Pregnant seeking services woman who there is no anemia information
extra_meal	Pregnant seeking services woman who are eating extra indicated during last BP visit (could have been in previous month)
resting_during_pregnancy	Pregnant seeking services who are resting during pregnancy indicated during last BP visit (could have been in previous month)
bp_visited_in_month	Indicates if there is a BP form submitted in the month. 1 - Form submitted, 0- Not submitted
pnc_visited_in_month	If there is a post-natal check-up form submitted in month then 1 else 0
trimester_2	1 if the pregnant woman is in trimester 2 else 0
trimester_3	1 if the pregnant woman is in trimester 3 else 0
counsel_immediate_bf	Trimester_3 woman counselled on immediate breastfeeding in the Birth Preparedness form submitted prior to delivery
counsel_bp_vid	Trimester_3 woman counselled on BP using a video
counsel_preparation	Trimester_3 woman counselled on birth preparation
counsel_fp_vid	Trimester_3 woman counselled on Family planning using a video
counsel_immediate_conception	Trimester_3 woman counselled risks of immediate conception
counsel_accessible_postpartum_fp	Trimester_3 woman counselled on accessing postpartum family planning
bp1_complete	Pregnant seeking services woman who have received a BP1 visit (could have been in previous month)
bp2_complete	Pregnant seeking services woman who have received a BP2 visit (could have been in previous month)
bp3_complete	Pregnant seeking services woman who have received a BP3 visit (could have been in previous month)
pnc_complete	Postnatal seeking services woman who have received a post natal check visit (could have been in previous month)
postnatal	Postnatal woman (within 0 and 21 days of ADD)
has_aadhar_id	Whether Aadhaar id has been captured
counsel_fp_methods	If lactating and any EBF or PNC form has counsel_methods = yes
pregnant	Open, non-dead cases that are seeking services at the AWC that have not yet delivered
pregnant_all	Open, non-dead cases that have not yet delivered - includes cases that are both seeking and not seeking services
lactating	Open, non-dead cases that are seeking services at the AWC and between 0 and 6 months post delivery
lactating_all	Open, non-dead cases and between 0 and 6 months post delivery - includes cases that are both seeking and not seeking services
institutional_delivery_in_month	Delivered_in_month woman who had an institutional deliver
add	Actual Date of Delivery

anc_in_month	Whether ANC checkup was conducted in the month
caste	Caste
disabled	Disabled Flag
minority	Minority Flag
resident	Resident Flag
anc_weight	Weight at antenatal check
anc_blood_pressure	Blood Pressure at antenatal check
bp_sys	Blood Pressure systolic
bp_dia	Blood Pressure diastolic
anc_hemoglobin	Hemoglobin at antenatal check
bleeding	If bleeding was a symptom during ANC check up
swelling	If swelling was a symptom during ANC check up
blurred_vision	If blurred vision was a symptom during ANC check up
convulsions	If convulsions were a symptom during ANC check up
rupture	If rupture was a symptom during ANC check up
anemia	Indicate if the pregnant woman is suffering from anemia
eating_extra	Indicated if the pregnant woman is eating extra meals
resting	Indicated if the pregnant woman is taking rest
immediate_breastfeeding	Whether the mother was counselled on immediate breastfeeding post delivery
person_name	Masked to protect privacy
edd	Expected date of Delivery
delivery_nature	Indicates if the delivery was institutional or not
is_ebf	Indicates if the child was exclusively breastfed
breastfed_at_birth	Indicates if the child was breastfed immediately after birth
anc_1	Antenatal check-up 1 date
anc_2	Antenatal check-up 2 date
anc_3	Antenatal check-up 3 date
anc_4	Antenatal check-up 4 date
tt_1	Date when Tetanus 1 was administered
tt_2	Date when Tetanus 2 was administered
valid_in_month	Valid in month (open, non-dead child health cases between 0-72 months that are seeking services at the AWC)
mobile_number	Mobile number for the beneficiary
preg_order	Which pregnancy
home_visit_date	Home visit date
num_pnc_visits	PNC visits count
last_date_thr	Date of last THR given
num_anc_complete	Antenatal check-ups that have been completed
opened_on	Date of case opening
valid_visits	Number of valid home visits administered
dob	Date of birth
date_death	Date of death

Child Health Data (children from 0 to 6 years)	
Indicator	Description
awc_id	Identification ID of Aanganwadi centre
case_id	Unique case id of beneficiary
month	The month which is applicable for the data set downloaded
age_in_months	Childs age in months at the end of the month
open_in_month	If the case is open in the month and is relevant for the time window
alive_in_month	Indicates if the beneficiary was alive in that month.'1' indicates alive '0' indicates dead
wer_eligible	Number of children who are eligible for weighing (between 0 and 5 years and valid in month)
nutrition_status_last_recorded	Indicate the last recorded nutritional status of the child. Possible values are normal, moderately underweight, severely underweight and unknown. 'Unknown' indicate that child has never been weighed in the past
current_month_nutrition_status	Indicate the nutritional status of the child in the current month. Possible values are normal, moderately underweight, severely underweight and unweighed. 'Unweighed' indicate that child has not been weighed in the month
nutrition_status_weighted	Whether or not the child was weighed in the reporting month
num_rations_distributed	For each THR (Take home Ration) form submitted for iteration month for the ccs_record case, sum of the number of rations received
pse_eligible	If the child is pre-school eligible (between 36 and 72 months and valid in month)
pse_days_attended	Number of PSE days attended in month by child
born_in_month	Child born in month (based on DOB being within the month)
low_birth_weight_born_in_month	Indicates if the child is born in this property and has low birth weight
bf_at_birth_born_in_month	Indicates if the child is born in this month and was breastfed at birth
ebf_eligible	Is the child exclusive breast feeding eligible (between 0 and 6 months and valid in month)
ebf_in_month	Exclusive breast feeding (EBF) eligible children who were EBF during an EBF/PNC visit in the month
ebf_not_breastfeeding_reason	If ebf_eligible is 1, then for EBF/PNC forms received for child in the month, value of latest form with regards to reason of why they are not breastfeeding
ebf_drinking_liquid	If ebf_eligible is 1, then for EBF/PNC forms received for child in the month, if /data/child/water_or_milk = 'yes' or /data/child/tea_other = 'yes', then 1 else 0

ebf_eating	If ebf_eligible, then for EBF/PNC forms received for child in the month, if latest form's /child/eating = 'yes' then 1 else 0
ebf_no_bf_no_milk	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'not_enough_milk' (for that particular child) then 1 else 0
ebf_no_bf_pregnant_again	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'pregnant_again' (for that particular child) then 1 else 0
ebf_no_bf_child_too_old	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'child_too_old' (for that particular child) then 1 else 0
ebf_no_bf_mother_sick	If ebf_eligible and For EBF forms received for child in the month, if latest form has /child/not_breastfeeding = 'child_mother_sick' (for that particular child) then 1 else 0
cf_eligible	If child is complementary feeding eligible (between 6 and 24 months and valid in month)
cf_in_month	Complementary feeding eligible children who were CF during their last visit (could be in a previous month)
cf_diet_diversity	Complementary feeding eligible children who eating a diverse diet during their last visit (could be in a previous month)
cf_diet_quantity	Complementary feeding eligible children who were eating adequate amounts of food during their last visit (could be in a previous month)
cf_handwashing	Complementary feeding eligible children whose mothers handwashed prior to feeding during the last visit (could have been a prior month)
cf_demo	Complementary feeding eligible children who have received a demo of complementary feeding at any point before the end of the current month
fully_immunized_eligible	If age in months at month end > 12 and the beneficiary is valid_in_month
fully_immunized_on_time	If fully immunized before the child turns 1 year and the full immunization happened previous to the current month
fully_immunized_late	If fully immunized after the child turns 1 year and the full immunization happened previous to the current month
counsel_efb	Exclusive breast feeding eligible child whose mothers were counselled exclusive breastfeeding or using only milk (question is asked in two ways depending on PNC or EBF form) (at any point prior to end of month)
counsel_adequate_bf	Exclusive breast feeding eligible children whose mothers were counselled on adequate breastfeeding (at any point prior to end of month)
counsel_pediatric_ifa	Complementary feeding eligible children whose mothers were counselled on pediatric IFA tablets (at any point prior to end of month)
counsel_comp_feeding_vid	If the child was eligible for complementary feeding and said 'yes' to showing complementary feeding video to the beneficiary

counsel_increase_food_bf	Post-natal check eligible child whose mother was counselled to increase food consumption (because of breastfeeding) (at any point prior to end of month)
counsel_manage_breast_problems	Post-natal check eligible child whose mother was counselled on managing breastfeeding problems (at any point prior to end of month)
counsel_skin_to_skin	If post-natal check eligible child and for child prior to end of month had skin to skin counselling administered
counsel_immediate_breastfeeding	If the child born in month and valid_in_month with a ccs record that has a BP form with /data/.../immediate_breastfeeding = "yes" then 1 else 0
recorded_weight	Recorded Weight
recorded_height	Recorded Height
has_aadhar_id	Does the child have an Aadhaar ID captured
thr_eligible	If child is eligible for THR (between 6 and 36 months and valid in month)
pnc_eligible	Post-natal check eligible child (between the ages 0 and 20 days and valid in month) at any point during the month. (This means that a child may count as PNC eligible for two subsequent months)
cf_initiation_in_month	Complementary feeding initiation eligible children who were administered complementary feeding at any point prior to the end of the month
cf_initiation_eligible	If child is eligible to initiate CF (between 6-8 months and valid in month)
height_measured_in_month	Children who were eligible to be measured and who had their height measured in month
current_month_stunting	<p>if not height_eligible, blank/null</p> <p>Indicate the stunting level in child for the current month. Below are the possible values</p> <p>severe moderate normal unmeasured</p>
stunting_last_recorded	<p>if height_eligible:</p> <p>Get the zscore_grading_hfa from the last additional growth monitoring form where it was not null. Then</p> <p>red -> severe yellow -> moderate green -> normal otherwise -> unknown</p> <p>if not height_eligible, blank/null</p>

wasting_last_recorded	if height_eligible: Get the zscore_grading_wfh from the last additional growth monitoring form where it was not null. Then red -> severe yellow -> moderate green -> normal otherwise -> unknown if not height_eligible, blank/null
current_month_wasting	if height_eligible: Get the zscore_grading_wfh from the last additional growth monitoring form in the month where zscore_grading_wfh was not null. Then red -> severe yellow -> moderate green -> normal otherwise -> unmeasured if not height_eligible, blank/null
valid_in_month	Valid in month (open, non-dead child health cases between 0-72 months that are seeking services at the AWC)
valid_all_registered_in_month	Open, non-dead child health cases between 0-72 months - this includes both those cases seeking and not seeking services
ebf_no_info_recorded	Indicates If the child is eligible for exclusive breast feeding but no ebf form is received. It will reflect a value '1' in this case and '0' otherwise
dob	Date of Birth
sex	Sex of the child
age_tranche	Age range for the row 0: 0-28 days 6: 28 days - 6 mo 12: 6-12mo 24: 12-24mo 36: 24-36mo 48: 36-48mo 60: 48-60mo 72: 60-72mo
caste	Caste
disabled	Disabled Flag
minority	Minority Flag
resident	Resident Flag
person_name	Masked to protect privacy
mother_name	Masked to protect privacy
immunization_in_month	Indicates if immunization was given in this month
days ration given child	Number of days child has been given take home ration
zscore_grading_hfa	Grading for height for age, can be red, yellow or green
zscore_grading_hfa_recorded_in_month	If the grading was done in the current month then 1, else 0
zscore_grading_wfh	Grading for weight for height, can be red, yellow or green
zscore_grading_wfh_recorded_in_month	If the grading was done in the current month then 1, else 0
muac_grading	If MUAC was collected, then grading

ccs_record_case (best effort)	ccs_case id linked with this child case
date_death	date of death

AWC Infrastructure	
Indicator	Description
state_id	Unique identification for the state
district_id	Unique identification District (could be All for aggregation)
block_id	Unique identification block (could be All for aggregation)
supervisor_id	Unique identification for supervisor (could be All for aggregation)
awc_id	Anganwadi Identification number
month	Month for the data (date that is the first of the month)
num_awcs	Number of AWC locations
awc_days_open	Total number of days AWCs were open in that month (across all AWCs in the aggregation)
total_eligible_children	Total number of eligible children for Pre-school education (PSE) for that month
total_attended_children	Total number of attended children for Pre-school education (PSE) for that month
pse_avg_attendance_percent	Average attendance per day
pse_full	Number of days that AWCs that had full attendance (>= 80%)
pse_partial	Number of days that AWCs that had partial attendance (< 80% and >= 60%)
pse_non	Number of days that AWCs that had non attendance (< 60%)
pse_score	Average of the pre-school education score
awc_days_provided_breakfast	Number of days in which AWC provided breakfast
awc_days_provided_hotmeal	Number of days in which AWC provided hotmeal
awc_days_provided_thr	Number of days in which AWC provided Take Home Ration (THR)
awc_days_provided_pse	Number of days in which AWC provided Pre-school education (PSE)
awc_not_open_holiday	Number of days in which AWC was not open due to Holiday
awc_not_open_festival	Number of days in which AWC was not open due to Festival
awc_not_open_no_help	Number of days in which AWC was not open due to AWC not having helpers
awc_not_open_department_work	Number of days in which AWC was not open due to AWC having department work
awc_not_open_other	Number of days in which AWC was not open due to other reasons
awc_num_open	Number of AWCs that were open at least one day in the month
awc_not_open_no_data	Number of days in which AWC was not open and did not report it Take Home Ration (THR)ough the app
wer_weighed	Number of children weighed

wer_eligible	Number of children who are eligible for weighing (between 0 and 5 years and valid in month)
wer_score	Average of WER score for each AWC wer_score = 20 when sum(wer_weighted)/sum(wer_eligible) >= 80% wer_score = 10 when sum(wer_weighted)/sum(wer_eligible) >= 60% wer_score = 1 otherwise
thr_eligible_child	Number of children eligible for Take Home Ration (THR) (6 - 36mo)
thr_rations_21_plus_distributed_child	Number of children who received 21+ rations in month
thr_eligible_ccs	Number of ccs records eligible for Take Home Ration (THR) (pregnant women, or lactating women for 6mo post-delivery)
thr_rations_21_plus_distributed_ccs	Number of eligible CCS records who received 21+ rations
thr_score	Average of THR score for each AWC thr_score = 20 when sum (thr_rations_21+ for child and ccs)/sum(thr_eligible for child and ccs) >= 70% thr_score = 10 when sum(thr_rations_21+ for child and ccs)/sum(thr_eligible for child and ccs) >= 50% thr_score = 1 otherwise
awc_score	Average of AWC score for each AWC awc_score = pse_score + thr_score + wer_score
num_awc_rank_functional	Number of AWCs where awc_score >= 60
num_awc_rank_semi	Number of AWCs where awc_score < 60 and >= 40
num_awc_rank_non	Number of AWCs where awc_score < 40
cases_ccs_pregnant	Number of CCS records that are pregnant in month who are seeking services at AWC
cases_ccs_lactating	Number of CCS records that are lactating in month (up to 6mo post-delivery) who are seeking services at AWC
cases_child_health	Number of child health cases in month (children between 0 and 6 years) who are seeking services at AWC
usage_num_pse	Number of Daily Attendance forms submitted
usage_num_gmp	Number of GMP forms submitted
usage_num_thr	Number of THR forms submitted
usage_num_home_visit	Number of Home Visit forms (BP, PNC, Delivery, EBF, CF) forms submitted
usage_num_bp_tri1	Number of BP forms submitted in Trimester 1
usage_num_bp_tri2	Number of BP forms submitted in Trimester 2
usage_num_bp_tri3	Number of BP forms submitted in Trimester 3
usage_num_pnc	Number of Prenatal check (PNC) forms submitted
usage_num_ebf	Number of Exclusive breast feeding (EBF) forms submitted
usage_num_cf	Number of complementary feeding (CF) forms submitted
usage_num_delivery	Number of Delivery forms submitted
usage_num_due_list_ccs	Number of Due List forms submitted for CCS records
usage_num_due_list_child_health	Number of Due List forms submitted for Child Health cases
usage_awc_num_active	Number of AWCs active (submitted 15 or more forms of due list, Pre-school education (PSE), GMP, THR, home visit, add pregnancy or add household)
usage_time_pse	Average time to complete a Pre-school education (PSE) form

usage_time_gmp	Average time to complete a GMP form
usage_time_bp	Average time to complete a BP form
usage_time_pnc	Average time to complete a Prenatal check (PNC) form
usage_time_ebf	Average time to complete a Exclusive breast feeding(EBF) form
usage_time_cf	Average time to complete a complementary feeding (CF) form
usage_time_of_day_pse	#N/A
usage_time_of_day_home_visit	#N/A
vhnd_immunization	Number of VHND Immunizations
vhnd_anc	Number of VHND ANC visits
vhnd_gmp	Number of VHND growth monitoring sessions
vhnd_num_pregnancy	Number of Pregnant women at VHND
vhnd_num_lactating	Number of Lactating women at VHND
vhnd_num_mothers_6_12	Number of mothers with children between 6 and 12 months at VHND
vhnd_num_mothers_12	Number of mothers with children older than 12 months at VHND
vhnd_num_fathers	Number of fathers at VHND
ls_supervision_visit	Number of LS supervision visits
ls_num_supervised	Number of AWCs supervised in month
ls_awc_location_long	Average location of Supervision Visit (longitude)
ls_awc_location_lat	Average location of Supervision Visit (latitude)
ls_awc_present	Number of supervision visits in which AWW was present
ls_awc_open	Number of supervision visits in which AWC was open
ls_awc_not_open_aww_not_available	Number of supervision visits in which AWC was not open due to AWW not available
ls_awc_not_open_closed_early	Number of supervision visits in which AWC was not open due to AWC closed early
ls_awc_not_open_holiday	Number of supervision visits in which AWC was not open due to holiday
ls_awc_not_open_unknown	Number of supervision visits in which AWC was not open due to unknown reason
ls_awc_not_open_other	Number of supervision visits in which AWC was not open due to other reason
infra_last_update_date	#N/A
infra_type_of_building	#N/A
infra_type_of_building_pucca	Number of AWCs with Pucca buildings
infra_type_of_building_semi_pucca	Number of AWCs with Semi Pucca buildings
